Semantics of the Greek New Testament Eugene Albert Nida, J. P. Louw, 1992 **A Handbook to the Exegesis of the New Testament** Stanley E. Porter, 2022-02-07 This handbook provides a substantial theoretical and practical guide to the multi faceted discipline of exegesis of the New Testament After an introduction to exegesis and a bibliographic essay on the basic tools the volume has two major parts The first focuses on method and includes essays on the major approaches to exegesis including textual criticism language genre and backgrounds The second part applies exegetical method to the various literary units of the New Testament Most exegetical handbooks are either too short and brief thereby failing to cover the requisite current topics in sufficient depth or too technically difficult failing to provide a useful methodology This coordinated volume offers succinct and well informed essays with plenty of bibliography written by experts in their respective fields The handbook will serve well as a textbook as well as a reference book to the major tools and topics in the area This publication has also been published in paperback please click here for details *Radical Frame Semantics and Biblical Hebrew* Stephen

Shead, 2011-09-09 Drawing on various modern linguistic models including cognitive linguistics frame semantics and construction grammar this book presents a new integrated approach to lexical semantic analysis of biblical Hebrew applying it in a detailed study of words related to exploring **Linguistics for Students of New Testament Greek** David Alan Black, 1988 **An Introduction to the New Testament** DAVID A DESILVA, 2020-05-21 Professor deSilva's outstanding textbook sets a new standard for the genre The usual topics of New Testament introduction are integrated with instruction in interpretative strategies and application to ministry formation The attractive layout includes numerous maps photographs and text boxes *The Self, the Lord, and the Other according to Paul and Epictetus* Michael J. study explores the relationship between the individual person the self the divine and other people in the writings of the apostle Paul and the Roman Stoic Epictetus It does so by examining self involving actions expressed with reflexive pronouns myself yourself etc in various kinds of sentences for example Examine yourself and You do not belong to yourself After situating the topic within the fields of linguistics and ancient Greek the study then examines the reflexive constructions in Epictetus s Discourses showing that reflexive texts express fundamental aspects of his ethic of rational self interest in imitation of the indwelling rational deity Next the investigation examines the 109 reflexive constructions in Paul providing an exegesis of each reflexive text and then synthesizing the results Paul s reflexive phrases are essential statements of his theology and ethics expressing an interconnected narrative Christology narrative apostolic identity and narrative ethic Most importantly the study finds that for Epictetus concern for others is a rational means to self realization whereas for Paul concern for others is a community ethic grounded in the story of the indwelling Christ and is the antithesis of self interest

Biblical Semantic Logic Arthur Gibson, 2002-04-19 *Biblical Semantic Logic* first appeared in 1981 and seeks to show that the study of biblical and ancient Near Eastern languages and literatures can be established on a logical basis In a new prologue for this edition Gibson reviews some of the scholarly treatment of the topic since the appearance of the first edition He addresses the topics of originality and infinity and also suggests that deep areas of literary creativity resemble cosmology and pure mathematics Gibson then demonstrates how the central areas of biblical usage names predicates expressions of quantity idioms can be mapped employing some contemporary philosophy logic and linguistics There is criticism of some previous scholarly interpretations especially where these have led to the underestimation of the conceptual and logical sensitivity of biblical narrative

The Use of the Septuagint in New Testament Research Tim McLay, 2003 Too often the Septuagint is misunderstood or worse ignored in New Testament studies In this book R Timothy McLay makes a sustained argument for the influence of the Greek Jewish Scriptures on the New Testament and offers basic principles for bridging the research gap between these two critical texts McLay explains the use of the Septuagint in the New Testament by looking in depth at actual New Testament citations of the Jewish Scriptures This work reveals the true extent of the Septuagint s impact on the text and theology of the New Testament Indeed given the textual diversity that existed during the first century the Jewish Scriptures as they were known read and interpreted in the Greek language provided the basis for much if not most of the interpretive context of the New Testament writers Complete with English translations a glossary of terms an extensive bibliography and helpful indexes this book will give readers a new appreciation of the Septuagint as an important tool for interpreting the New Testament

Fewster,2013-04-04 Modern scholarship tends to understand Paul's use of creation language in Rom 8 18-23 as part of a commentary on the state of sub-human creation This misguided position warrants an inquiry into the state of lexical study in New Testament scholarship As a result Fewster articulates a theory of lexical monosemy cast in the framework of Systemic Functional Linguistics The model is applied to Paul's use of through a robust corpus analysis and investigation into the word's role within the paragraph contributes to the cohesive structure of Rom 8 18-23 and contra the majority of interpreters functions as a metaphor for the human body **Introduction to Biblical Interpretation** William W. Hebrew Lexical Semantics and Daily Life in Ancient Israel Kurtis Peters,2016-07-11 In Hebrew Lexical Semantics and Daily Life in Ancient Israel Kurtis Peters hitches the world of Biblical Studies to that of modern linguistic research Often the insights of linguistics do not appear in the study of Biblical Hebrew and if they do the theory remains esoteric Peters finds a way to maintain linguistic integrity and yet simplify cognitive linguistic methods to provide non specialists an access point By employing a cognitive approach one can coordinate the world of the biblical text with the world of its surroundings The language of cooking affords such a possibility Peters evaluates not only the words or lexemes related to cooking in the Hebrew Bible but also the world of cooking as excavated by archaeology *New Testament Interpretation* I. Howard Marshall,2006-10-01 These eighteen pieces have been commissioned to provide a succinct yet comprehensive guide to the best of recent evangelical thinking about how the New Testament is to be interpreted so that it may speak most clearly to today s world The need for such a handbook can be felt more keenly as on the one side a secularized world dismisses the biblical faith as outmoded unworkable and unsatisfying and on the other numerous Christian communities committed to taking that faith with ultimate seriousness are driven by controversies about how to read and understand the Bible Following the editor s introduction in which I Howard Marshall examines a familiar New Testament passage in order to exemplify the

problems and rewards that await the careful interpreter the essays are arranged under four headings beginning with overviews of the history of New Testament study and the role of the interpreter's presuppositions in this enterprise then going on to discuss the various critical tools the methods of exegesis and the application of the New Testament to the faith and life of the contemporary reader An annotated bibliography concludes the presentation Because the issues involved here have too often been ignored in many quarters more than one approach to or opinion about a given matter may surface in these essays yet undergirding this diversity is the author's shared conviction as conservative evangelicals with a high regard for the authority of Holy Scripture that we are called upon to study the Bible with the full use of our minds As the editor writes The passages which we interpret must be the means through which God speaks to men and women today Our belief in the inspiration of the Bible is thus a testimony that New Testament exegesis is not just a problem it is a real possibility God can and does speak to men through even the most ignorant of expositors of his Word At the same time he calls us on to devote ourselves to his Word and use every resource to make its message the more clear

A Linguistic Approach to Revelation 19:11-20:6 and the Millennium Binding of Satan Alan E. Kurschner, 2022-08-22 This study argues that the establishment of the millennium binding of Satan and the vindication of the saints in Revelation 20 1 6 are cohesively linked with Jesus's victorious battle in Revelation 19 11 21 The major implication of this analysis views both these events as consequent effects of Christ's victory at the eschatological battle Applying systemic functional linguistics and discourse analysis of cohesion this study advances critical scholarship on the Book of Revelation by offering the first fully sustained answer to this frequently debated question regarding Satan's binding from a modern linguistic approach
