The fully revised and updated selection of critical writing, more than half of the essays are new to this edition, reflects an intentionally multinational perspective taking into account non-English traditions and what childhood looks like in an age of globalization. All authors trace their keyword's uses and meanings from translation to poetry, taboo to diversity and trauma to nostalgia. The volume includes a comprehensive list of canonical titles for reference. *The Oxford Handbook of Children's Literature* Julia Mickenberg, Lynne Vallone, 2012-11-29. This collection pushes boundaries of genre, notions of childhood. Choice. Back cover of book. *British Children's Literature of the 19th Century* Patrick C. Fleming, 2025-02-13. Many beloved classics of children's literature including Alice's Adventures in Wonderland, Peter Pan, and The Tale of Peter Rabbit were written at the end of the nineteenth century, an era known as the Golden Age of children's literature. Notable figures like William Godwin, Harriet Martineau, Christina Rossetti, and Charles Dickens contributed to children's literature, while juvenile periodicals first appeared to young readers during this time. This is the first comprehensive reference work about the Golden Age of children's literature and the emergence of juvenile literature as a major publishing phenomenon. Alphabetical entries include foundational figures like Sarah Trimmer, Maria Edgeworth, and Mary Martha Sherwood, who helped establish the market for children's literature. New genres for the time like the moral tale, religious fiction, children's poetry, school stories, and prolific authors like Hesba Stretton, L. T. Meade, and G. A. Henty are also included. **Children's Literature and the Posthuman** Zoe Jaques, 2015-02-11. An investigation of identity formation in children's literature, this book brings together children's literature and recent critical concerns with posthuman identity to argue that children's fiction offers sophisticated interventions into debates about what it means to be human and, in particular, about humanity's relationship to animals and the natural world. In complicating questions of human identity, ecology, gender, and technology, Jaques engages with a multifaceted posthumanism to understand how philosophy can emerge from children's fantasy, disclosing how such fantasy can build upon earlier traditions to represent complex issues of

humanness to younger audiences Interrogating the place of the human through the non human whether animal or mechanical leads this book to have interpretations that radically depart from the critical tradition which in its concerns with the socialization and representation of the child has ignored larger epistemologies of humanness The book considers canonical texts of children s literature alongside recent bestsellers and films locating texts such as Gulliver s Travels 1726 Pinocchio 1883 and the Alice books 1865 1871 as important works in the evolution of posthuman ideas This study provides radical new readings of children s literature and demonstrates that the genre offers sophisticated interventions into the nature boundaries and dominion of humanity *Children's Literature and its Effects* Cedric Cullingford,2000-11-01 A study of children s authors who are typical of their time such as Enid Blyton Angela Brazil Judy Blume and Ronald Dahl The book discusses comics as well as classic texts and the possible effects of these materials on children s attitudes
