RAF Strike Command, 1968-2007 Kev Darling,2013-01-19 Aviation author Kev Darling looks at the origins of the World War Two Royal Air Force commands and histories in RAF Strike Command In 1968 the RAF Commands that had become

famous in World War Two Fighter Bomber Coastal Air Support and Signals Commands were combined into the single Strike Command an amalgamation that served throughout the remaining years of the Cold War in the Falklands and in the Middle East in Operations Desert Shield Desert Storm and Granby This organizational change caused re equipment base changes and increasing economic constraints The Royal Navy was now responsible for the UK s nuclear deterrent in the form of their Polaris submarines so the RAF s V Bomber Force were now relegated to tanker operations with the exception of the lone Vulcan that was sent to the Falklands conflict The Command s fleet of fast jets became more adaptable with single types assuming the roles of fighter bomber reconnaissance and maritime attack The aircraft also became multinational in their design and manufacture as Britain s postwar lead in aircraft design had been frittered away by years of thoughtless government leading to a single company for production Apart from the brilliant Harrier which the US continues to develop and build other aircraft flown by the Command were from European syndicates such as the Tornado and Jaguar The US supplied the transports in the form of the faithful Hercules and Europe most of the helicopter fleet Exploring the operations that took place during this military wing s existence the aircraft they flew and the men who flew them RAF Strike Command is a tribute to the fast dwindling power of the Royal Air Force

India's Emerging Nuclear Posture Ashley J. Tellis,2001 This book brings together the many pieces of India s nuclear puzzle and the ramifications for South Asia The author examines the choices facing India from New Delhi s point of view in order to discern which future courses of action appear most appealing to Indian security managers He details how such choices if acted upon would affect U S strategic interests India s neighbors and the world

BOOK JACKET *High Stakes* Vic Flinham,2008-10-15 After the dust of World War II had settled the military position of the UK was far from straightforward It was of course allied to the USA and part of NATO but it was at odds with the former in maintaining an Empire and the two nations also had competing oil interests in the Middle East The UK s engagement in war after 1945 was thus a strange mixture ranging from homeland security through insular actions within the colonies or protectorates to preserve empire to playing a major role in confronting the USSR The types of active involvement of the RAF Fleet Air Arm and Army Air Corps between 1945 and 1995 include the following with examples Maintaining Local Stability Greece Netherlands East Indies Maintaining Empire Malaya Kenya Defending Empire Borneo Defending Interests Suez Kuwait Homeland Security Northern Ireland air defence Confrontation Berlin Airlift Korea Covert Action Albania strategic reconnaissance Humanitarian and Peacekeeping Jordan Cyprus Development of Deterrent Bombs bombers and missiles

Jet Combat in the Nuclear Age Martin W. Bowman,2016-09-20 Follow the fighters of the strategic nuclear strike force In this book the roles of jet fighters and fighter bombers in the Nuclear Age are explored Bowman consolidates a range of firsthand accounts from the pilots themselves with a well researched history of military aviation from the 1980s to today Jet Combat in the Nuclear Age pays tribute to the men and women of the USAF Strategic Air Command SAC and their role in maintaining peace by deterring any perceived Soviet threat with a retaliatory nuclear attack

The 1980s also brought a new enemy in air operations in the Middle East when US Navy F 14 Tomcats and other jet aircraft mounted retaliatory operations against Libya. The book spotlights military craft in action across the globe. US Navy A 6E Intruders bombed Benghazi in 1986 in retaliation for the bombing of a West Berlin disco. F 111Fs and RAF Jaguars decimated Saddam Hussein's forces in the opening rounds of Desert Storm. Carrier based craft deployed in support of military operations: Joint Endeavor, Desert Strike and Sharp Guard. Today the war against terror continues to rely on air power with small teams of Special Forces troops directing attack aircraft against enemy positions. Jet Combat in the Nuclear Age outlines an era when victory comes from above. Sepecat Jaguar Peter Foster, 2017. The Jaguar was an iconic aircraft to come from Anglo French collaboration and one of the first to be conceived with a predatory attack and low level strike capability. First planned as a trainer, it emerged as a fighter bomber taking much from the TSR2 concept when a string of cancelled projects identified a gap in strike attack capability. It soon evolved into a supersonic aircraft ready for reconnaissance and tactical nuclear strike roles. Retired before its time for France in 2005 and for the RAF in 2007, it is still revered both by those that operated it and those that stared in wonder. The end for the Jaguar in the United Kingdom was sudden and rushed with the big cat going out with a meow rather than a roar. However, it survived on other continents providing a growl and bite in maintaining sovereignty for several decades. This book is a stunning pictorial tribute to those final days.
