The Advocate ,1996-06-11 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States **Science, Scripture, and Homosexuality** Alice Ogden Bellis,Terry L. Hufford,2011-01-01 The collaborative work of a biblical scholar and a biology professor Science Scripture and Homosexuality addresses scripture passages relating to homosexuality and explains the foundation of genetics and the growing evidence suggesting an organic basis for sexual orientation The authors argue that the role of the homosexual as well as the heterosexual within the Church should be based upon common criteria for all Written in a highly accessible manner the book is ideal for congregational discussion **Ethics, Sexual Orientation, and Choices about Children** Timothy F. Murphy,2012 A critical review of the debate over the still hypothetical possibility of prenatal intervention by parents to select the sexual orientation of their children Parents routinely turn to prenatal testing to screen for genetic or chromosomal disorders or to learn their child s sex What if they could use similar prenatal interventions to learn or change their child s sexual orientation Bioethicists have debated the moral implications of this still hypothetical possibility for several decades Some commentators fear that any scientific efforts to understand the origins of homosexuality could mean the end of gay and lesbian people if parents shy away from having homosexual children Others defend parents rights to choose the traits of their children in general and see no reason to treat sexual orientation differently In this book Timothy Murphy traces the controversy over prenatal selection of sexual orientation offering a critical review of the literature and presenting his own argument in favor of parents reproductive liberty Arguing against commentators who want to restrict the scientific study of sexual orientation or technologies that emerge from that study Murphy proposes a defense of parents right to choose This he argues is the only view that helps protect children from hurtful family environments that is consistent with the increasing powers of prenatal interventions and that respects human futures as something other than accidents of the genetic lottery Scientific and Religious Habits of Mind Ron Good,2005 The open inquiring nature of science is fundamentally incompatible with the closed authoritarian nature of most religious training Reasons for rejection of personal god concepts by Charles Darwin Albert Einstein and Bertrand Russell are used by this author to underline this incompatibility and to show how each of these important scientists came to reject organized religion Conflicts between scientific and religious habits of mind are described and ideas for education are offered Common assumptions about our natural environment and human nature are shown to be obstacles to scientific literacy and to a sound liberal education Research on the nature of the relationship between scientific and religious habits of mind is proposed recognizing the potential incompatibilities between these important influences in society **Phenomenology/Ontopoiesis Retrieving Geo-cosmic Horizons of Antiquity** Anna-Teresa Tymieniecka,2011-08-10 The controversy of flux and stasis as the groundwork of reality of Greek ancient philosophy reached its crux in the all encompassing doctrine of the logos by

Heraclitus of Ephesus It centers upon human soul in its role with the cosmos Philosophy of the Occident corroborating Greek insights with the progress of culture in numerous interpretations Kant Kierkegaard Husserl Merleau Ponty Ricoeur presented in this collection has neglected the cosmic sphere While contemporary development of science revealed its grounding principles papers by Grandpierre Kule and Trutty Coohill the ancient logos fully emerges Thus logos hitherto hidden in our commerce with earth is revealed in its intertwinings with the cosmos through the trajectories of the phenomenology onto-poiesis of life Tymieniecka The crucial link between the soul and the cosmos in a new geo cosmic horizon is thus being retrieved

Do Ask, Do Tell Bill Boushka, 2000-06-30 The original Bill of Rights sponsored largely by James Madison is now about 210 years old Reinforced by the Fourteenth Amendment which eventually applied many of its provisions to the states it has served us well It is time to re evaluate our fundamental constitutional rights and to seriously consider their major renovation This is my central proposal Are we ready to trust ourselves as individuals with the personal responsibilities that go with rights When government defines personal moral values we tend to take less account for not only our own actions but also our own underlying values for those spiritual yearnings that make us all unique people who we are We tend to lose interest in speaking for ourselves and tend to leave moral judgments to experts who get paid to pass judgment on all of us I discuss a philosophy often called libertarianism of extremely restricted government I present it from the personal perspective of a gay man who grew up in a period of enormous change and migration toward cultural individualism My argument is intended for everyone but I provide my own detailed perspectives on many issues The parallel between draft deferments during the Vietnam era and the gays in the military battle today How close the gay community as we know it came to total catastrophe during the early days of AIDS crisis What the family values debate is really all about Volunteerism and social obligations and how both military service and parenting fit into these What discrimination is really all about How the Dont Tell mentality interferes with political and social debate in many areas Why equal rights for gays is important for everybody A science of personal growth and why libertarianism is good for personal growth

