Patriotism and Proletarian Internationalism Chí Minh Hồ,1979 **Patriotism and Proletarian Internationalism** Ho Chi Minh,2003-10-01 From the Foreword when this book was originally published in Hanoi in 1979 The national liberation revolution can only succeed if it accords with the world revolutionary movement and authentic patriotism in our time cannot dissociate itself from internationalism this leading idea which has inspired the Vietnamese revolution for nearly half a century was introduced into Vietnam by President Ho Chi Minh While struggling for its independence the Vietnamese people knows that millions and millions of comrades and friends are fighting by its side and that it s own sacrifices also serve the just cause of other peoples With this in mind we have collected writings and speeches of President Ho Chi Minh in the period from 1920 to 1969 In simple terms they gave a well defined orientation to the Vietnamese revolutionary movement and greatly contributed to its victory *Patriotism and Proletarian Internationalism* Ho-Chi-Minh (Pres. de República Democrática de Vietnam),1979 Nationalism and Internationalism Intertwined Pasi Ihalainen,Antero Holmila,2022-03-11 It is commonplace that the modern world is more international than at any point in human history Yet the sheer profusion of terms for describing politics beyond the nation state including international European global transnational and cosmopolitan among others is but one indication of how conceptually complex this field actually is Taking a wide view of internationalism s in Europe since the eighteenth century *Nationalism and Internationalism Intertwined* explores discourses and practices to challenge nation centered histories and trace the entanglements that arise from international cooperation A multidisciplinary group of scholars in history discourse studies and digital humanities asks how internationalism has been experienced understood constructed debated and redefined across different European political cultures as well as related to the wider world *Translations on International Communist Developments* ,1962 *Nationalism from the Left* Yannis Sygkelos,2011-01-19 *Nationalism from the Left* examines the nationalist discourse of the BCP in many domains of political life and explains the reasons why the communists resorted to nationalism in the 1940s **Marxism-Leninism and the Theory of International Relations** V. Kubalkova,A. Cruickshank,2015-10-14 Refuting the assumption that orthodox Marxist theory contains anything of relevance on international relations this book originally published in 1980 clarifies reconstructs and summarizes the theories of international relations of Marx and Engels Lenin Stalin and the Soviet leadership of the 1970s These are subjected to a comparative analysis and their relative integrity is examined both against one another and against selected Western theories Marxist Leninist models of international relations are fully explored enabling the reader to appreciate the essence and evolution of fundamental Soviet concepts as such as proletarian socialist internationalism peaceful co existence national liberation movement and détente Global Easts Jie-Hyun Lim,2022-07-05 South Korean historian Jie Hyun Lim raised under an anticommunist dictatorship turned to Marxian thought to explain his country s development even as he came to struggle with its Eurocentrism As a transnational scholar working in postcommunist Poland

Lim recognized striking similarities between Korean and Polish history and politics. One realization stood out: Both Korea and Poland at once the West for Asia yet Eastern Europe had been assigned the role of East. This book explores entangled Easts to reconsider global history from the margins. Examining the politics of history and memory, Lim reveals the affinities linking Eastern Europe and East Asia. He draws out commonalities in their experiences of modernity in their transitions from dictatorship to democracy and in the shaping of collective memory. Ranging across Poland, Germany, Israel, Japan, and Korea, Lim traces the global history of how notions of victimhood have become central to nationalism. He criticizes mass dictatorships of right and left in the Global Easts, considering Nazi jurist Carl Schmitt's notion of sovereign dictatorship and the concept of decisionist democracy. Lim argues that nationalism is inherently transnational, critiquing how the nationalist imagination of the Global East has influenced countries across borders. Theoretically sophisticated and conceptually innovative, this book sheds new light on the transnational complexity of historical memory and imagination, the boundaries between democracy and mass dictatorship, and the fluidity of East and West.

