Volume 11: Tibetan Modernities ,2008-05-31 This is the first major publication in the West to study modernity and its impact on contemporary Tibet Based on field work by researchers from the fields of anthropology sociology environmental science literature art and linguistics it presents essays on education economics childbirth environment caste pop music media and painting in Tibetan communities today The findings emerge from studies carried out in Ladakh Golok Lhasa Xining Shigatse and other areas of the Tibetan world It will provide important and sometimes surprising results for students of Tibet China Himalayan studies as well as an important contribution to our understandings of modernity and development in the modern world **Gendun Chopel** Donald S. Lopez Jr., 2018-05-29 The most comprehensive work available on the life and writings of Tibet's most famous modern cultural hero Visionary artist poet

philosopher adventurer master of the arts of love tantric yogin Buddhist saint These are some of the terms that describe Tibet's modern culture hero Gendun Chopel 1903-1951. The life and writings of this sage of the Himalayas mark a key turning point in Tibetan history when twentieth-century modernity came crashing into Tibet from British India to the south and from Communist China to the east. For the first time, the astonishing breadth of his remarkable accomplishments is captured in a single definitive volume. Here is an exploration of Gendun Chopel's life as a recognized tulku or incarnation of a previous master, becoming a monk and soon surpassing the knowledge of his teachers to his travels and discoveries throughout Tibet, India, and Sri Lanka. His exposure to the wider world brought together his philosophical training, artistic virtuosity, and meditative experience, inspiring an incredible corpus of poetry, prose, and painting. While Gendun Chopel was known by the Tibetan establishment for his vast learning and progressive ideas, which eventually landed him in a Lhasa prison, he was little appreciated in his lifetime. However, since his death in 1951, his legacy, fame, and relevance across the Tibetan cultural landscape and beyond have continued to grow. No American scholar knows Gendun Chopel better than Donald Lopez, who has written six books about him, culminating in this volume. Lopez intimately and eloquently carries the reader through the life of Gendun Chopel and sets the stage for his selected writings, which present the range and depth of Gendun Chopel's thought. The most comprehensive and wide-ranging work available on this extraordinary figure, this inaugural book of the *Lives of the Masters* series is an instant classic.

[A History of Modern Tibet, 1913-1951](#) Melvyn C. Goldstein, 2023-11-15. The Tibetan Question: the nature of Tibet's political status vis-à-vis China has been the subject of often bitterly competing views, while the facts of the issue have not been fully accessible to interested observers. While one faction has argued that Tibet was in the main historically independent until it was conquered by the Chinese Communists in 1951 and incorporated into the new Chinese state, the other faction views Tibet as a traditional part of China that split away at the instigation of the British after the fall of the Manchu Dynasty and was later dutifully reunited with New China in 1951. In contrast, this comprehensive study of modern Tibetan history presents a detailed, non-partisan account of the demise of the Lamaist state. Drawing on a wealth of British, American, and Indian diplomatic records, first-hand historical accounts written by Tibetan participants, and extensive interviews with former Tibetan officials, monastic leaders, soldiers, and traders, Goldstein meticulously examines what happened and why. He balances the traditional focus on international relations with an innovative emphasis on the intricate web of internal affairs and events that produced the fall of Tibet. Scholars and students of Asian history will find this work an invaluable resource, and interested readers will appreciate the clear explanation of highly polemicized and often confusing historical events.

[Dialectical Practice in Tibetan Philosophical Culture](#) Kenneth Liberman, 2007-09-26. Tibetan Buddhist scholar monks have long engaged in face-to-face public philosophical debates. This

original study challenges Orientalist text based scholarship which has overlooked these lived practices of Tibetan dialectics Kenneth Liberman brings these dynamic disputations to life for the modern reader through a richly detailed turn by turn analysis of the monks formal philosophical reasoning He argues that Tibetan Buddhists deliberately organize their debates into formal structures that both empower and constrain thinking skillfully using logic as an interactional tool to organize their reflections During his three years in residence at Tibetan monastic universities Liberman observed and videotaped the monks debates He then transcribed translated and analyzed them using multimedia software and ethnomethodological techniques which enabled him to scrutinize the local methods that Tibetan debaters use to keep their philosophical inquiries alive His study shows the monks rely on such indigenous dialectical methods as extending an opponent s position to its absurd consequences pulling the rug out from under an opponent and other lively strategies This careful investigation of the formal philosophical work of Tibetan scholars is a pathbreaking analysis of an important classical tradition

The Politics of Language Oppression in Tibet Gerald Roche,2024-11-15 In *The Politics of Language Oppression in Tibet* Gerald Roche sheds light on a global crisis of linguistic diversity that will see at least half of the world s languages disappear this century Roche explores the erosion of linguistic diversity through a study of a community on the northeastern Tibetan Plateau in the People s Republic of China Manegacha is but one of the sixty minority languages in Tibet and is spoken by about 8 000 people who are otherwise mostly indistinguishable from the Tibetan communities surrounding them Recently many in these communities have switched to speaking Tibetan and Manegacha faces an uncertain future The author uses the Manegacha case to show how linguistic diversity across Tibet is collapsing under assimilatory state policies He looks at how global advocacy networks inadequately acknowledge this issue highlighting the complex politics of language in an inter connected world *The Politics of Language Oppression in Tibet* broadens our understanding of Tibet and China the crisis of global linguistic diversity and the radical changes needed to address this crisis
