Sensation & Sensibility Ann Bermingham, 2006 Sensation & Sensibility, 2005 Sensation & Sensibility Ann Bermingham, 2005 Late in his career Thomas Gainsborough became preoccupied with the theme of the cottage door and he created a group of paintings and drawings that show rustic figures clustered around the open door of a cottage set in a deeply wooded landscape Often seen as exemplars of the rural idyll these works were among the first landscape paintings to reflect the eighteenth century aesthetic of sensibility As a way of seeing sensibility valued nature for its innocence and simplicity and images such as Gainsborough's cottage subjects for their power to move the viewer This lovely book brings together the cottage door paintings and essays that discuss Gainsborough's departure from the more naturalistic style of his earlier career and that place his new concern with sentimentalism and artificiality in the context of sensibility and the growing interest in expressive even sensational visual spectacles To this end contributors to the volume investigate new viewing practices associated with sensibility the meaning of the cottage for Gainsborough and his contemporaries the artist s creation of affecting landscapes through the use of peasant subjects and his theatrical treatment of these subjects in order to heighten his viewers emotional responses Published in association with the Yale Center for British Art and The Huntington Library Art Collections and Botanical Gardens Exhibition Schedule Huntington Library Art Collections and Botanical Gardens February 11 May 14 2006 Yale Center for British Art New Haven October 6 December 31 2005 **Sensation & Sensibility** Yale Center for British Art, 2005 Late in his career Thomas Gainsborough became preoccupied with the theme of the cottage door he created a group of paintings drawings that show rustic figures clustered around the open door of a cottage in a rural Investing in the Early Modern Built Environment, 2012-08-01 Today the bulk of idvll This title explores the theme tangible wealth around the globe resides in buildings and physical infrastructure rather than moveable goods This situation was not always the case Investing in the Early Modern Built Environment represents the first attempt to delve into the period s enhanced architectural investment its successes its failures and the conflicts it provoked Not just cultural but clear economic and environmental reasons existed for a rejection of the new architectural agenda Whatever its efficacy or flaws it ultimately served as a model worldwide for cityscapes and housing well into the twentieth century Contributors include Jordan Sand Robin Pearson John Broad Kiyoko Yamaguchi Steven W Hackel Susan E Hough Johnathan Farris Matthew Mulcahy Charles Walker Emma Hart Chad Anderson Ross H Cordy Grace Karskens and Carole Shammas *Imagining the* British Atlantic after the American Revolution Michael Meranze, Saree Makdisi, 2016-01-28 Between 1750 and 1820 tides of revolution swept the Atlantic world From the new industrial towns of Great Britain to the plantations of Haiti they heralded both the rise of democratic nationalism and the subsequent surge of imperial reaction In Imagining the British Atlantic after the American Revolution nine essays consider these revolutionary transformations from a variety of literary visual and historical perspectives On topics ranging from painting and poetry to prison reform the essays challenge and complicate our

Strobel, 2023-11-30 The Art of Mary Linwood is the first book on Leicester textile artist Mary Linwood 1755 1845 and catalogue of her work When British textile artist and gallery owner Mary Linwood died in 1845 just shy of 90 years old her estate was worth the equivalent of 5 199 822 in today s currency As someone who made but did not sell embroidered replicas of famous artworks after artists such as Gainsborough Reynolds Stubbs and Morland how did she accumulate so much money A pioneering woman in the male dominated art world of late Georgian Britain Linwood established her own London gallery in 1798 that featured copies of well known paintings by these popular artists Featuring props and specially designed rooms for her replicas she ensured that her visitors had an entertaining educational and kinetic tour similar to what Madame Tussaud would do one generation later The gallery s focus on picturesque painters provided her London visitors with an idyllic imaginary journey through the countryside Its emphasis

