WOMEN IN THE INTERNATIONAL DIVISION OF LABOUR

MARIA MIES

**WITH A FOREWORD BY
SILVIA FEDERICI**

The women's liberation movement is perhaps the most controversial, as well as the most far-reaching, of the new social movements: the ecology movement, the alternative movement, the peace movement, and others. By its very existence it provokes people ...

Patriarchy and Accumulation on a World Scale Maria Mies,2014-07-10 It is my thesis that this general production of life or subsistence production mainly performed through the non wage labour of women and other non wage labourers as slaves contract workers and peasants in the colonies constitutes the perennial basis upon which capitalist productive labour can be built up and exploited First published in 1986 Maria Mies s progressive book was hailed as a major paradigm shift for feminist theory and it remains a major contribution to development theory and practice today Tracing the social origins of the sexual division of labour it offers a history of the related processes of colonization and housewifization and extends this analysis to the contemporary new international division of labour Mies s theory of capitalist patriarchy has become even more relevant today This new edition includes a substantial new introduction in which she both applies her theory to the new globalized world and answers her critics

Patriarchy and Accumulation on a World Scale Maria Mies,1986 This study traces the social origins of the sexual division of labour It provides a history of the related processes of colonization and housewifization and extends this analysis to the contemporary new international division of labour and the role which women have to play as the cheapest producers and consumers In this new edition Maria Mies applies her theory to the globalized world and answers her critics

Reading Feminist Theory Susan Archer Mann,Ashly Suzanne Patterson,2016 Reading Feminist Theory From Modernity to Postmodernity interweaves classical and contemporary writings from the social sciences and the humanities to represent feminist thought from the late eighteenth century to the present Editors Susan Archer Mann and Ashly Suzanne Patterson pay close attention to the multiplicity and diversity of feminist voices visions and vantage points by race class gender sexuality and global location Along with more conventional forms of theorizing this anthology points to multiple sites of theory production both inside and outside of the academy and includes personal narratives poems short stories zines and even music lyrics Offering a truly global perspective the book devotes three chapters and more than thirty readings to the topics of colonialism imperialism and globalization It also provides extensive coverage of third wave feminism poststructuralism queer theory postcolonial theory and transnational feminisms

The Futures of Racial Capitalism Gargi Bhattacharyya,2023-10-23 Capitalism appears to be endlessly in crisis but without ever loosening its hold on our lives New modes of racism and exclusion emerge but the old ones never go away We continue to struggle to live and survive in its wake but are unable still now to build commonality with each other In this incisive book Gargi Bhattacharyya revisits debates about racial capitalism and its violence through differentiation Taking the

four lenses of prisons borders debt and platforms Bhattacharyya reveals how this moment of capitalist crisis positions humans as expendable but differentially so in a process that remakes longstanding racialized hierarchies Uncovering practices and techniques embedded in the shifting processes of accumulation and state power the chapters illuminate how value is extracted from populations through non wage routes and indebtedness This engaging introduction to racial capitalism offers an interlocking and insightful analysis of capitalist renewal essential for students and scholars interested in issues of race racism and inequality

Border and Rule Harsha Walia,2021-02-09 In Border and Rule one of North America s foremost thinkers and immigrant rights organizers delivers an unflinching examination of migration as a pillar of global governance and gendered racial class formation Harsha Walia disrupts easy explanations for the migrant and refugee crises instead showing them to be the inevitable outcomes of the conquest capitalist globalization and climate change that are generating mass dispossession worldwide Border and Rule explores a number of seemingly disparate global geographies with shared logics of border rule that displace immobilize criminalize exploit and expel migrants and refugees With her keen ability to connect the dots Walia demonstrates how borders divide the international working class and consolidate imperial capitalist and racist nationalist rule Ambitious in scope and internationalist in orientation Border and Rule breaks through American exceptionalist and liberal responses to the migration crisis and cogently maps the lucrative connections between state violence capitalism and right wing nationalism around the world Illuminating the brutal mechanics of state formation Walia exposes US border policy as a product of violent territorial expansion settler colonialism enslavement and gendered racial ideology Further she compellingly details how Fortress Europe and White Australia are using immigration diplomacy and externalized borders to maintain a colonial present how temporary labor migration in the Arab Gulf states and Canada is central to citizenship regulation and labor control and how racial violence is escalating deadly nationalism in the US Israel India the Philippines Brazil and across Europe while producing a disaster of statelessness for millions elsewhere A must read in these difficult times of war inequality climate change and global health crisis Border and Rule is a clarion call for revolution The book includes a foreword from renowned scholar Robin D G Kelley and an afterword from acclaimed activist academic Nick Estes

