

Summary of Utilitarianism by John Stuart Mill

- It defines utilitarianism as a theory based on the principle that "actions are right in proportion as they tend to promote happiness, wrong as they tend to produce the reverse of happiness."
- Mill defines happiness as pleasure and the absence of pain. He argues that pleasure can differ in quality and quantity, and that pleasures that are rooted in one's higher faculties (intellectual, moral and aesthetic faculties) should be weighted more heavily than pleasures of lower qualities (i.e. animal pleasures).