Homosexuality and the Law Chuck Stewart, 2001-05-29 This reference work provides important information about the role academic research has played in the ever evolving laws covering homosexuality A comprehensive overview of homosexuality and the law this fascinating dictionary opens with a history of the Gay Rights Movement which started in Germany during the 1860s with Karl Heinrich Ulrich the Grandfather of Gay Liberation who wrote 12 books including *Researches on the Riddle of Love Between Men* Homosexuals were later herded into Nazi concentration camps where 50 000 of them died When the war ended Allied commanders forced homosexuals to finish their prison sentences This book has 112 entries on subjects such as absurd sex laws the Crittendon Report the Boy Scouts the 1996 Defense of Marriage Act surgical alterations discrimination sodomy loitering laws and more A nearly 100 page appendix details state and local laws The book includes a list of advocacy organizations and other references a table of cases and an extensive bibliography

Take Back the Word - A Queer Reading

of the Bible Robert E. Goss, Mona West, 2000-11-15 Perhaps the most revolutionary contribution of *Take Back the Word* is its presentation of resistant practices of reading the Bible that challenge oppressive applications of Scripture to clobber queer folk If lesbians gay men bisexuals transgender non gender conforming and questioning people are to take back the word of Scripture for themselves they must take it back in a new way Essays examine queer strategies for reading queer ethical models from the Hebrew Scriptures and queer good news stories from the Christian Scriptures **Searching for the Secrets of Nature** Simon Varey, Rafael Chabrán, 2000 This collection of essays by historians historians of science and medicine and literary and textual scholars from several countries analyzes the achievements of Dr Francisco Hernández 1515-87 author of the monumental *The Natural History of New Spain* in the history of medicine and science in Europe and the Americas **At the End of Time** Robin Robertson, 2011-05-01 Many cycles predicting the end of times fill our modern dialog from the coming of the Millennium to 2012 Robin Robertson helps to clarify these prophecies and offers insight into the central issues of our challenges and the experience and their life changing implications For eighteen hundred years the prophecies in the Book of Revelation have captured the collective Western imagination Saint John's rich imagery and the dramatic urgency of the looming disasters he predicts have both fascinated and frightened us with its apparent message that the end of time is near Robin Robertson Ph.D. deciphers the mystical theology and visions of the prophets seers and shamans His analysis incorporates the insights of modern mathematics and Chaos Theory as well as his personal insights gained through his work as a Jungian therapist and teacher Robertson holds a mirror to humanity's need to know Self and God He explains that Saint John's vision foretells the massive change in consciousness that is happening in our time *Individual Instruction* Lucille E. Ogle, 1929 **Configurations of the Individual in Modern Chinese Literature** Qin Wang, 2019-08-27 This book aims to demonstrate the multiplicity of configurations of the individual in modern Chinese literature through analyzing several classic texts written by Zhou Zuoren Lu Xun Lao She and Mu Shiying It attempts to refresh our understanding of the history of modern Chinese literature and indirectly responds to the controversial issue of individual rights or human rights in present day China showing that in modern Chinese literature various configurations of the individual imply political possibilities that are not only irreconcilable with each other but irreducible to the determination of the modern discourse of individualism introduced by the West A groundbreaking work it will give valuable context to political scientists and other scholars seeking to understand what China means in the 21st century **Separated by Their Sex** Mary Beth Norton, 2011-05-16 In *Separated by Their Sex* Mary Beth Norton offers a bold genealogy that shows how gender came to determine the right of access to the Anglo American public sphere by the middle of the eighteenth century Earlier high status men and women alike had been recognized as appropriate political actors as exemplified during and after Bacon's Rebellion by the actions of and reactions to Lady Frances Berkeley wife of Virginia's governor By contrast when the first ordinary English women to claim a political voice directed group petitions to Parliament during the Civil War of the

1640s men relentlessly criticized and parodied their efforts Even so as late as 1690 Anglo American women s political interests and opinions were publicly acknowledged Norton traces the profound shift in attitudes toward women s participation in public affairs to the age s cultural arbiters including John Dunton editor of the Athenian Mercury a popular 1690s periodical that promoted women s links to husband family and household Fittingly Dunton was the first author known to apply the word private to women and their domestic lives Subsequently the immensely influential authors Richard Steele and Joseph Addison in the Tatler and the Spectator advanced the notion that women s participation in politics even in political dialogues was absurd They and many imitators on both sides of the Atlantic argued that women should confine themselves to home and family a position that American women themselves had adopted by the 1760s Colonial women incorporated the novel ideas into their self conceptions during such private activities as sitting around a table drinking tea they worked to define their own lives On the cusp of the American Revolution Norton concludes a newly gendered public private division was firmly in place
