**Clientelism, Interests, and Democratic Representation** Simona Piattoni, 2001-09-10 This book charts the evolution of clientelist practices in several western European countries Through the historical and comparative analysis of countries as diverse as Sweden and Greece England and Spain France and Italy Iceland and the Netherlands the authors study both the supply side and the demand side of clientelism This approach contends that clientelism is a particular mix of particularism and universalism in which interests are aggregated at the level of the individual and his family particularism but in which all interests can potentially find expression and accommodation in universalism *The Rise and Fall of Community Studies*

Robert Parkin, 2025-09-01 Since its inception about a century ago the anthropology of Europe has transitioned from studies of settled communities shaped by fieldwork traditions elsewhere to a focus on more mobile and virtual communities This book provides a partial retrospective on the field offering a rich collection of ethnographic summaries from across the continent It will be of interest to students and academics seeking a survey of this branch of anthropology whether for private study or university courses *Agents or Bosses?* Özge Kemahlioğlu, 2012-12-01 Clientelism in public employment the

practice of offering jobs in return for political favours to a party or politician is a problem from the perspectives of equality democratic accountability and economic efficiency Focusing on intra party competition this book presents an original explanation of why some politicians and parties engage more extensively in such practices than others Examining Argentina and Turkey in a period of economic restructuring the author argues that patronage jobs are distributed hierarchically to the politicians circle within the party Consequently the distribution of patronage is affected by competition for party leadership Analysis of original statistical and case study data at the sub national level confirms that clientelistic practices are influenced by party characteristics Kemahlioğlu's research reveals a surprising and counter intuitive conclusion that when party support is crucial to politicians career progression and the leadership of the party is openly contested the proliferation of clientelism is contained and controlled *The Global Encyclopaedia of Informality, Volume 2* Alena Ledeneva, 2018-01-17 Alena

Ledeneva invites you on a voyage of discovery to explore society's open secrets unwritten rules and know how practices Broadly defined as ways of getting things done these invisible yet powerful informal practices tend to escape articulation in official discourse They include emotion driven exchanges of gifts or favours and tributes for services interest driven know how from informal welfare to informal employment and entrepreneurship identity driven practices of solidarity and power driven forms of co optation and control The paradox or not of the invisibility of these informal practices is their ubiquity Expertly practised by insiders but often hidden from outsiders informal practices are as this book shows deeply rooted all over the world yet underestimated in policy Entries from the five continents presented in this volume are samples of the truly global and ever growing collection made possible by a remarkable collaboration of over 200 scholars across disciplines and area studies By mapping the grey zones blurred boundaries types of ambivalence and contexts of complexity this book

creates the first Global Map of Informality The accompanying database [www.informality.com](http://www.informality.com) is searchable by region keyword or type of practice so do explore what works how where and why Praise for Global Encyclopaedia of Informality The Global Informality Project unveils new ways of understanding how the state functions and ways in which civil servants and citizens adapt themselves to different local contexts by highlighting the diversity of the relationships between state and society The project is of great interest to policymakers who want to imagine solutions that are beneficial for all but sufficiently pragmatic to ensure a seamless implementation particularly in the field of cross border trade in developing countries Kunio Mikuriya Secretary General of the World Customs Organisation Brussels An extremely interesting and stimulating collection of papers Ledeneva's challenging ideas first applied in the context of Russia's economy of shortage came to full blossom and are here contextualized by practices from other countries and contemporary systems Many original and relevant practices were recognized empirically in socialist countries but this book shows their generality János Kornai Allie S Freed Professor of Economics Emeritus at Harvard and Professor Emeritus at Corvinus University of Budapest Alena Ledeneva's Global Encyclopedia of Informality is a unique contribution providing a global atlas of informal practices through the contributions of over 200 scholars across the world It is far more rewarding for the reader to discover how commonalities of informal behavior become apparent through this rich texture like a complex and hidden pattern behind local colors than to presume top down universal benchmarks of good versus bad behavior This book is a plea against reductionist approaches of mathematics in social science in general and corruption studies in particular and makes a great read as well as an indispensable guide to understand the cultural richness of the world Alina Mungiu Pippidi Professor of Democracy Studies Hertie School of Governance Berlin Transformative scholarship in method object and consequence Ledeneva and her networked expertise not only enable us to view the informal comparatively but challenge conventionally legible accounts of membership markets domination and resistance with these rich accounts from five continents This project offers nothing less than a social scientific revolution if the broader scholarly community has the imagination to follow through And by globalizing these informal knowledges typically hidden from view the volumes contributors will extend the imaginations of those business consultants movement mobilizers and peace makers who can appreciate the value of translation from other world regions in their own work Michael D Kennedy Professor of Sociology and International and Public Affairs Brown University and author of *Globalizing Knowledge* Don't mistake these weighty volumes for anything directory like or anonymous This wonderful collection of short essays penned by many of the single best experts in their fields puts the reader squarely in the kinds of conversations culled only after years of friendship trust and with the keen eye of the practiced observer Perhaps most importantly the remarkably wide range of offerings lets us deparochialise corruption and detach it from the usual hyper local and cultural explanations The reader in the end is the one invited to consider the many and striking commonalities Bruce Grant Professor at New York University and Chair of the US National Council for East

European and Eurasian Research      *War, Massacre, and Recovery in Central Italy, 1943-1948* Victoria Belco, 2010-01-01  
The Second World War wreaked unprecedented devastation throughout Europe necessitating monumental reconstruction efforts that burdened not only governments but the lives of ordinary citizens *War Massacre and Recovery in Central Italy 1943 1948* examines this transitional period in the province of Arezzo by detailing the daily experiences of civilians through the traumas of war and the difficulties of recovery Studying the aftermath of war in a new and insightful way Victoria C Belco shifts the perspective from the national to the local level With this localized focus she provides valuable insight into the ways in which civilians coped with an overwhelming range of problems from adjusting to Allied occupation and widespread displacement to rampant unemployment and the restructuring of local administrations and institutions after fascism Recreating the post war atmosphere of disorder need and political upheaval Belco shows how the competing community interests caused social fragmentations that impeded change while the unity of a shared past prevented civil war

