

THE SEMIOTICS OF THEATRE

Patrice Pavis

This article is reprinted with permission from the French original published in Versus (No. 21, 1978). It is one of a number of papers published dealing with five specific questions posed by Marco de Marinis on the semiotics of theatre. The version which appears was translated by Tjaart Potgieter.

1. What is, in your opinion, the proper relation between the "semiotics of theatre" and "theatre studies" (history of theatre, theory of theatre, theatrical aesthetics, etc)?

This question brings to mind the famous debate, instigated by Saussure and continued by Barthes, about the relationship between linguistics and semiology: are linguistics only part of "this general science", semiology, of which the laws "shall be applicable to linguistics" (Saussure), or does semiology, on the other hand, model itself on the general pattern of linguistics (Barthes)? The semiology of the theatre is a recent discipline - its theoretical formulation can be placed historically (the linguistic Circle of Prague in the 'thirties) - and it is to be expected that it should try to take its place in the spectrum of studies of the performance, without invalidating the other approaches, but also not allowing itself to be devalued to the rank of a methodological "gadget" which is content to employ linguistic terminology metaphorically in connection with some mythical "theatrical communication", and sheds no new light on the performance.

In spite of the terms sciences du spectacle or Theaterwissenschaft, it should be clear from the outset that "theatre studies" could by no means claim a scientific status comparable to that of linguistics. The semiology of theatre, therefore, can neither use, by extension, the rigorous conceptual apparatus of linguistical studies, nor share their epistemological objective. What follows is that we need to ask whether the semiology of theatre is an autonomous discipline (like, for example, sociology, botany, etc.) or rather a method and an attitude towards the performance. In the latter hypothesis, semiology would not duplicate the existing approaches, but would integrate itself with them by assimilating into its theory the known results of those disciplines. It should be at the same time the propaedeutics and epistemology of the various theatre studies, reflecting on their conditions of validity, and the possibility of using the results of one area to interpret the other.

The Semiotic Stage Michael L. Quinn, 1995 The Semiotic Stage provides the first comprehensive summary of the writings that founded contemporary theater semiotics The Prague School theater writings are placed in their theoretical context and integrated in relation to major artistic areas like acting design and dramatic writing The influence of the Prague School and its relation to the current state of theater study are also thoroughly discussed *The Semiotics of Beckett's Theatre* Khaled Besbes, 2007 Semiotics is an interdisciplinary field of research and Beckett's theatre is one which engages a large spectrum of subjects and concerns that touch upon multiple aspects of human experience The Beckettian dramatic text as shall be demonstrated in this book is a fertile ground for a semiotic investigation that is orchestrated by the profound insights of C S Peirce As it applies semiotics to Beckett's theatre this book seeks to preserve communicate and throw into relief those universal values in the playwright's works which remain unchallenged despite every change and every revolution in human societies What this book will hopefully contribute to the general canon of theatrical studies is its study of the Beckettian dramatic text not as a model of the absurd tradition but rather as a cultural product whose writer's thinking can scarcely be dissociated from the cultural environment within which it took shape and whose deciphering requires the use of cultural codes and sub codes which will undergo detailed examination in the course of analysis a study that we may so generically call a cultural semiotic study of Beckett The Semiotic Bridge Irmengard Rauch, Gerald F.
