Russell and many more America is broken You don't need a fistful of statistics to know this Visit any city and evidence of our shattered social compact will present itself From Appalachia to the Rust Belt and down to rural Texas the gap between the wealthiest and the poorest stretches to unimaginable chasms Whether the cause of this inequality is systemic injustice the entrenchment of racism in our culture the long war on drugs or immigration policies it endangers not only the American Dream but our very lives In *Tales of Two Americas* some of the literary world's most exciting writers look beyond numbers and wages to convey what it feels like to live in this divided nation Their extraordinarily powerful stories essays and poems demonstrate how boundaries break down when experiences are shared and that in sharing our stories we can help to alleviate a suffering that touches so many people

The Imprint of Another Life Margaret Homans, 2013-07-18 *The Imprint of Another Life* Adoption Narratives and Human Possibility addresses a series of questions about common beliefs about adoption Underlying these beliefs is the assumption that human qualities are innate and intrinsic an assumption often held by adoptees and their families sometimes at great emotional cost This book explores representations of adoption transracial transnational and domestic same race adoption that reimagine human possibility by questioning this assumption and conceiving of alternatives Literary scholar Margaret Homans examines fiction making's special relationship to themes of adoption as if form of family making fabricated or fictional instead of biological or real Adoption has tended to generate stories rather than uncover bedrock truths Adoptive families are made not born in the words of novelist Jeanette Winterson adopted children are self-invented because we have to be In attempting to recover their lost histories and identities adoptees create new stories about themselves While some believe that adoptees cannot be whole unless they reconnect with their origins others believe that privileging biology reaffirms hierarchies such as those of race that harm societies and individuals Adoption is lived and represented through an irresolvable tension between belief in the innate nature of human traits and belief in their constructedness contingency and changeability The book shows some of the ways in which literary creation and a concept of adoption as a form of creativity manages this tension The texts examined include fiction e.g. classic novels such as *Silas Marner* *What Maisie Knew* and *Beloved* memoirs by adoptees adoptive parents and birthmothers drama documentary films advice manuals social science writing and published interviews with adoptees parents and birth parents Along the way the book tracks the quests of adoptees who whether or not they meet their original families must construct their own stories rather than finding them follows transnational adoptees as they return hopes held high to Korea and China looks over the shoulders of a generation of girls adopted from China as they watch Disney's iconic *Mulan* with its alluring story of destiny written on the skin and listens to birthmothers as they struggle to tell painful secrets held for decades This book engages in debates within adoption studies women's and gender studies transnational studies and ethnic studies it will appeal to literary scholars and critics including specialists in memoir or narrative theory and to general readers interested in adoption and in race

century and the author of the acclaimed Rabbit series delivers the intimate generous insightful and beautifully written collection he was compiling when he died This collection of miscellaneous prose opens with a self portrait of the writer in winter a Prospero who though he fears his most dazzling performances are behind him reveals himself in every sentence to be in deep conversation with the sources of his magic It concludes with a moving meditation on a modern world robbed of imagination a world without religion without art and on the difficulties of faith in a disbelieving age In between are previously uncollected stories and poems a pageant of scenes from seventeenth century Massachusetts five late golf dreams and several of Updike s commentaries on his own work At the heart of the book are his matchless reviews of John Cheever Ann Patchett Toni Morrison William Maxwell John le Carr and essays on Aimee Semple McPherson Max Factor and Albert Einstein among others Also included are two decades of art criticism on Chardin El Greco Blake Turner Van Gogh Max Ernest and more Updike s criticism is gossip of the highest order delivered in an intimate and generous voice

The Time Regulation Institute Ahmet Hamdi Tanpinar,2014-01-07 A literary discovery an uproarious tragicomedy of modernization in its first ever English translation Perhaps the greatest Turkish novel of the twentieth century being discovered around the world only now more than fifty years after its first publication The Time Regulation Institute is an antic freewheeling send up of the modern bureaucratic state At its center is Hayri Irdal an infectiously charming antihero who becomes entangled with an eccentric cast of characters a television mystic a pharmacist who dabbles in alchemy a dignitary from the lost Ottoman Empire a clock whisperer at the Time Regulation Institute a vast organization that employs a hilariously intricate system of fines for the purpose of changing all the clocks in Turkey to Western time Recounted in sessions with his psychoanalyst the story of Hayri Irdal s absurdist misadventures plays out as a brilliant allegory of the collision of tradition and modernity of East and West infused with a poignant blend of hope for the promise of the future and nostalgia for a simpler time For more than seventy years Penguin has been the leading publisher of classic literature in the English speaking world With more than 1 700 titles Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators
