Patients Story:

Christianity and the Brain: Patients Stories RAMSIS F. GHALY MD FACS,2010-07-21 Dr Ramsis Ghaly is a Christian a physician a surgeon and a humanitarian This is the fourth book by Dr Ghaly bringing his philosophy on patient care and the medical profession to patients their families and healthcare providers This book honors his patients It includes their stories told by them in interviews The book represents the voice of the patients written for fellow patients to give them faith hope and courage as they face their own illness journey It is Dr Ghalys hope that you will be better prepared to embark on an illness journey with the words for his book As you embark upon the illness journey it is important for the patient and his family to seek quality care asking questions and demanding only compassionate and professional healthcare from all involved Dr Ghaly hopes this book will provide insight into the illness journey comfort for the difficult times hope for the future and faith that with Gods help all will be right Here are the stories of 100 of his patients They include many who have gone on to live healthy lives as well as some who have passed on Dr Ghaly has included his comments on most of the cases and on the medical conditions they faced

Doctors' Stories Kathryn Montgomery Hunter,2020-06-30 A patient s job is to tell the physician what hurts and the physician s job is to fix it But how does the physician know what is wrong What becomes of the patient s story when the patient becomes a case Addressing readers on both sides of the patient physician encounter Kathryn Hunter looks at medicine as an art that relies heavily on telling and interpreting a story the patient s story of illness and its symptoms

Patient Stories from the Heart: Reflections on the Human Side of Medicine Pasquale De Marco,2025-05-06 Patient Stories from the Heart Reflections on the Human Side of Medicine is a collection of stories from the heart of medicine It is a book about the human side of healthcare the stories that don t make it into the medical textbooks It is a book about the patients we meet the challenges we face and the lessons we learn In this book Pasquale De Marco shares some of the most memorable stories from his career as a doctor He writes about the patients who have taught him the most the colleagues who have inspired him and the moments that have changed his life These stories are funny heartbreaking and inspiring They are a reminder that medicine is not just about science and technology It is also about people It is about the human connection Pasquale De Marco writes with honesty humor and compassion He has a gift for storytelling and his stories will stay with you long after you finish reading them Patient Stories from the Heart Reflections on the Human Side of Medicine is a must read for anyone who has ever been a patient a doctor or a caregiver It is a book that will make you laugh cry and think It is a book that will remind you of the importance of the human connection Patient Stories from the Heart Reflections on the Human Side of Medicine is a celebration of the art of medicine It is a book that will inspire you to become a better doctor And it is a book that will remind you that the human side of medicine is alive and well If you like this book write a review on google books

Stories of Sickness Howard Brody,2002-10-31 Our personalities and our identities are intimately bound up with the stories that we tell to organize and to make sense of our lives To understand the human

meaning of illness we therefore must turn to the stories we tell about illness suffering and medical care **Stories of Sickness** explores the many dimensions of what illness means to the sufferers and to those around them drawing on depictions of illness in great works of literature and in nonfiction accounts The exploration is primarily philosophical but incorporates approaches from literature and from the medical social sciences When it was first published in 1987 **Stories of Sickness** helped to inaugurate a renewed interest in the importance of narrative studies in health care For the Second Edition the text has been thoroughly revised and significantly expanded Four almost entirely new chapters have been added on the nature complexities and rigor of narrative ethics and how it is carried out There is also an additional chapter on maladaptive ways of being sick that deals in greater depth with disability issues Health care professionals students of medicine and bioethics and ordinary people coping with illness no less than scholars in the health care humanities and social sciences will find much value in this volume Unique Features Philosophically sophisticated yet clearly written and easily accessible Interdisciplinary approach combines philosophy literature health care social sciences Contains many fascinating stories and vignettes of illness drawn from both fiction and nonfiction A new and comprehensive overview of the hot topic of narrative ethics in medicine and health care

Living Stories Donald Capps, In **Living Stories** Donald Capps makes a forceful case for the importance of pastoral counseling in the life of a congregation Arguing convincingly for a paradigmatic revolution Capps offers a radically new model that gives systematic and constructive attention to the way people actually story their lives inspirationally paradoxically or miraculously Through such engagement pastors can help people discover their own stories discern the shape and direction of those stories and move constructively to find new understandings or more hopeful possibilities in their life situations **Stories Matter** Rita Charon, Martha Montello, 2004-04-16 First published in 2002 The doctor patient relationship starts with a story Doctors notes a patient's chart the recommendations of ethics committees and insurance justifications all hinge on written and verbal narrative interaction The practice of narrative profoundly affects decision making patient health and treatment and the everyday practice of medicine In this edited collection the contributors provide conceptual foundations practical guidelines and theoretical considerations central to the practice of narrative ethics

