Preston,I.T. Elo,Mark E. Hill,Ira Rosenwaike,2013-04-17 African Americans constitute one of the most interesting and dynamic components of the population of the United States Unfortunately an accurate assessment of their demographic characteristics is beset by inaccuracies in the underlying data Using a novel strategy that combines record linkage and demographic statistical analysis the authors

produce an internally consistent and robust set of estimates of the African American population during the period 1930 1990 They interpret the record that emerges with special reference to longevity trends and differentials This work is of particular interest to demographers sociologists and students of ethnic studies Intra-Asian Trade and the World Market A.J.H. Latham,Heita Kawakatsu,2006-04-18 Intra Asian trade is a major theme of recent writing on Asian economic history From the second half of the nineteenth century intra Asian trade flows linked Asia into an integrated economic system with reciprocal benefits for all participants But although this was a network from which all gained there was also considerable inter Asian competition between Asian producers for these Asian markets and those of the wider world This collection presents captivating snap shots of trade in specific commodities alongside chapters comprehensively covering the region The book covers China s relative backwardness Japanese copper exports Japan s fur trade Siam s luxury rice trade Korea Japanese shipbuilding the silk trade the refined sugar trade competition in the rice trade the Japanese cotton textile trade to Africa multilateral settlements in Asia the cotton textile trade to Britain and the growth of the palm oil industry in Malaysia and Indonesia The opening of Asia especially in Japan and China liberated the creative forces of the market within the new intra Asian economy Filling a particular gap in the literature on intra Asian trade prior to the twentieth century this is an insightful study that makes a considerable contribution to our knowledge of the Asian trade both prior to and after the arrival of colonial states It will be of great interest to historians and economists focusing on Asia **Landownership Under Colonial Rule** Edwin H. Gragert,1994-01-01 The rapid economic changes in post World War II Korea are often described as miraculous Indeed the country is frequently posited as a model for other countries to emulate Yet few social or economic historians have seriously examined the roots of these dramatic changes Edwin Gragert in this analysis of landownership patterns during the final years of the Yi dynasty contends that economic changes relevant to Korea s current prosperity long predate the postwar Period indeed factors influencing these changes were in place even prior to the twentieth century A landmark in the study of socioeconomic change in modern Korea Landownership under Colonial Rule stands firm in its revision of the nationalist thesis about Japanese land expropriation during the colonial period The meticulous research offers the most detailed and complex view of the late Choson and colonial landholding system available in English It reveals striking new evidence that acquisition came at a much later date the result of market forces during the worldwide depression years Despite having a policy of massive settlement of Japanese citizens and plans for economic exploitation and transformation of the Korean peninsula Imperial Japan was frustrated by social economic and political forces already at work in Korea Dr Gragert opens new approaches to research on the colonial period and provides a fresh perspective on modern Korean and Japanese history Age And Inequality Angela O'rand,2018-03-09 In the United States older populations exhibit the highest levels of economic inequality of all age groups Across all advanced societies the inequalities observed in older populations stem from structural and individual processes that differentiate the life courses of women and men and yield distinctive

patterns of economic inequality in adulthood and old age Patterns of Provocation Richard Bessel, Clive Emsley, 2000
Seven studies that emerged from discussions and seminars at the European Centre for the Study of Policing at the Open University. Social scientists and other scholars, most from Britain but also elsewhere in Europe and the US, probe in depth a number of incidents of public disorder, focusing on the role of the police. They identify general patterns of police provocation and public responses and suggest general hypotheses. The cases range across Europe and the US and the interwar and postwar years, though the recent protests against global organizations are not among them. Annotation copyrighted by Book News Inc. Museum of Art, 2006 **Scottish Ethnicity and the Making of New Zealand Society, 1850-1930** Tanja Buelmann, 2011-07-07
The Scots accounted for around a quarter of all UK-born immigrants to New Zealand between 1861 and 1945 but have only been accorded scant attention in New Zealand histories, specialist immigration histories, and Scottish Diaspora Studies. This is peculiar because the flow of Scots to New Zealand, although relatively unimportant to Scotland, constituted a sizable element to the country's much smaller population. Seen as adaptable, integrating relatively more quickly than other ethnic migrant groups in New Zealand, the Scots' presence was obscured by a fixation on the romanticised shortbread tin facade of Scottish identity overseas. Uncovering Scottish ethnicity from the verges of nostalgia, this study documents the notable imprint Scots left on New Zealand. It examines Scottish immigrant community life, culture, and identity between 1850 and 1930 **Captivating Glass: Unveiling the Colors and Patterns of Depression Glassware** Pasquale De Marco, 2025-04-07
