Stinchcombe,2020-07-08 Arthur L Stinchcombe has earned a reputation as a leading practitioner of methodology in sociology and related disciplines Throughout his distinguished career he has championed the idea that to be an effective sociologist one must use many methods This incisive work introduces students to the logic of those methods The Logic of Social Research orients students to a set of logical problems that all methods must address to study social causation Almost all sociological theory asserts that some social conditions produce other social conditions but the theoretical links between causes and effects are not easily supported by observation Observations cannot directly show causation but they can reject or support causal theories with different degrees of credibility As a result sociologists have created four main types of methods that Stinchcombe terms quantitative historical ethnographic and experimental to support their theories Each method has value and each has its uses for different research purposes Accessible and astute The Logic of Social Research offers an image of what sociology is what it s all about and what the craft of the sociologist consists of **Monographic Series** Library of Congress, *The Frequency of Contact Between Parents and Their Adult Children* Carol Lynn Roan,1994 *Library of Congress Catalogs* Library of Congress,1976

noting how family habits and interactions affect school success and what characteristics of family life provide children with school survival skills a complex of behaviors attitudes and knowledge that are the essential elements in academic success Clark s conclusions lead to exciting implications for educational policy If school achievement is not dependent on family structure or income parents can learn to inculcate school survival skills in their children Clark offers specific suggestions and strategies for use by teachers parents school administrators and social service policy makers but his work will also find an audience in urban anthropology family studies and Black studies *Why Honor Thy Father and Mother?* Stephen Stanley Kulis,1991 A London Bibliography of the Social Sciences British Library of Political and Economic Science,1979 Vols 1 4 include material to June 1 1929 **Acculturation** Amado M Padilla,1980 Research in Education ,1973 Resources in Education ,1973-05
