Psychotherapy C. Leon Sims, 2013-11-14 Reflections of Spirituality in Pastoral Psychotherapy supports the pastoral and counseling practitioner's assurance that spirituality is imbedded within the human experience and may be presumed to be a positive resource for remediation and reconciliation. The work is at once autobiographical and theological. In many ways the author's approach echoes the pilgrim's path of the faithful disciple. A clear distinction is provided by which one may identify the spiritually sensitive counselor. Leon Sims sketches a treatment program but emphasizes how one may explore theoretical materials germane to a faith community to reframe approaches to clients' problems and personal pain. Although the approach is based on Christian principles, there will be suggestive resources for divergent orientations. The model for theoretical reflection is a major strength of the book.

Decisions of the Lords of Council and Session Scotland. Court of Session, Sir David Dalrymple, 1826 **The Economic, Medical/Scientific and Regulatory Aspects of Clinical Nutrition Practice: What Impacts What?** M. Elia, B. R. Bistrian, 2009-08-07 Malnutrition has been known in hospital and outpatient care for more than 30 years. It is estimated that an average of 30% of patients are affected and in the majority of cases the problem remains unrecognized and untreated. Moreover, this disease-related malnutrition increases health costs by 30-70% as recent studies have shown, exceeding even the costs of obesity. Nutrition interventions, generating in comparison only a small cost, may therefore result in substantial absolute savings. This publication gives an overview of the current state of affairs in Europe and the US, also examining the economics of malnutrition. Also discussed are reimbursement models for enteral nutrition as well as regulatory aspects and their impact on practice. The book closes with a discussion of future challenges and opportunities. Considering the extent of the problem, this publication will be of interest not only to doctors directly involved in the care of patients but also to policy makers and administrative personnel.
