Slave Species of the Gods Michael Tellinger,2012-09-10 Our origins as a slave species and the Anunnaki legacy in our DNA Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species first proposed by Zecharia Sitchin in The 12th Planet Shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6 000 years ago However as Michael Tellinger reveals the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200 000 years ago Sent to Earth in search of life saving gold these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold thus beginning our global traditions of gold obsession slavery and god as dominating master Revealing new archaeological and genetic evidence in support of Zecharia Sitchin s revolutionary work with pre biblical clay tablets Tellinger shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA which explains why less than 3 percent of our DNA is active He identifies a recently discovered complex of sophisticated ruins in South Africa complete with thousands of mines as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy Matching key mythologies of the world s religions to the Sumerian clay tablet stories on which they are based he details the actual events behind these tales of direct physical interactions with god concluding with the epic flood a perennial theme of ancient myth that wiped out the Anunnaki mining operations Tellinger shows that as humanity awakens to the truth about our origins we can overcome our programmed animalistic and slave like

nature tap in to our dormant Anunnaki DNA and realize the longevity and intelligence of our creators as well as learn the difference between the gods of myth and the true loving God of our universe *Subliminal Roots* Jon Yates, 2024-01-05 How can one man kill two other men in the same way in different places at the same time What if while investigating something you discovered everything and realised that you knew it all along These two seemingly unrelated questions lead Eddy Pain on a voyage of discovery in the land of Taja a place with a long and complicated history that just won't seem to leave the present alone Eddy is a foundling a former militia man and now a legal investigator although strangely he has never investigated where he really came from assuming quite reasonably that he would not like the answer But when the visit of a mysterious woman launches him into the case of two brutal murders the investigation starts to reveal disturbing things to him that he realises he probably already knew Along the way he meets people who all seem to know more about the world and what goes on in it than him or at least think they do A less than politically correct judge a militia captain with a penchant for haute couture a museum curator surrounded by nice items a few task specific gods who are actually just self publicists with a particular skill of some sort and an executioner with job satisfaction issues Eddy's journey through Tajan history and its various dysfunctional institutions leads him to discover that his roots and the roots of the place in which he lives works and occasionally plays are inextricably linked
