tackled the memory of Vichy France communist Romania and apartheid South Africa Despite their specificities these contexts present us with an opportunity to analyze similar mnemonic dynamics and to recognize the political impact of dissenting artistic production Crossing disciplinary boundaries the book intervenes in debates over collective responsibility historical injustice and the aesthetics of violence within political theory memory studies social epistemology and transitional justice

Traviata Mim in La Bohème Little Eva in Uncle Tom's Cabin and Edmund Tyrone in Long Day's Journey into Night to name but a few are among the most iconic figures of the Western stage Its classic symptoms the cough and the blood stained handkerchief have become global performance shorthand for life threatening illness The consumptive character became a vehicle through which standards of health beauty and virtue were imposed constructions of class gender and sexuality were debated the boundaries of nationhood were transgressed or maintained and an exceedingly fragile whiteness was held up as a dominant social ideal By telling the story of tuberculosis on the transatlantic stage Symptoms of the Self uncovers some of the wellsprings of modern Western theatrical practice and of ideas about the self that still affect the way human beings live and die

Book Traces Andrew M. Stauffer, 2021-02-05 In most college and university libraries materials published before 1800 have been moved into special collections while the post 1923 books remain in general circulation But books published between these dates are vulnerable to deaccessioning as libraries increasingly reconfigure access to public domain texts via digital repositories such as Google Books Even libraries with strong commitments to their print collections are clearing out the duplicates assuming that circulating copies of any given nineteenth century edition are essentially identical to one another When you look closely however you see that they are not Many nineteenth century books were donated by alumni or their families decades ago and many of them bear traces left behind by the people who first owned and used them In *Book Traces* Andrew M Stauffer adopts what he calls guided serendipity as a tactic in pursuit of two goals first to read nineteenth century poetry through the clues and objects earlier readers left in their books and second to defend the value of keeping the physical volumes on the shelves Finding in such books of poetry the inscriptions annotations and insertions made by their original owners and using them as exemplary case studies Stauffer shows how the physical historical book enables a modern reader to encounter poetry through the eyes of someone for whom it was personal
