Charles Leslie, Charles M. Leslie, Allan Young, 1992-06-05 From the perspectives of history and cultural anthropology the authors consider problems of knowledge in Chinese medicine the Hindu Buddhist traditions of South Asian medicine and the Greco Arabic traditions of Islamic medicine [Asian Medical Industries](#) Stephan Kloos, Calum Blaikie, 2022-02-28 This book develops the concept of Asian Medical Industries as a novel perspective on traditional Asian medicines Complementing and updating existing work in this field the book provides a critical and comparative analytic framework for understanding Chinese Medicine Ayurveda Sowa Rigpa and Japanese Kampo in the 21st century No longer subaltern health resources or conservative systems of traditional knowledge these medicines have become an integral part of modern Asia as innovative lucrative industries Ten original case studies employ insights from anthropology history geography pharmaceutical sciences botany and economics to trace the transformation of Asian medical traditions into rapidly growing and dynamic pharmaceutical industries Collectively these contributions identify this as a major phenomenon impacting Asian and global healthcare economics cultural politics and environments The book suggests that we can learn more about Asian medicines today by approaching them as industries rather than as cultural or epistemic systems Asian Medical Industries is a highly original resource for students and scholars across a range of academic fields such as anthropology history and Asian studies as well as medical practitioners health sector actors and policymakers [Healing at the Periphery](#) Laurent Pordié, Stephan Kloos, 2021-10-18 India has long occupied an important place in Tibetan medicine's history and development However Indian Himalayan practitioners of Tibetan medicine or amchi have largely remained overlooked at the Tibetan medical periphery despite playing a central social and medical role in their communities Power and legitimacy religion and economic development biomedical encounters and Indian geopolitics all intersect in the work and identities of contemporary Himalayan amchi This volume examines the crucial moment of crisis and transformation that occurred in the early 2000s to offer insights into the beginnings of Tibetan medicine's professionalization industrialization and official recognition in India and elsewhere Based on fine grained ethnographic studies in Ladakh Zangskar Sikkim and the Darjeeling Hills *Healing at the Periphery* asks how the dynamics of capitalism social change and the encounter with biomedicine affect small communities on the fringes of modern India and conversely what local transformations of Tibetan medicine tell us about contemporary society and health care in the Himalayas and the Tibetan world Contributors Florian Besch Calum Blaikie Sienna R Craig Barbara Gerke Isabelle Gu rin Kim Gutschow Pascale Hancart Petitet Stephan Kloos Fernanda Pirie Laurent Pordié *New Horizons in Medical Anthropology* Margaret Lock, Mark Nichter, 2003-09-02 *New Horizons in Medical Anthropology* is a

festschrift in honor of Charles Leslie whose influential career helped shape this subfield of anthropology This collection of cutting edge essays explores medical innovation and medical pluralism at the turn of the 21st century The book accomplishes two things it reflects recent research by medical anthropologists working in Asia who have been inspired by Charles Leslie s writing on such topics as medical pluralism and the early emergence of what has become a globalized biomedicine the social relations of therapy management and the relationship between the politics of the state and discourse about the health of populations illness and medicine The book also takes up lesser known aspects of Leslie s work his contribution as an editor and the role he played in carrying the field forward his ethics as a medical anthropologist committed to humanism and sensitive to racism and eugenics and the passion he inspired in his co workers and students Charles Leslie is a remarkable and influential social scientist *New Horizons in Medical Anthropology* is a fitting tribute to a sensitive scholar whose theories and codes of practice provide an essential guide to future generations of medical anthropologists

Recipes for Immortality Richard S Weiss,2009-02-19 Despite the global spread of Western medical practice traditional doctors still thrive in the modern world In *Recipes for Immortality* Richard Weiss illuminates their continued success by examining the ways in which siddha medical practitioners in Tamil South India win the trust and patronage of patients While biomedicine might alleviate a patient s physical distress siddha doctors offer their clientele much more affiliation to a timeless and pure community the fantasy of a Tamil utopia and even the prospect of immortality They speak of a golden age of Tamil civilization and of traditional medicine drawing on broader revivalist formulations of a pure and ancient Tamil community Weiss analyzes the success of siddha doctors focusing on how they have successfully garnered authority and credibility While shedding light on their lives vocations and aspirations Weiss also documents the challenges that siddha doctors face in the modern world both from a biomedical system that claims universal efficacy and also from the rival traditional medicine ayurveda which is promoted as the national medicine of an autonomous Indian state Drawing on ethnographic data premodern Tamil texts on medicine alchemy and yoga government archival resources college textbooks and popular literature on siddha medicine and on the siddhar yogis he presents an in depth study of this traditional system of knowledge which serves the medical needs of millions of Indians Weiss concludes with a look at traditional medicine at large and demonstrates that siddha doctors despite resent trends toward globalization and biomedicine reflect the wider political and religious dimensions of medical discourse in our modern world *Recipes for Immortality* proves that medical authority is based not only on physical effectiveness but also on imaginative processes that relate to personal and social identities conceptions of history secrecy loss and utopian promise

