Proceedings, 2001 **Pattern Recognition** Luc Van Gool, 2002-09-02 We are proud to present the DAGM 2002 proceedings which are the result of the efforts of many people First there are the many authors who have submitted so many excellent contributions We received more than 140 papers of which we could only accept about half in order not to overload the program Only about one in seven submitted papers could be delivered as an oral presentation for the same reason But it needs to be said that almost all submissions were of a really high quality This strong program could not have been put together without the support of the Program Committee They took their responsibility most seriously and we are very grateful for their reviewing work which certainly took more time than anticipated given the larger than usual number of submissions Our three invited speakers added a strong multidisciplinary component to the conference Dr Antonio Criminisi of Microsoft Research Redmond USA demonstrated how computer vision can literally bring a new dimension to the appreciation of art Prof Philippe Schyns Dept of Psychology Univ of Glasgow UK presented intriguing insights into the human perception of patterns e.g. the role of scale Complementary to this presentation Prof Manabu Tanifuji of the Brain Science Institute in Japan Riken discussed novel neurophysiological findings on how the brain deals with the recognition of objects and their parts *Pattern Recognition* Bernd Michaelis, Gerard Krell, 2014-03-12 *Pattern Recognition* Katrin Franke, Klaus-Robert Müller, Bertram Nickolay, Ralf Schäfer, 2009-09-02 This book constitutes the refereed proceedings of the 28th Symposium of the German Association for Pattern Recognition DAGM 2006 The book presents 32 revised full papers and 44 revised poster papers together with 5 invited papers Topical sections include image filtering restoration and segmentation shape analysis and representation recognition categorization and detection computer vision and image retrieval machine learning and statistical data analysis biomedical data analysis and more Proceedings of the 17th International Conference on Pattern Recognition : August 23 - 29, 2004, Cambridge, UK. 1 International Conference on Pattern Recognition, 2004
