Annotated Archive of Diffusion References William D. Crano, Suellen Ludwig, Gary W. Selnow, 1981 *The Ojibwa of Western Canada 1780-1870* Laura Peers, 2009-09-08 Among the most dynamic Aboriginal peoples in western Canada today are the Ojibwa who have played an especially vital role in the development of an Aboriginal political voice at both levels of government Yet they are relative newcomers to the region occupying the parkland and prairies only since the end of the 18th century This work traces the origins of the western Ojibwa their adaptations to the West and the ways in which they have coped with the many challenges they faced in the first century of their history in that region between 1780 and 1870 The western Ojibwa are descendants of Ojibwa who migrated from around the Great Lakes in the late 18th century This was an era of dramatic change Between 1780 and 1870 they survived waves of epidemic disease the rise and decline of the fur trade the depletion of game the founding of non Native settlement the loss of tribal lands and the government s assertion of political control over them As a people who emerged adapted and survived in a climate of change the western Ojibwa demonstrate both the effects of historic forces that acted upon Native peoples and the spirit determination and adaptive strategies that the Native people have used to cope with those forces This study examines the emergence of the western Ojibwa within this context seeing both the cultural changes that they chose to make and the continuity within their culture as responses to historical pressures The Ojibwa of Western Canada differs from earlier works by focussing closely on the details

of western Ojibwa history in the crucial century of their emergence It is based on documents to which pioneering scholars did not have access including fur traders and missionaries journals letters and reminiscences Ethnographic and archaeological data and the evidence of material culture and photographic and art images are also examined in this well researched and clearly written history

Speaking for the Enslaved Antoinette T Jackson,2016-06-16 Focusing on the agency of enslaved Africans and their descendants in the South this work argues for the systematic unveiling and recovery of subjugated knowledge histories and cultural practices of those traditionally silenced and overlooked by national heritage projects and national public memories Jackson uses both ethnographic and ethnohistorical data to show the various ways African Americans actively created and maintained their own heritage and cultural formations Viewed through the lens of four distinctive plantation sites including the one on which that the ancestors of First Lady Michelle Obama lived everyday acts of living learning and surviving profoundly challenge the way American heritage has been constructed and represented A fascinating critical view of the ways culture history social policy and identity influence heritage sites and the business of heritage research management in public spaces

When Worlds Collide T. Max Friesen,2013-05-16 Interactions between societies are among the most powerful forces in human history However because they are difficult to reconstruct from archaeological data they have often been overlooked and understudied by archaeologists This is particularly true for hunter gatherer societies which are frequently seen as adapting to local conditions rather than developing in the context of large scale networks When Worlds Collide presents a new model for discerning interaction networks based on the archaeological record and then applies the model to long term change in an Arctic society Max Friesen has adapted and expanded world system theory in order to develop a model that explains how hunter gatherer interaction networks or world systems are structured and why they change He has utilized this model to better understand the development of Inuvialuit society in the western Canadian Arctic over a 500 year span from the pre contact period to the early twentieth century As Friesen combines local archaeological data with more extensive ethnographic and archaeological evidence from the surrounding region a picture emerges of a dynamic Inuvialuit world system characterized by bounded territories trade warfare and other forms of interaction This world system gradually intensified as the impacts of Euroamerican colonial activities increased This intensification Friesen suggests was based on pre existing Inuvialuit social and economic structures rather than on patterns imposed from outside Ultimately this intense interacting network collapsed near the end of the nineteenth century When Worlds Collide offers a new way to comprehend small scale world systems from the point of view of indigenous people Its approach will prove valuable for understanding hunter gatherer societies around the globe