Asian Medicine and Globalization Joseph S. Alter, 2013-03-26 Medical systems function in specific cultural contexts It is common to speak of the medicine of China Japan India and other nation states Yet almost all formalized medical systems claim universal applicability and thus are ready to cross the cultural boundaries that contain them There is a critical tension in theory and practice in the ways regional medical systems are conceptualized as nationalistic or inherently transnational This volume is concerned with questions and problems created by the friction between nationalism and transnationalism at a time when globalization has greatly complicated the notion of cultural political and economic boundedness Offering a range of perspectives the contributors address questions such as How do states concern themselves with the modernization of traditional medicine How does the global hegemony of science enable the nationalist articulation of alternative medicine How do global discourses of science and new age spirituality facilitate the transnationalization of Asian medicine As more and more Asian medical practices cross boundaries into Western culture through the popularity of yoga and herbalism and as Western medicine finds its way east these systems of meaning become inextricably interrelated These essays consider the larger implications of transmissions between cultures

Economic Studies of Indigenous and Traditional Knowledge Nirmal Sengupta, 2007 Till recently the mention of traditional knowledge would only elicit metaphors like the Vedas and Upanishads Aryabhatta Panini and Charaka or the invention of zero The perspective is changing This book deals with the traditional and indigenous knowledge of common men and women of India that of its tribal and Dalit population fisher folk craftsmen artisans and leather workers their agriculture housing and irrigation methods medicinal knowledge drinking water collection arts and culture Different chapters establish that the economic significance of such knowledge in the modern world is continuing even increasing and is being utilised in a wide variety of ways Globally there is an increased interest in traditional and indigenous knowledge It is now recognised as an underutilised resource that can help to reduce poverty and also as a dormant reserve with considerable commercial potential Book jacket

Routledge Handbook of Contemporary India Knut A. Jacobsen, 2015-08-11 A second revised edition of this title is available at <https://www.routledge.com/Routledge-Handbook-of-Contemporary-India/Jacobsen/p/book/9781032244068> India is the second largest country in the world with regard to population the world's largest democracy and by far the largest country in South Asia and one of the most diverse and pluralistic nations in the world in terms of official languages cultures religions and social identities Indians have for centuries exchanged ideas with other cultures globally and some traditions have been transformed in those transnational and transcultural encounters and become successful innovations with an extraordinary global

popularity India is an emerging global power in terms of economy but in spite of India's impressive economic growth over the last decades some of the most serious problems of Indian society such as poverty repression of women inequality both in terms of living conditions and of opportunities such as access to education employment and the economic resources of the state persist and do not seem to go away This Handbook contains chapters by the field's foremost scholars dealing with fundamental issues in India's current cultural and social transformation and concentrates on India as it emerged after the economic reforms and the new economic policy of the 1980s and 1990s and as it develops in the twenty first century Following an introduction by the editor the book is divided into five parts Part I Foundation Part II India and the world Part III Society class caste and gender Part IV Religion and diversity Part V Cultural change and innovations Exploring the cultural changes and innovations relating a number of contexts in contemporary India this Handbook is essential reading for students and scholars interested in Indian and South Asian culture politics and society Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Bibliography of the History of Medicine, 1993 *Integrating East Asian Medicine into Contemporary Healthcare E-Book* Volker Scheid, Hugh MacPherson, 2011-10-24 Traditional East Asian healthcare systems have moved rapidly from the fringes of healthcare systems in the West towards the centre over the past 50 years This change of status for traditional medicines presents their practitioners with both opportunities and challenges as the focus shifts from one of opposition towards one of integration into biomedically dominated healthcare systems Integrating East Asian Medicine into Contemporary Healthcare examines the opportunities and challenges of integrating East Asian medicine into Western healthcare systems from an interdisciplinary perspective Volker Scheid and Hugh MacPherson bring together contributions from acknowledged experts from a number of different disciplines including clinical researchers Chinese Medicine practitioners historians medical anthropologists experts in the social studies of science technology and medicine to examine and debate the impact of the evidence based medicine movement on the ongoing modernization of East Asian medicines The book considers the following questions What are the values goals and ethics implicit within traditional East Asian medical practices What claims to effectiveness and safety are made by East Asian medical practices What is at stake in subjecting these medical practices to biomedical models of evaluation What constitutes best practice How is it to be defined and measured What are the ideologies and politics behind the process of integration of East Asian medical practices into modern health care systems What can we learn from a variety of models of integration into contemporary healthcare

Medicine Between Science and Religion Vincanne Adams, Mona Schrempf, Sienna R. Craig, 2010-12-01 There is a growing interest in studies that document the relationship between science and medicine as ideas practices technologies and outcomes across cultural national geographic terrain Tibetan medicine is not only known as a scholarly medical tradition among other Asian medical systems with many centuries of technological clinical and

pharmacological innovation it also survives today as a complex medical resource across many Asian nations from India and Bhutan to Mongolia Tibet TAR and China Buryatia as well as in Western Europe and the Americas The contributions to this volume explore in equal measure the impacts of western science and biomedicine on Tibetan grounds i e among Tibetans across China the Himalaya and exile communities as well as in relation to globalized Tibetan medicine and the ways that local practices change how such science gets done and how this continually hybridized medical knowledge is transmitted and put into practice As such this volume contributes to explorations into the bi directional flows of medical knowledge and practice
