This book is one of the first to document the challenges and opportunities facing the Hong Kong police force following the reversion of political authority from the UK to China in 1997. Thematically organized and oriented towards those issues of greatest concern to the public such as police accountability, assaults on police, police deployment, surveillance powers, and policing across borders, it provides a detailed discussion of these and other contemporary issues. The opening chapter sets the work within historical context while the final chapter provides a comparison of policing in Hong Kong with public security in the PRC. The book will be of value to students and researchers working in the area of comparative policing and comparative criminal justice as well as police professionals and policy makers.

The Official History of Criminal Justice in England and Wales

Tim Newburn, 2024-09-12. This is the fifth and final volume in the Official History of Criminal Justice in England and Wales.

This volume covers the uneven and often irresolute evolution of policing from the late 1940s to the end of the 1990s, concentrating on the impact of a succession of scandals on the reputation and regulation of the police and the fluctuating relations between central government, local authorities, and police forces in shaping the control of police funding, policy, and organisation, particularly in response to a growth in the scale and intensity of social protest and, above all, on the shifting sands of the policing of public order illustrated in the prolonged miners' strike and urban unrest of the 1980s. It is a complement to earlier volumes in the series that focused on the liberalisation of the laws on capital punishment, abortion, and homosexual relations between adult men in the 1960s; the founding of the Crown Court in 1971 and the Crown Prosecution Service in 1985; transformations in penal policy and the politics of law and order. It will be of much interest to scholars of British political history, criminology, and sociology.