Postnational Feminisms Hena Ahmad,2010 Postnational Feminisms Postcolonial Identities and Cosmopolitanism in the Works of Kamala Markandaya Tsitsi Dangarembga Ama Ata Aidoo and Anita Desai offers a significant contribution to the field of postcolonial and Third World feminist studies It reevaluates the ways in which Third World women writers interrogate the relationship between woman and nation in the postcolonial context Hena Ahmad brings forth the concept of postnational feminism which she deploys to show how these major writers challenge the role of women as signifiers of national cultures in their works This innovative concept illuminates the ambivalence of these uniquely positioned writers as Ahmad explores the connection between postnationalism and Third World feminism BOOK JACKET

Female Voices from the Worksite Marquita R. Walker,2020-11-24 This collection analyzes women s narratives on the workplace

These narratives speak to the daily struggles women face in the workforce such as inflexible and long work hours masculine workplace cultures employers stereotypical attitudes and the absence of work life balance initiatives Viewed from a sociological perspective the authors emphasize the reoccurring themes of devaluation exploitation and dehumanization of female workers resulting from unconscious or implicit bias and which directly impacts women s quality of life *The Future of Feminism* Sylvia Walby,2013-04-17 Feminism is not dead This is not a postfeminist era Feminism is still vibrant despite declarations that it is over Feminism is a success although many gender inequalities remain Feminism is taking powerful new forms which makes it unrecognisable to some In *The Future of Feminism* Sylvia Walby offers a provocative riposte to the notion that feminism is dead Substantiating her arguments with evidence of the vibrancy of contemporary feminism in civil society and beyond she provides a succinct yet comprehensive critical review of recent treatments of feminism explaining why they have got it wrong The book provides the definitive account of feminism s new and varied projects goals alliances and organizational forms including feminism as a global wave It offers engaged accounts of feminist activities across a range of domains in the economy polity violence and civil society Successful feminist projects are not always named as feminist sometimes being mainstreamed into coalitions with social democratic and global human rights activists Feminism is now global though also taking local forms and these new coalitions are the basis for the future of feminism On the future of feminism depends not only the future of gender inequality but the future of social inequality more generally **Among Women across Worlds** Suzy Kim,2023-02-15 In *Among Women across Worlds* Suzy Kim explores the transnational connections between North Korean women and the global women s movement Asian women especially communists are often depicted as victims of a patriarchal state Kim challenges this view through extensive archival research revealing that North Korean women asserted themselves from the late 1940s to 1975 before the Korean War began and up to the UN s International Women s Year Kim centers on North Korea and the East to present a new genealogy of the global women s movement Women of the Korean Democratic Women s Union KDWU part of the global left women s movement led by the Women s International Democratic Federation WIDF argued that family and domestic issues should be central to both national and international debates They highlighted the connections between race nationality sex and class in systems of exploitation Their intersectional program proclaimed no peace without justice the personal is the political and women s rights are human rights long before Western activists adopted these ideas *Among Women across Worlds* uncovers movements and ideas foundational to today s era **Feminist International Relations Through a Technospacial Lens** Gillian Youngs,2024-11-14 *Feminist International Relations Through a Technospacial Lens* is a rich thought provoking and wide ranging assessment of power and empowerment in the digital age Artificial intelligence AI innovations have launched a new era of policy and public engagement with the workings of digital economy and the scale of its possibilities and risks How beneficial will its data driven technological advances be across scientific medical and commercial sectors and what are the