**Neo-nationalism in Europe and Beyond** André Gingrich, Marcus Banks, 2006 Prompted by the near simultaneous rise to political influence of more than a dozen apparently similar parties across Western Europe this collection offers a range of European case studies with selected global examples such as the Front National the late Pim Fortuyn and India and the BJP

*The Griqua Conundrum* Linda Waldman, 2007 This book offers a reconceptualisation of indigenous people and their political involvement It demonstrates the deep intertwining of constructions of indigeness and identity with national social and political histories and argues that differences and fractures within the indigenous movement between leaders spokespeople and ordinary men and women shape the nature of indigenous politics both nationally and internationally South Africa's resident population of Griqua provide the context for this exploration of indigenous mobilisation politics and ethnic identity The Griqua people have long sought and only recently acquired official recognition within their country of birth Using qualitative research methodologies and an anthropological approach this book documents negotiation between Griqua leaders organisers and government officials and in so doing details a complex process of mediation and interaction generally overlooked in the discourse of indigenous identity This exploration of identity is essential to understanding post apartheid South African history politics and society In addressing the marginalisation of Griqua followers and examining the meaning of being Griqua for those quieter poorer people who live in the small town of Griquatown and who are relatively isolated from the Indigenous People's Forum and the United Nations the book also examines the hidden dimensions of political and indigenous mobilisation

**Italy Since 1800** Roger Absalom, 2014-09-11 Since unification Italy has grown from a backward agrarian society into one of the world's leading industrial powers Yet her history exhibits spectacular disunities inconsistencies and paradoxes Dominated by political Catholicism she has also been home to Fascism the mafia and the largest Communist movement outside the Eastern Bloc Her politics are notoriously fissiparous yet policy itself never changes Until now This timely absorbing and richly illustrated account of the historical development of the Italian nation state traces

the main paradoxes of what Italy has been and questions what she may become      **Transitions: Methods, Theory, Politics** Tom Brass, 2022-08-22 The focus of this volume is on political discourse about the pattern and desirability of economic development and how why historical interpretations of social phenomena connected to this systemic process alter It is a trajectory pursued here with reference to the materialism of Marxism via the mid nineteenth century ideas about race through the development decade the cultural turn debates about modes of production and their respective labour regimes culminating in the role played by immigration before and after the Brexit referendum Also examined is the trajectory followed by travel writing and how many of its core assumptions overlap with those made in the social sciences and development studies The object is to account for the way concepts informing these trajectories do or do not alter

**Raccomandazione** Dorothy Louise Zinn, 2019-03-27 The issue of patronage clientelism has long been of interest in the social sciences Based on long term ethnographic research in southern Italy this book examines the concept and practice of raccomandazione the omnipresent social institution of using connections to get things done Viewing the practice both from an indigenous perspective as a morally ambivalent social fact and considering it in light of the power relations that position southern Italy within the nesting relations of global Norths and Souths it builds on and extends past scholarship to consider the nature of patronage in a contemporary society and its relationship to corruption      Landownership & Power Mod Eur

Martin Blinkhorn, Ralph Gibson, 2002-06 First Published in 1991 Routledge is an imprint of Taylor Francis an informa company      The Bounded Field Jaro Stacul, 2018-01-15 Regionalism is one of the most debated issues in contemporary western Europe Yet why the region rather than the nation state can have such a strong appeal for the construction of social and political identity remains largely unexplored Drawing on data collected in the mountainous Trentino region of northern Italy the author investigates how ideas about village boundaries and private property form the background against which regionalist ideologies are understood In suggesting that ideas about regionalism largely reflect views about private property he provides an alternative to theories of nationalism that overlook the articulation between official ideologies and discourses at the local level

**Italian Immigrant Radical Culture** Marcella Bencivenni, 2014-02 Maligned by modern media and often stereotyped Italian Americans possess a vibrant if largely forgotten radical past In Italian Immigrant Radical Culture Marcella Bencivenni delves into the history of the sovversivi a transnational generation of social rebels and offers a fascinating portrait of their political struggle as well as their milieu beliefs and artistic creativity in the United States As early as 1882 the sovversivi founded a socialist club in Brooklyn Radical organizations then multiplied and spread across the country from large urban cities to smaller industrial mining areas By 1900 thirty official Italian sections of the Socialist Party along the East Coast and countless independent anarchist and revolutionary circles sprang up throughout the nation Forming their own alternative press institutions and working class organizations these groups created a vigorous movement and counterculture that constituted a significant part of the American Left until World War II Italian Immigrant Radical Culture

compellingly documents the wide spectrum of this oppositional culture and examines the many cultural and artistic forms it took from newspapers to literature and poetry to theater and visual art As the first cultural history of Italian American activism it provides a richer understanding of the Italian immigrant experience while also deepening historical perceptions of radical politics and culture See the official website of the book at <http://www.marcellabencivenni.com>      **Land, Politics and Power in a Southern Italian Community** Nevill Colclough,1992      **Out of Time** Nicholas Thomas,1996 A lucid theoretical reflection on the intersection of anthropology and history      *Localism and Centralism in Europe* Edward Page,1991 Why do some countries appear to be far more centralized than others This book examines the legal and political bases of relationships between national and local government in Britain France Norway Denmark Sweden Italy and Spain