Darfur Allegory Rogaia Mustafa Abusaraf,2021-03-16 The Darfur conflict exploded in early 2003 when two rebel groups the Sudan Liberation Movement and the Justice and Equality Movement struck national military installations in Darfur to send a hard hitting message of resentment over the region s political and economic marginalization The conflict devastated the region s economy shredded its fragile social fabric and drove millions of people from their homes Darfur Allegory is a dispatch from the humanitarian crisis that explains the historical and ethnographic background to competing narratives that have informed international responses At the heart of the book is Sudanese anthropologist Rogaia Abusharaf s critique of the pseudoscientific notions of race and ethnicity that posit divisions between Arab northerners and African Darfuris Elaborated in colonial times and enshrined in policy afterwards such binary categories have been adopted by the media to explain the civil war in Darfur The narratives that circulate internationally are thus highly fraught and cover over to counterproductive effect forms of Darfurian activism that have emerged in the conflict s wake Darfur Allegory marries the analytical precision of a committed anthropologist with an insider s view of Sudanese politics at home and in the diaspora laying bare the power of words to heal or perpetuate civil conflict

Beyond the Green Myth Peter G. Sercombe,Bernard Sellato,2008-03-18 Borneo with its tales of White Rajahs and tribes of headhunters has long excited the Western imagination Today however there is another green imagination at work Mention of the island is more likely to evoke images of tropical deforestation and concern about the cruel dispossession and displacement of indigenous peoples who once lived in relative harmony with their environment It is perhaps not suprizing then that most books dealing with the nomadic hunter gatherers of Borneo have principally been pictorial studies There is indeed a dearth of scholarship regarding these peoples a situation that this first ever comprehensive review of nomadic groups in the Borneo rain forest aims to rectify Presenting a wealth of new research contributed by an international team of scholars the volume covers all of those parts of Borneo where nomads called Penan Punan or by various other names are or were known to exist and provides a comparative historical ecological study of these

groups The study is primarily concerned with issues of modernization including the monetary economy formalized institutions centralized power structures contractual relationships and extraction activities and development policies The impact of these policies is analyzed with special regard to the natural environment inhabited by these small scale societies as well as the use of its resources The book has no stiff theoretical orientation but informs ongoing debates about changing forms of ethnicity relations between minorities and the state minorities rights and survival native discourse the sustainability of tropical forest use and the neo romantic environmentalist myth of so called wise traditional peoples Three Roads to Magdalena David Wallace Adams,2016-06-03 Someday Candelaria Garcia said to the author you will get all the stories It was a tall order in Magdalena New Mexico a once booming frontier town where Navajo Anglo and Hispanic people have lived in shifting sometimes separate sometimes overlapping worlds for well over a hundred years But these were the stories and this was the world that David Wallace Adams set out to map in a work that would capture the intimate complex history of growing up in a Southwest borderland At the intersection of memory myth and history his book asks what it was like to be a child in a land of ethnic and cultural boundaries The answer as close to all the stories as one might hope to get captures the diverse ever changing experience of a Southwest community defined by cultural borders and the nature and role of children in defending and crossing those borders In this book we listen to the voices of elders who knew Magdalena nearly a century ago and the voices of a younger generation who negotiated the community s shifting boundaries Their stories take us to sheep and cattle ranches Navajo ceremonies Hispanic fiestas mining camps First Communion classes ranch house dances Indian boarding school drill fields high school social activities and children s rodeos Here we learn how class religion language and race influenced the creation of distinct identities and ethnic boundaries but also provided opportunities for cross cultural interactions and intimacies And we see the critical importance of education in both reinforcing differences and opening a shared space for those differences to be experienced and bridged In this Adams s work offers a close up view of the transformation of one multicultural community but also of the transformation of childhood itself over the course of the twentieth century A unique blend of oral social and childhood history Three Roads to Magdalena is a rare living document of conflict and accommodation across ethnic boundaries in our ever evolving multicultural society Published in Cooperation with the William P Clements Center for Southwest Studies Southern Methodist University *Dragon Gate* Kangmin Zeng,1999-01-01 This text examines the enormous pressure placed on University students in Japan Korea and Taiwan which have led to the rapid expansion of the cramming industry and to a growing number of students looking to religion and spirituality for guidance The book examines the issue of the rise in youth suicides and the dramatic rise in levels of cheating both raising fundamental questions about the education system in the late 1990s