on quintessentially British artists provided a unifying focus for a country that had recently emerged from the threat of Napoleonic invasion This book brings to the fore Linwood's gallery guides and previously unpublished letters to her contemporaries such as Birmingham inventor Matthew Boulton and Queen Charlotte It also includes the first and only catalogue of Linwood's extant and destroyed works By examining Linwood's replicas and their accompanying objects through the lens of material culture the book provides a much needed contribution to the scholarship on women and cultural agency Originality and Intellectual Property in the French and English Enlightenment Reginald McGinnis, 2013-10-17 Are legal concepts of intellectual property and copyright related to artistic notions of invention and originality Do literary and legal scholars have anything to learn from each other or should the legal debate be viewed as separate from questions of aesthetics Bridging what are usually perceived as two distinct areas of inquiry this interdisciplinary volume begins with a reflection on the origins of literary and legal questions in the Enlightenment to consider their ramifications in the post Enlightenment and contemporary world Tying in to the growing scholarly interest in connections between law and literature on the one hand and to the contemporary interrogation of originality and authorship on the other hand the present volume furthers research in the field by providing a dense study of the legal and historical context to re examine our current assumptions about supposed earlier Enlightenment and Romantic ideals of individual Geographical Aesthetics Elizabeth Straughan, 2016-03-03 Geographical Aesthetics places the authorship and originality terms aesthetics and geography under critical question together responding both to the increasing calls from within geography to develop a geographical aesthetics and a resurgence of interdisciplinary interest in conceptual and empirical questions around geoaesthetics environmental aesthetics as well as the spatialities of the aesthetic Despite taking up an identifiable role within the geographical imagination and sensibilities for centuries and having what is arguably a key place in the making of the modern discipline aesthetics remains a relatively under theorized field within geography Across 15 chapters Geographical Aesthetics brings together timely commentaries by international interdisciplinary scholars to rework historical relations between geography and aesthetics and reconsider how it is we might understand aesthetics In renewing aesthetics as a site of investigation but also an analytic object through which we can think about worldly encounters Geographical Aesthetics presents a reworking of our geographical imaginary of the aesthetic The Spirit of Despotism John Barrell, 2006-01-26 How was the social and cultural life of Britain affected by the fear that the French Revolution would spread across the channel In this brilliant engagingly written and profusely illustrated book John Barrell well known for his studies of the history literature and art of the period argues that the conflict between the ancien regime in Britain and the emerging democratic movement was so fundamental that it could not be contained within what had previously beenthought of as the normal arena of politics Activities and spaces which had previously been regarded as outside politics suddenly no longer seemed to be so and the fear of revolution produced a culture of surveillance and suspicion which penetrated every

aspect of private life Drawing on an unusually widerange of sources including novels poems plays newspapers debates in parliament trials political pamphlets and caricatures The Spirit of Despotism focuses on a number of examples of such invasions of privacy It shows how the culture of suspicion affected how people spoke and behaved in London coffee houses how it influenced attitudes to the king s behaviour in private especially during his summer holidays in Weymouth how it influenced the country cottage previouslyidealized as a protected haven of peace and retirement from political life and how it influenced the fashion of the period so that even the way people chose to style their hair came to be seen as a political issue

writings and artworks Armstrong s careful analysis reveals how notions of the slave as a debtor lie hidden in our accounts of the commodified self and how writers like Nathaniel Hawthorne Rebecca Harding Davis Booker T Washington W E B Du Bois Ralph Ellison and Toni Morrison grapple with the pervasive view that slaves are akin to machines Ceramics in the Victorian Era Rachel Gotlieb, 2023-06-29 This book broadens the discussion of pottery and china in the Victorian era by situating them in the national imperial design reform and domestic debates between 1840 and 1890 Largely ignored in recent scholarship Ceramics in the Victorian Era Meanings and Metaphors in Painting and Literature argues that the signification of a pot a jug or a tableware pattern can be more fully discerned in written and painted representations Across five case studies the book explores a rhetoric and set of conventions that developed within the representation of ceramics emerging in the late 18th century and continuing in the Victorian period Each case study begins with a textual passage exemplifying the outlined theme and closes with an object analysis to demonstrate how the fusing of text image and object are critical to attaining the period eye in order to better understand the metaphorical meanings of ceramics Essential reading not only for ceramics scholars but also those of material culture the book mines the rich and diverse archive of Victorian painting and literature from the avant garde to the sentimental from the well known to the more obscure to shed light on the at once complex and simple implications of ceramics agencies at this time *Pictures-within-Pictures in Nineteenth-Century* Britain Catherine Roach, 2017-07-05 Repainting the work of another into one s own canvas is a deliberate and often highly fraught act of reuse This book examines the creation display and reception of such images Artists working in nineteenth century London were in a peculiar position based in an imperial metropole yet undervalued by their competitors in continental Europe Many claimed that Britain had yet to produce a viable national school of art Using pictures within pictures British painters challenged these claims and asserted their role in an ongoing visual tradition By transforming pre existing works of art they also asserted their own painterly abilities Recognizing these statements provided viewers with pleasure in the form of a witty visual puzzle solved and with prestige in the form of cultural knowledge demonstrated At stake for both artist and audience in such exchanges was status the status of the painter relative to other artists and the status of the viewer relative to other audience members By considering these issues this book demonstrates a new approach to images of historic displays Through examinations of works by J M W Turner John Everett Millais John Scarlett Davis Emma Brownlow King and William Powell Frith this book reveals how these small passages of paint conveyed both personal and national meanings
