Theory and Method in Biblical and Cuneiform Law Bernard M. Levinson, 1994-09-01 The essays in this volume focus on two crucial topics that have been given short shrift in the contemporary debate on the composition and formation of the Pentateuch 1 biblical law and the development of Israelite legal institutions 2 the significance of ancient Near Eastern law for developing a proper model for the composition and editorial history of the Pentateuch To correct the imbalance the focus of this volume is on whether the biblical and cuneiform legal corpora underwent a process of literary revision and interpolation that reflects legal social and theological development If so what is the nature of this development and the evidence for it If not how are the textual phenomena otherwise to be explained The contributors are Raymond Westbrook Bernard M Levinson Samuel Greengus Martin Buss Sophie Lafont Victor H Matthews William Morrow Dale Patrick and Eckart Otto The volume will be of interest to students and specialists in biblical law pentateuchal studies and comparative legal history **Thinking Biblically** André LaCocque, Paul Ricoeur, 1998 This collaboration sets the words of a distinguished biblical scholar Andre LaCocque and those of a leading philosopher Paul Ricoeur in dialogue around six crucial passages from the Old Testament the story of Adam and Eve the commandment thou shalt not kill the valley of dry bones passage from Ezekiel Psalm 22 the Song of Songs and the naming of God in Exodus 3 14 Commenting on these texts LaCocque and Ricoeur provide a wealth of new insights into the meaning of the different genres of the Old Testament as these made their way into and were transformed by the New Testament The Laws of Yahweh William J. Doorly, 2002 A collection and explanation of the laws found in the Old Testament **Inventing God's Law** David P. Wright, 2009-09-03 Most scholars believe that the numerous similarities between the Covenant Code Exodus 20 23 23 19 and Mesopotamian law collections especially the Laws of Hammurabi which date to around 1750 BCE are due to oral tradition that extended from the second to the first millennium This book offers a fundamentally new understanding of the Covenant Code arguing that it depends directly and primarily upon the Laws of Hammurabi and that the use of this source text occurred during the Neo Assyrian period sometime between 740 640 BCE when Mesopotamia exerted strong and continuous political and cultural influence over the kingdoms of Israel and Judah and a time when the Laws of Hammurabi were actively copied in Mesopotamia as a literary canonical text The study offers significant new evidence demonstrating that a model of literary dependence is the only viable explanation for the work It further examines the compositional logic used in transforming the source text to produce the Covenant Code thus providing a commentary to the biblical composition from the new theoretical perspective This analysis shows that the Covenant Code is primarily a creative academic work rather than a repository of laws practiced by Israelites or Judeans over the course of their history The Covenant Code too is an ideological work which transformed a paradigmatic and prestigious legal text of Israel's and Judah's imperial overlords into a statement symbolically countering foreign hegemony The study goes further to study the relationship of the Covenant Code to the narrative of the book of Exodus and explores how this may relate to the development of the Pentateuch as a whole *The ^AOxford Handbook of Biblical Narrative* Danna

Fewell, 2016-05-30 The Oxford Handbook of Biblical Narrative is a state of the art anthology that highlights biblical narrative's aesthetic characteristics its ethical and religious appeal its organic qualities as communal literature its witness to social and political negotiation and its uncanny power to affect readers and hearers across disparate time frames and global communities Narrativity in Biblical and Related Texts George J. Brooke, Jean-Daniel Kaestli, 2000 Seventeen innovative studies are collected in this volume which has been produced under the aegis of the Centre for Biblical Studies University of Manchester and L Institut des sciences bibliques Universite de Lausanne The majority of the studies engage with narrative through providing insightful working examples Building on the many contributions of recent narratological research for the most part the studies in this collection avoid the technical language of narratology as they present fresh insights at many levels Some essays focus more on the implied author some on the implied reader or hearer and some on the way particular messages are constructed some of the studies consider how author message and reader are all interconnected There are several creative proposals for refining genre definition from law and wisdom to gospel and apocryphal writings Some studies highlight the way in which narratives can contain ethical religious and cultural messages Sensitivity to narrative is also shown by some contributors to expose in intriguing ways the redactional processes behind the final form of texts Students of narrative in the ancient world will find much to consider in this book and others engaged with literary studies more generally will discover that scholars of the worlds of the Bible and Late Antiquity have much to offer them Mitzvot Ethics and the Jewish Bible Gershom M. H. Ratheiser, 2007-03-01 Ratheiser's study provides the framework for a non-confessional mitzvot ethics centered and historical philological approach to the Jewish bible and deals with the basic steps of an alternative paradigmatic perspective on the biblical text The author seeks to demonstrate the ineptness of confessional and ahistorical approaches to the Jewish bible Based on his observations and his survey of the history of interpretation of the Jewish bible Ratheiser introduces an alternative hermeneutical exegetical approach to the Jewish bible the paradigm of examples His study concludes that the biblical text is a collection of writings designed and formed from a specifically ethical ethnic outlook In other words he regards the Jewish bible to be written as an etiology of ancient instruction by ancient Jews to Jews and for Jews As such it serves as a religious ethical identity marker that provides ancient Jews and their descendants with an etiology of Jewish life Ratheiser regards this religious ethical agenda to have been the driving force in the minds of the final editors compilers of the biblical text as we have it today *A Traditional Quest* Louis Jacobs, Dan Cohn-Sherbok, 1991-01-01