The Unfolding Covid-19 My Thoughts, Memoirs and Patient's Stories Ramsis F. Ghaly MD, 2021-06-08 There is so much happening as we the people of the world continue to evolve through COVID 19 with it undoubtedly being one of the most catastrophic events of modern times This book is a continuation of my previous book titled **Coronavirus The Pandemic of the Century and the Wrath of God** It recalls actual stories and memories thus far as mankind continues to evolve from the gloominess of COVID 19 This book represents my thoughts views and various life events that I wish to share with you all As a neurosurgeon and an anesthesiologist working the front lines within three major medical centers of the greater metropolitan area of Chicago I have without hesitancy never closed my doors to my patients My faith in our Lord Jesus and my abounding love to my patients residents and students has kept me going and strengthened my soul During COVID and as the world

coming out of COVID it was a good time to flash back in marvelous works of our Lord my patients stories and my achievements performances lessons learned This book is centered in deep Christian rituals and meditations consisting of 115 chapters distributed over 12 sections touching on various topics that have passed through my mind during the evolution of COVID 19 These topics range from what I deem critical COVID all the way to vaccines political COVID and concomitant events as well as my personal memoirs patient care and the living stories of my patients There is so much to share with you from April 2020 until the time of publication so let us open the book and explore my time during COVID 19 *The Complete Guide to Transforming the Patient Experience* Gary Adamson, Sonia Rhodes, 2009-10 The Complete Guide to Transforming the Patient Experience Gary Adamson Sonia Rhodes Create exceptional healthcare experiences that improve market share The patient experience impacts all areas of healthcare including patient satisfaction quality as measured by HCAHPS reputation employee satisfaction physician referrals and ultimately the bottom line This definitive resource for healthcare organizations authored by two award winning experience thinkers delivers the proven solutions you need to create an exceptional and successful patient experience The patient experience is your competition s 1 priority Make it yours too Nearly 90% of senior healthcare executives say that improving patient experience is one of their top five priorities That makes it your priority too Using examples from organizations that create successful healthcare experiences The Complete Guide to Transforming the Patient Experience will give you the tools you need to Assess your organization s patient experience Implement patient experience techniques in your own organization Market your new patient experience to improve market share Unite brand promise with brand experience The Complete Guide to Transforming the Patient Experience comes with a multi media interactive CD that includes a compilation of best practices examples of experience initiatives and ideas to inspire your own experience efforts Take a look at the table of contents Chapter 1 Story in the Stone The State of the Experience in Healthcare Chapter 2 Immerse Yourself The Best Way to Learn About Experiences Chapter 3 An Experience Marriage Marketing and Operations Together At Last Chapter 4 Experience Drivers From the Inside Out and the Outside In Chapter 5 Stories Matter How Leaders Can Convey Meaning and Drive Decisions Chapter 6 A Question of Greatness Set a New Standard of Organizational Performance Chapter 7 Living Legends Bring Mission Vision and Values to Life Chapter 8 Miniature Treasures Epic Results Create Memorable Symbols and Ceremonies Chapter 9 Setting the Stage Turn Functional Facilities into Healing Spaces Chapter 10 The Fab Four Develop Gather and Tell Your Stories and Make them Legendary Chapter 11 Getting Real Close the Gap Between Brand Promise and Brand Experience Who will benefit from this book Improving the patient experience is everyone s job and it starts with top level executives including CEOs CFOs COOs chief medical and nursing officers and chief marketing officers This guide will also benefit marketing advertising and PR directors and anyone involved with the patient experience Patient Safety and Healthcare Improvement at a Glance Sukhmeet Panesar, Andrew Carson-Stevens, Sarah Salvilla, Aziz Sheikh, 2014-06-16 Patient Safety and Healthcare Improvement at a Glance is a timely and

