Caught on Screen James Findlay, 2025-09-18 From innocent criminals to radical revolutionaries feisty feminists to manly pioneers egalitarian settlers to violent invaders Caught on Screen shows how over successive generations the shape shifting convict emerged on screen as a potent historical symbol Convicts loom large in Australian history As transported criminals and the first European settlers they have shackled the nation to a curious and contested origin story Historians were largely silent on their exploits until the second half of the twentieth century but before then a tradition of convict representation on screen appeared with the rise of cinema taking hold of the popular imagination From silent films to more recent television series screen culture has elevated the convict experience to become a key historical narrative through which filmmakers and audiences have repeatedly reframed and challenged an understanding of Australia's colonial past Caught on Screen traverses this history of convict representation for the first time Through detailed archival research into their production and reception the book explores engaging case studies produced in Australia and internationally including the work of Douglas Sirk Alfred Hitchcock and Jennifer Kent It illuminates the fact that the convict as historical symbol is one that intersected with and helped to direct major debates about nationalism the legacies of colonisation Aboriginal dispossession and the origins and character of Australian society

Empire Ascendant Cees Heere, 2019-12-19 In 1902 the British government concluded a defensive alliance with Japan a state that had surprised much of the world with its sudden rise to prominence For the next two decades the Anglo Japanese alliance would hold the balance of power in East Asia shielding Japan as it cemented its regional position and allowing Britain to concentrate on meeting the German challenge in Europe Yet it was also a relationship shaped by its contradictions Empire Ascendant examines how officials and commentators across the British imperial system wrestled with the implications of Japan's unique status as an Asian power in an international order dominated by European colonial empires On the settlement frontiers of Australasia and North America white colonial elites formulated their own responses to the growth of Japan's power charged by the twinned forces of colonial nationalism and racial anxiety as they designed immigration laws to exclude Japanese migrants developed autonomous

military and naval forces and pressed Britain to rally behind their vision of a white empire Yet at the same time the alliance legitimised Japan s participation in great power diplomacy and worked to counteract racist notions of a yellow peril By the late 1900s Japan stood at the centre of a series of escalating inter imperial disputes over foreign policy defence migration and ultimately over the future of the British imperial system itself This account weaves together studies of diplomacy strategy and imperial relations to pose searching questions about how Japan s entry into the family of civilised nations shaped and was shaped by ideologies of race

Federations Chad Rector,2011-02-23 Why would states ever give up their independence to join federations While federation can provide more wealth or security than self sufficiency states can in principle get those benefits more easily by cooperating through international organizations such as alliances or customs unions Chad Rector develops a new theory that states federate when their leaders expect benefits from closer military or economic cooperation but also expect that cooperation via an international organization would put some of the states in a vulnerable position open to extortion from their erstwhile partners The potentially vulnerable states hold out refusing to join alliances or customs unions and only agreeing to military and economic cooperation under a federal constitution Rector examines several historical cases the making of a federal Australia and the eventual exclusion of New Zealand from the union the decisions made within Buenos Aires and Prussia to build Argentina and Germany largely through federal contracts rather than conquests and the failures of postindependence unions in East Africa and the Caribbean