Stalinism and the Dialectics of Saturn
 Douglas Greene, 2023-03-20. This study examines the complicated legacy of Stalinism in the twentieth century. The descent of the Russian Revolution into Stalinism has given rise to an oft-accepted truism that revolutions are like Saturn and will devour their own children. For anticommunists, Stalinism is condemned as a bolt from blue, whether an insidious contagion, Big Brother, or totalitarian reason that socialism cannot escape from. On the other end, Communists and their fellow travelers have seen Stalinism as a force of historical necessity and the only way for the working class to reach a communist society. Both these twin camps accept a Dialectic of Saturn where Stalinism, whether for evil or good, is the preordained fate of all socialist revolutions. However, there is another position that views Stalinism as the product of material circumstance and class struggle. This position was represented by Leon Trotsky in his seminal work *The Revolution Betrayed*. In contrast to those who accept a mystical dialectic of Saturn, Trotsky argued that Stalinism can be rationally explained and was not an inevitable outcome of socialism.

The Soviet Concept of 'Limited Sovereignty' from Lenin to Gorbachev Robert A. Jones, 2016-07-27. The book examines the origins, development, and contemporary significance of the Soviet doctrine of limited sovereignty, Brezhnev Doctrine, with particular reference to the Doctrine's implications for the Soviet Union's relations with Eastern Europe. The author identifies and considers the multiple functions served by the Soviet Union's essentially dualistic or bi-axial approach to sovereignty, which embraces notions derived from both general international law and from Soviet Marxist-Leninist doctrine. The book also includes a comparative analysis of the US Monroe Doctrine. The author argues that although in the Gorbachev era of new thinking the Soviet doctrine of sovereignty may be developing a third axis, Western predictions of the imminent or actual demise of the Brezhnev Doctrine are premature.

Joint Publications Research Service, 1978 **From Allies to Enemies** Simei Qing, 2007-02-28 Simei Qing offers a new perspective on relations between the U S and China after World War II Based on American Russian and newly declassified Chinese sources this book reveals rarely examined assumptions entrenched in mainstream policy debates on both sides and sheds light on the origins and development of U S China confrontations **Security Implications Of Nationalism In Eastern Europe** Jeffrey Simon, Trond Gilberg, 2019-06-26 Suggesting that events in Poland during 1980 1981 represent the tip of an iceberg the contributors examine the rise of nationalism in Eastern Europe and its potential consequences for European security They analyze developing problems and trends in the region including the cooling of relations between the USSR and individual countries in Eastern Europe the continuing economic crisis changing social structures the influence of the intelligentsia and the eroding importance of ideology as a key part of Eastern Europe's political culture The second half of the book focuses on the impact of these shifts on political and military relations between the USSR and Eastern European countries and on the efficient functioning of the Warsaw Pact **Translations from Hoc Tap (studies) North Vietnam** United States. Joint Publications Research Service, 1967 *Modern China's Foreign Policy* Werner Levi, 1953-01-01 Modern China's Foreign Policy was first published in 1953 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions What are China's objectives in world affairs and what course will she pursue to achieve her goals These are the questions of vital concern to the Western democracies questions that can be approached intelligently only from a knowledge of how China's foreign policy has developed In this illuminating and carefully documented book Professor Levi analyzes China's attitudes and actions toward the rest of the world and clarifies many motivations behind her behavior past and present He traces the development of her foreign relations from the beginning of the modern era of Chinese contacts with Westerners a little more than hundred years ago The emphasis however is on the twentieth century and particularly on the years since the peace settlements of World War I The complex balance of relationships between China and the United States on the one hand and China and the Soviet Union on the other since the end of World War II is discussed in detail Communist doctrine notwithstanding its apparent rigidity is shown to be a conveniently adjustable tool capable of adaptation to the needs and strategies of present day China An integral

part of the account is the attempt to single out and interpret the internal forces cultural social and economic that have influenced and shaped China s external policies Thus it is shown that the determinants of China s foreign policy have often been pressures and complexities within the country and that and understanding of the Chinese people and their traditions is essential to nations in their dealings with China