dangers of its increasing capacities to replace human presence and interactions with convincing replications These are the kinds of big new questions societies confront Answers will need to draw on deep understanding of technospatial and technosocial dimensions of digital economy and how it has extended deepened and transformed automation as a continuing feature of earlier industrial economy transitions These are the central themes addressed in this book which presents a new analysis supported by a range of material related to more than a quarter of a century of Gillian Youngs applied research and practice on power and empowerment in the digital world The book examines the complex masculinist abstractions and structures that have framed technology as intrinsic to the momentum of change in unquestioned ways in political economy and its state and market drivers including in research policy corporate and profit driven strategies To transcend these abstractions and open up pathways for full sociotechnical interrogation of the promise and hazards of advances such as AI the author's distinctive critical approach combines insights from feminist theory and practice political economy and media and communications Contributing to advancing feminist international relations and consolidating its distinctive place in cutting edge social and political science this book will speak to scholars and students of international relations politics women's and gender studies as well as geography sociology and media and communications **The Ashgate Research**

Companion to Anthropology Andrew J. Strathern, 2016-03-03 This companion provides an indispensable overview of contemporary and classical issues in social and cultural anthropology Although anthropology has expanded greatly over time in terms of the diversity of topics in which its practitioners engage many of the broad themes and topics at the heart of anthropological thought remain perennially vital such as understanding order and change diversity and continuity and conflict and co operation in the reproduction of social life Bringing together leading scholars in the field the contributors to this volume provide us with thoughtful and fruitful ways of thinking about a number of contemporary and long standing arenas of work where both established and more recent researchers are engaged The companion begins by exploring classic topics such as Religion Rituals Language and Culture Violence and Gender This is followed by a focus on current developments within the discipline including Human Rights Globalization and Diasporas and Cosmopolitanism It provides an interesting and challenging look at the state of current thinking in anthropology serving as a rich resource for scholars and students alike

The Politics of Land Reform in Africa Doctor Ambreena Manji, 2013-07-04 Across Africa land is being commodified private ownership is replacing communal and customary tenure Farms are turned into collateral for rural credit markets Law reform is at the heart of this revolution The Politics of Land Reform in Africa casts a critical spotlight on this profound change in African land economy The book illuminates the key role of legislators legal consultants and academics in tenure reform These players exert their influence by translating the economic and regulatory interests of the World Bank civil society groups and commercial lenders in to questions of law Drawing on political economy and actor network theory The Politics of Land Reform in Africa is an indispensable contribution to the study of agrarian change in developing countries

Women's Lives and Public Policy Briavel Holcomb, Meredeth Turshen, 1993-05-30 At all levels of government from the international to the local public policies are formulated mainly by men but their impacts are felt sometimes differently by women men and children This book considers the impact of public policy on various aspects of women s lives including sex and birth marriage and death work and child rearing and women s responses to those policies Written by scholars who have lived on five continents the chapters span the First and Third Worlds with several providing case illustrations of policies affecting women in Latin America Asia and Africa Written by scholars from several disciplines the volume includes the fields of economics politics and planning Literature also is covered along with women s fiction as a source of women s opinions The work is divided into two sections The first section Economic Policies and Migration considers the impact of economic and demographic policies The second section Sex and Marriage Violence and Control considers policies relating to women s interpersonal relationships Urban culture is discussed in an epilogue Handbook of Cultural Geography Kay Anderson, 2003 Presenting a state of the art assessment of the key questions informing cultural geography in the 21st century this handbook emphasises the intellectual diversity of the discipline and is cross referenced throughout

