

THE DECLARATION OF SENTIMENTS

- They started their declaration by stating "We hold these truths to be self-evident that all men and women are created equal."
- The Declaration of Sentiments listed out the acts of tyranny by men over women—men didn't give women the right to vote, men didn't give women the right to own property, men didn't even give women the right to control their own money!
- The people at the convention agreed on resolutions (laws) that should be passed to protect women against these injustices.

Sentiments And Acts:

Sentiments and Acts Irwin Deutscher, Fred P. Pestello, H. F. Pestello, 2021-03-22 No detailed description available for Sentiments and Acts

What We Say/what We Do Irwin Deutscher, 1973 This book has some of the qualities of a detective story and of a drama As a drama it resembles a dialogue between the author and his friends and foes The book has a beginning middle and end that do not correspond to the economical but quite a historical character of most scientific writing where the literature is reviewed and problems stated the evidence presented and a conclusion reached Instead the beginning is an account of the author's confrontation with a nagging persistent and perhaps ultimately insoluble problem that faces every honest researcher can we explain behaviour by giving evidence of attitudes The middle develops new leads and materials but never abandons the central characters of the first act The end in Pirandello fashion leaves us with a feeling of illumination but illumination of the essential paradoxes and difficulties not the light that breaks on a heroic solution

What we say/what we do Irwin Deutscher, 1973

Human Emotions and the Origins of Bioethics Susi Ferrarello, 2020-12-06 This book provides a unique phenomenological dialogue between psychology and philosophy on the origin of bioethics that shows the importance of bringing emotions into bioethical discourse Divided into two parts the book begins by defining bioethics and explaining the importance of emotions in making us human allowing us to consider life holistically Ferrarello argues that emotions and bioethics are better served when they are combined and that dismissing emotions as nothing more than a nuisance to our rationality has created a society that does not fit our human nature Chapters explore how ethics relate to intimate life and how ethical agents determine themselves within their surrounding world uniquely and interrogatively using bioethics to consider not only medical dilemmas but also issues concerning environmental and individual well being By addressing personal interpersonal and societal problems as dynamically interconnected in bioethical problems she helps us to renew our sense of responsibility toward a good quality of life This interdisciplinary book is invaluable reading for students of health science psychology and philosophy as well as for those interested in the link between emotions and bioethical discourse from both a psychological and philosophical perspective

The Triadic Structure of the Mind Francesco Belfiore, 2016-11-17 In this third edition of *The Triadic Structure of the Mind* Francesco Belfiore begins from the basic ontological conception of the structure and functioning of the mind or spirit as an evolving conscious triad composed of intellect sensitiveness and power each exerting a selfish and a moral activity Based on this original concept of the triadic bidirectional and evolving mind Belfiore has developed a coherent philosophical system through which he offers fresh solutions in the fields of ontology knowledge language aesthetics ethics politics and law The present third edition like the previous one includes an extensive treatment of the topics addressed as well as the quotation of the views of the major thinkers whose thought has been discussed and reinterpreted In addition new concepts have been introduced some passages have been clarified and the style has been improved in several points The result is an original and exhaustive book which will

be of interest to all philosophy scholars On Moral Sentiments John Reeder,1997 This unique anthology brings together for the first time the reactions that greeted the publication of Adam Smith's major philosophical work *The Theory of Moral Sentiments* 1759 Spanning over a hundred years of critical responses the collection includes three different sections the initial reply from Smith's friends David Hume Edmund Burke and William Robertson the more considered opinions put forward by Smith's contemporaries fellow Scots philosophers such as Lord Kames Thomas Reid Adam Ferguson or Dugald Stewart and finally the later nineteenth century largely critical views expressed by a new generation of philosophers The book reclaims Adam Smith as a major eighteenth century moral philosopher giving a rare insight into the atmosphere in which his ideas emerged and evolved brings together a wealth of inaccessible material from 1759 to 1881 stresses Smith's importance not only as an innovative economist but as a major ethical thinker includes some of Smith's replies to his critics contributions by all the key figures of the period including Hume Burke Robertson Kames Reid Stewart and Ferguson

Mill] strictures on some passages in the Dissertation [on the progress of ethical philosophy].* James Mill,1835 *Essays on 1. Moral Sentiments; 2. Astronomical Inquiries; 3. Formation of Languages; 4. History of Ancient Physics; 5. Ancient Logic and Metaphysics; 6. The Imitative Arts; 7. Music, Dancing, Poetry; 8. The External Senses; 9. English and Italian Verses* Smith,1872 A Liberal Theory of Practical Morality Earl Spurgin,2021-05-25 Moral issues and questions abound in daily life Media outlets

frequently raise awareness of many such as those concerning individuals right to privacy The same venues seldom if ever raise awareness of others such as moral issues and questions concerning our fantasies Regardless of the level of publicity various venues afford particular moral matters most people who become aware of those matters find many interesting and important A problem most encounter however is determining the criteria through which they should approach the moral matters they wish to engage Ethicists have long sought a moral theory that would provide the desired criteria but most will grant readily that those efforts have not produced a generally accepted theory This book presents the author s case that a kind of moral liberalism is the theory we should use to engage daily life s moral matters The author presents a conception of moral liberalism argues that it is the best approach to practical morality in a plural society and applies it to several of morality s practical matters *Introduction to ethics, tr. by W.H. Channing* Thomas Simon Jouffroy,1867 **The Encyclopaedia Britannica** ,1842 **The Encyclopædia Britannica, Or, Dictionary of Arts, Sciences, and General Literature** ,1857 **The Encyclopaedia Britannica** Thomas Stewart Traill,1857 **Encyclopædia Britannica, Or, Dictionary of Arts, Sciences and General Literature** Thomas Stewart Traill,1857 "The" Encyclopaedia Britannica,or, Dictionary of Arts, Sciences, and Miscellaneous Literature ,1841 The Ontological Foundation of Ethics, Politics, and Law Francesco Belfiore,2013-03-25 The revised edition of The Ontological Foundation of Ethics Politics and Law adds new concepts and discusses the views of additional thinkers The author refers to his basic ontological conception of the human mind or spirit as an evolving conscious triadic entity composed of intellect sensitivity and power each exerting a bidirectional selfish and moral activity Through this approach the notions of good morality society and law are derived from the structure and functioning of the mind It follows that the solutions presented are the results of a discovery and not the consequence of a choice Otherwise stated ethics politics and law are given an ontological foundation For each topic considered Belfiore shows how his thought can reinterpret the views of other philosophers This new edition enriched in concepts and quotations appears as an innovative and highly stimulating contribution to the philosophical branches of ethics politics and law and will be of interest to both graduate students and philosophy scholars **The Constitution of Man Considered in Relation to External Objects** George Combe,1836