Reading Law as Narrative Assnat Bartor, 2010 Casuistic or case law in the Pentateuch deals with real human affairs each case law entails a compressed story that can encourage reader engagement with seemingly dry legal text This book is the first to present an interpretive method integrating biblical law jurisprudence and literary theory reflecting the current law and literature school within legal studies It identifies the narrative elements that exist in the laws of the Pentateuch exposes the narrative techniques employed by the authors and discovers the poetics of biblical law thus revealing new or

previously unconsidered aspects of the relationship between law and narrative in the Bible The Hebrew Bible John Barton, 2021-08-31 This is a general interest introduction to the Old Testament from many disciplines There are 23 essays with 23 individual reference lists **Literary Artistry in Leviticus** Wilfried Warning, 2021-10-25 This study explores the vocabulary employed in the extant text of Leviticus The chosen methodology of rhetorical analysis with particular emphasis upon terminological patterns shows a carefully composed text The basic working hypothesis that Leviticus has been artistically structured around 37 divine speeches and the Lord spoke said to Moses and Aaron With chapter 16 as its possible structural and theological center has been substantiated both on the microstructural and macrostructural levels The plethora of significant micro and macrostructural terminological patterns suggests original literary cohesiveness and hence single handed authorship These findings are of special significance regarding so called P and H passages a layer of priestly reworking and even more the exegesis and theology of Leviticus **Injustice Made Legal** Harold V. Bennett, 2002 The scriptural laws dealing with widows strangers and orphans are conventionally viewed as rules meant to aid the plight of vulnerable persons in ancient Israelite society In *Justice Made Legal* Harold V Bennett challenges this perspective arguing instead that key sanctions found in Deuteronomy were actually drafted by a powerful elite to enhance their own material condition and keep the peasantry down Building his provocative case on a careful analysis of life in the ancient world and on his understanding of critical law theory Bennett views Deuteronomic law through the eyes of the needy in Israelite society His unique approach uncovers the previously neglected link between politico economic interests and the formulation of law The result is a new understanding of law in the Hebrew Bible and the ways it worked to support and maintain the dehumanization of widows strangers and orphans in the biblical community This daring work is necessary reading for anyone interested in the Hebrew Bible ancient history or social justice issues *Body, Gender and Purity in Leviticus 12 and 15* Dorothea Erbele-Küster, 2017-08-10 The so called purity laws in Leviticus 11 15 reflect a cultic and social view on the male and female body These texts do not give detailed physiological descriptions Instead they prescribe what to do in the cases of skin disease delivery and woman's genital discharges but the particular way of dealing with the body and the language used in Leviticus 12 and 15 ask for clarification How do these texts construct the male and female body Which roles does gender play within this language By means of themes like menstruation and circumcision the author unfolds the language used for the body in Leviticus and its interpretation history The study provides material for a contemporary anthropology of bodies which relates the human sexed body to God's holiness **Women, Ideology and Violence** Cheryl Anderson, 2006-01-01 Cheryl Anderson examines the laws relating to women that are found in the Book of the Covenant and the Deuteronomic law She argues that the laws can be divided into those that treat women similarly to men defined as inclusive laws and those that treat women differently exclusive laws She then suggests that the exclusive laws which construct gender as male dominance female subordination do not just describe violence against women but are inherently violent toward women As a non

historical critique of ideology critical theory is used to offer analytical insights that have significant implications for understanding gender constructions in both ancient and contemporary settings

Menstruation and Childbirth in the Bible Tarja S. Philip, 2006 This book offers a careful study of biblical texts on menstruation and childbirth in the light of their ancient Near Eastern background Close reading of the biblical texts based on classical and feminist biblical interpretation and supported by comparative study of ancient Near Eastern sources and anthropology reveals a rich and varied picture of these female events Fertility and impurity are closely connected to menstruation and childbirth but their place and importance are different in priestly and nonpriestly writings of the Bible which are therefore separately dealt with This book contributes to a better understanding of physiological social cultural and religious aspects of menstruation and childbirth in the larger context of body and society and women and men

A Land Like Your Own Jason M. Silverman, Amy Daughton, 2010-09-01 A land like our own explores the ways the Bible has reused previous traditions and has subsequently been reused by both Jews and Christians The editors employ the symbol of the Land as indicative of both loss and hope reflective of the ways in which the past is variously figured and re configured by the authors of both Testaments

Law from the Tigris to the Tiber Raymond Westbrook, 2009-06-23 Raymond Westbrook 1946 2009 was acknowledged by many as the world's foremost expert on the legal systems of the ancient Near East and a leading scholar in the study of biblical and classical law This collection brings together the 44 most important articles that Westbrook published in the 25 years following the completion of his Ph D at Yale University in 1982 The first volume The Shared Tradition contains 16 articles that lay out Westbrook's theory of a common legal tradition that spanned the ancient world from Mesopotamia to Israel and even to Greece and Rome The second volume Cuneiform and Biblical Sources provides 28 articles that demonstrate Westbrook's unique method of legal analysis that he applied to the numerous texts he worked with as an Assyriologist and biblical scholar from law codes to contracts to narratives Each volume contains its own comprehensive bibliography as well as subject author and text indexes Together they represent the life's work of one of the most important legal historians of our era

The Prostitute and the Prophet Yvonne Sherwood, 2004-12-30 The only consensus that has been reached on Hosea 1:3 is that it is a notoriously problematic text Sherwood unpicks this rather vague statement by examining the particular complexities of the text and frictions between the text and reader that conspire to produce such a disorientating effect Four dimensions of the problem are considered the conflict between text and reader over the improper relationship between Hosea and Gomer the bizarre prophetic sign language that conscripts people into a cosmic charade the text's propensity to subvert its central theses and the emergent tensions between the feminist reader and the text Aiming to bring together literary criticism and biblical scholarship this book provides lucid introductions to ideological criticism semiotics deconstruction and feminist criticism and looks at the implications of these approaches not only for the book of Hosea but for biblical studies in general