Research Handbook on Law and Marxism O'Connell, Paul, Özsu, Umut, 2021-12-14 This Research Handbook offers unparalleled insights into the large scale resurgence of interest in Marx and Marxism in recent years with contributions devoted specifically to Marxist critiques of law rights and the state **Anarchafeminism** Chiara Bottici, 2021-11-18 How can we be sure the oppressed do not become oppressors in their turn How can we create a feminism that doesn t turn into yet another tool for oppression It has become commonplace to argue that in order to fight the subjugation of women we have to unpack the ways different forms of oppression intersect with one another class race gender sexuality disability and ecology to name only a few By arguing that there is no single factor or arche explaining the oppression of women Chiara Bottici proposes a radical anarchafeminist philosophy inspired by two major claims that there is something specific to the oppression of women and that in order to fight that we need to untangle all other forms of oppression and the anthropocentrism they inhabit Anarchism needs feminism to address the continued subordination of all femina but feminism needs anarchism if it does not want to become the privilege of a few Anarchafeminism calls for a decolonial and deimperial position and for a renewed awareness of the somatic communism connecting all different life forms on the planet In this new revolutionary vision feminism does not mean the liberation of the lucky few but liberation for all living creatures from both capitalist exploitation and an androcentric politics of domination Either all or none of us will be free Whose Science? Whose Knowledge? Sandra G. Harding, 2016-12-01 Sandra Harding here develops further the themes first addressed in her widely influential book *The Science Question in Feminism* and conducts a compelling analysis of feminist theories on the philosophical problem of how we know what we know Following a strong narrative line Harding sets out her arguments in highly readable prose In Part 1 she discusses issues that will interest anyone concerned with the social bases of scientific

knowledge In Part 2 she modifies some of her views and then pursues the many issues raised by the feminist position which holds that women's social experience provides a unique vantage point for discovering masculine bias and questioning conventional claims about nature and social life In Part 3 Harding looks at the insights that people of color male feminists lesbians and others can bring to these controversies and concludes by outlining a feminist approach to science in which these insights are central Women and men cannot understand or explain the world we live in or the real choices we have she writes as long as the sciences describe and explain the world primarily from the perspectives of the lives of the dominant groups Harding's is a richly informed radical voice that boldly confronts issues of crucial importance to the future of many academic disciplines Her book will amply reward readers looking to achieve a more fruitful understanding of the relations between feminism science and social life

Value Making in International Economic Law and Regulation Donatella

Alessandrini, 2016-01-29 This book examines the contemporary production of economic value in today's financial economies Much of the regulatory response to the global financial crisis has been based on the assumption that curbing the speculative excesses of the financial sphere is a necessary and sufficient condition for restoring a healthy economic system endowed with real values as distinct from those produced by financial markets How though can the intrinsic value of goods and services produced in the sphere of the so called real economy be disentangled from the artificial value engineered within the financial sphere Examining current projects of international legal regulation this book questions the regulation of the financial sphere insofar as its excesses are juxtaposed to some notion of economic normality Given the problem of neatly distinguishing these domains and so more generally between economy and society and production and social reproduction it considers the limits of our current conceptualization of value production and measurement with specific reference to arrangements in the areas of finance trade and labour Drawing on a range of innovative work in the social sciences and attentive to the spatial and temporal connections that make the global economy as well as the racial gender and class articulations of the social reproductive field within it it further asks what alternative arrangements might be able to affect and indeed alter the value making processes that underlie our current international regulatory framework

Communication and Capitalism Christian Fuchs, 2020-05-19 An authoritative analysis of the role of communication in contemporary capitalism and an important contribution to debates about the forms of domination and potentials for liberation in today's capitalist society Professor Michael Hardt Duke University co author of the tetralogy *Empire Commonwealth Multitude and Assembly* A comprehensive approach to understanding and transcending the deepening crisis of communicative capitalism It is a major work of synthesis and essential reading for anyone wanting to know what critical analysis is and why we need it now more than ever Professor Graham Murdock Emeritus Professor University of Loughborough and co editor of *The Handbook of Political Economy of Communications* *Communication and Capitalism* outlines foundations of a critical theory of communication Going beyond Jürgen Habermas theory of communicative action Christian Fuchs outlines a communicative materialism that is a critical

dialectical humanist approach to theorising communication in society and in capitalism The book renews Marxist Humanism as a critical theory perspective on communication and society The author theorises communication and society by engaging with the dialectic materialism society work labour technology the means of communication as means of production capitalism class the public sphere alienation ideology nationalism racism authoritarianism fascism patriarchy globalisation the new imperialism the commons love death metaphysics religion critique social and class struggles praxis and socialism Fuchs renews the engagement with the questions of what it means to be a human and a humanist today and what dangers humanity faces today