thorough overview of healthcare quality written specifically for students and junior doctors and healthcare professionals It bridges the gap between the practical and the theoretical to ensure the safety and wellbeing of patients Featuring essential step by step guides to interpreting and managing risk quality improvement within clinical specialties and practice development this highly visual textbook offers the best preparation for the increased emphasis on patient safety and quality driven focus in today's healthcare environment Healthcare Improvement and Safety at a Glance Maps out and follows the World Health Organization Patient Safety curriculum Draws upon the quality improvement work of the Institute for Healthcare Improvement This practical guide covering a vital topic of increasing importance in healthcare provides the first genuine introduction to patient safety and quality improvement grounded in clinical practice *Stories and Their Limits* Hilde Lindemann Nelson, 2014-01-21 Narratives have always played a prominent role in both bioethics and medicine the fields have attracted much storytelling ranging from great literature to humbler stories of sickness and personal histories And all bioethicists work with cases from court cases that shape policy matters to case studies that chronicle sickness But how useful are these various narratives for sorting out moral matters What kind of ethical work can stories do and what are the limits to this work The new essays in *Stories and Their Limits* offer insightful reflections on the relationship between narratives and ethics *Existential narratives: Increasing psychological wellbeing through story* Enny Das, 2023-02-08

Health Literacy From A to Z Helen Osborne, 2011-10-07 Clear communication of your health message can make all the difference in effective patient care *Health Literacy from A to Z Practical Ways to Communicate Your Health Message* Second Edition is an easy to use handbook designed for the busy health professional Filled with ideas and strategies that can be used in everyday practice *Health Literacy from A to Z* is a first of its kind resource Important Notice The digital edition of this book is missing some of the images or content found in the physical edition **Doctors Talking with Patients/Patients Talking with Doctors** Debra Roter, Judith A. Hall, 2006-08-30 The verbal and nonverbal exchanges that take place between doctor and patient affect both participants and can result in a range of positive or negative psychological reactions including comfort alarm irritation or resolve This updated edition of a widely popular book sets out specific principles and recommendations for improving doctor patient communications It describes the process of communication analyzes social and psychological factors that color doctor patient exchanges and details changes that can benefit both parties Medical visits are often less effective and satisfying than they would be if doctors and patients better understood the communication most needed for attainment of mutual health goals The verbal and nonverbal exchanges that take place between doctor and patient affect both participants and can result in a range of positive or negative psychological reactions including comfort alarm irritation or resolve Talk on both verbal and non verbal levels is shown by extensive research to have far reaching impact This updated edition of a widely popular book helps us understand this vital issue and facilitate communications that will mean more effective medical care and happier healthier consumers Roter and Hall set out specific principles and

recommendations for improving doctor patient relationships They describe the process of communication analyze social and psychological factors that color doctor patient exchanges and detail changes that can benefit both parties Here are needed encouragement and principles of action vital to doctors and patients alike far reaching impact *Challenges and Choices for Patient, Carer and Professional at the End of Life* Catherine Proot, Michael Yorke, 2021-03-17 Living with Uncertainty gives a broad perspective on the complexities and challenges of the practice of end of life care as well as the perceived benefits and limitations of medical intervention Drawn from research and clinical and pastoral experience the book examines the feelings associated with the end of life highlighting the demands that people are faced with and their consequences It moves into the difficult area of people who feel defeated by their illness and can or want to live no longer as well as the family caregivers and professionals who surround them These perspectives have been built upon around a hundred narratives of lived experience combined with the wider clinical and practical range of voices A topical post script Lessons from Covid 19 captures the choices and challenges on a personal professional and systemic level which the pandemic acutely revealed with a multiplicity of examples This will be essential reading for students and professionals in palliative and end of life care Families and friends will also benefit from this book as they try to come to terms with the delicate but universal issues of death and dying

Integrating Health Humanities, Social Science, and Clinical Care Anna-leila Williams, 2018-12-07 The health humanities are widely understood as a way to cultivate perspective compassion empathy professional identity and self reflection among health professional students This innovative book links humanities themes social science domains and clinical practice to invite self discovery and recognition of universal human experiences Integrating Health Humanities Social Science and Clinical Care introduces critical topics that rarely receive sufficient attention in health professions education such as cultivating resilience witnessing suffering overcoming unconscious bias working with uncertainty understanding professional and personal roles and recognizing interdependence The chapters encourage active engagement with a range of literary and artistic artefacts and guide the reader to question and explore the clinical skills that might be necessary to navigate clinical scenarios Accompanied by a range of pedagogical features including writing activities discussion prompts and tips for leading a health humanities seminar this unique and accessible text is suitable for those studying the health professions on both clinical and pre clinical pathways

Narrative Ethics in Public Health: The Value of Stories Drue H. Barrett, Leonard W. Ortmann, Stephanie A. Larson, 2022-04-12 This Open Access book illustrates the power of stories to illuminate ethical concerns that arise in public health It complements epidemiological or surveillance evidence and reveals stakeholder perspectives crucial for public health practitioners to develop effective and ethical public health interventions Because it relies on the natural and universal appeal of stories the book also serves to introduce the field of public health to students considering a career in public health The opening section of the book also serves as a more didactic introduction to public health ethics and the field of narrative ethics It describes the field of public health ethics including ethical principles

relevant to public health practice and research and the advantages of a narrative ethics approach That approach explores the problems and the ethical challenges of public health from the inside from the perspective of those experiencing health problems to the challenges of those who must address these problems The later sections consist of 14 chapters that present the actual stories of these public health problems and challenges In narrative style they range from first person narratives of both practitioners and citizens to analysis of published short stories The problems and challenges they address include issues relating to justice concerns surveillance and stigma community values and the value of community trust and the value of information and freedom and responsibility Specific public health topics include resource allocation restricting liberty to protect the community from health threats and the health impact of trauma addiction obesity and health disparities

Storytelling in Medicine Colin Robertson, Gareth Clegg, James Huntley, 2023-09-20 Throughout our lives story is the medium each of us uses to make sense of our environment and relationships Stories provide meaning and context enriching our experiences and equipping us with a framework to navigate our existence This unique practical book for healthcare trainees practitioners and educators explores the ideas and practice of narrative and storytelling that lie at the very heart of clinical medicine and the patient experience of care It shows how story and narrative can be used effectively to help convey concepts such as prognosis and the effect of illness upon life and to prepare patients and their relatives for difficult and painful news Offering a particular insight into communication by and between healthcare professionals and how it can be refocused and improved this updated and expanded second edition remains an invaluable teaching aid for educators working in both small and large formats and for under and postgraduate students

Claiming Power in Doctor-Patient Talk

Nancy Ainsworth-Vaughn, 1998-06-25 Nancy Ainsworth Vaughn studied stories topic control true questions and rhetorical questions in 101 medical encounters in US private practice settings In exceptionally lucid and accessible style Ainsworth Vaughn explains how power was claimed by and co constructed for both patients and doctors previous studies have focused upon doctors power The discourse varied along a continuum from interview like talk to conversational talk Six chapters are organized around data and include extended examples of actual talk in detailed transcription four of these data oriented chapters focus upon dynamic moment to moment use of speech activities in emerging discourse such as doctors and patients stories that co constructed selves and a patient s sexual rhetorical questions Two more chapters offer non statistical quantitative data on the frequency of questioning and sudden topic changes in relation to gender diagnosis and other factors Contributing to discourse theory Ainsworth Vaughn significantly modifies previous definitions for topic transitions and rhetorical questions and discovers the role of storytelling in diagnosis The final chapter provides implications for physicians and medical educators

Patient and Person

Jane Stein-Parbury, 2017-08-10 A suite of scenario based videos supporting key communication skills and concepts including empathy challenging behaviours advocating for a patient and admitting a patient with reflections from both the nurse and patient perspective A series of video interviews exploring diverse cultural

backgrounds from the patient and practitioner perspective More than 40 Learning Activities to help develop featured skills and concepts Research highlights in each chapter covering the most recent research on communication in nursing

Palliative Care Nursing Kathleen Ouimet Perrin, 2011-02-14 Palliative Care Nursing Caring for Suffering Patients explores the concept of suffering as it relates to nursing practice This text helps practicing nurses and students define and recognize various aspects of suffering across the lifespan and within various patient populations while providing guidance in alleviating suffering In addition it examines spiritual and ethical perspectives on suffering and discusses how witnessing suffering impacts nurses ability to assume the professional role Further the authors discuss ways nurses as witnesses to suffering can optimize their own coping skills and facilitate personal growth Rich in case studies pictures and reflections on nursing practice and life experiences Palliative Care Nursing Caring for Suffering Patients delves into key topics such as how to identify when a patient is suffering whether they are coping sources of coping facades what to do to ease suffering and how to convey the extent of suffering to members of the health care team
