Generic Enrichment in Plutarch's Lives Chrysanthos S. Chrysanthou, Timothy E. Duff, 2024-11-29 This volume addresses the important literary phenomenon of generic enrichment in Plutarch's *Parallel Lives*. It examines the ways in which features of other genres are deployed and incorporated in Plutarch's biographies and the effects of this on the texts themselves and readers' responses to them. Generic enrichment, a term coined by Stephen Harrison with reference to Latin poetry, is used here to refer to the different ways in which a text of one genre might incorporate or evoke features of other genres. The fact that particular Plutarchan biographies may contain not only allusions to specific texts from a variety of genres but also features such as vocabulary, phraseology, and plot forms which evoke other genres has been noticed sporadically by scholars. However, this is the first volume to discuss this feature as a distinct phenomenon across the corpus of *Parallel Lives* and to attempt an assessment of its effect. Chapters cover the interaction of Plutarchan biography with a series of genres including archaic poetry, comedy, tragedy, historiography, philosophy, geographical and scientific texts, oratory, inscriptions, novelistic writing, and periegetical works. Together, these studies demonstrate the generic complexity and richness of Plutarch's *Lives*, enhance our understanding of ancient biography in general and Plutarchan biography in particular, and explore the range of effects such generic enrichment might have on readers. *Generic Enrichment in Plutarch's Lives* is of interest to students and scholars of Plutarch and ancient biography as well as to those working in other periods and genres of both Latin and Greek literature and to those beyond the field of Classical Studies who are interested in questions of genre and literary theory.

*Memory and History* Joan Tumblety, 2013-07-15 How does the historian approach memory and how do historians use different sources to analyze how history and memory interact and impact on each other? *Memory and History* explores the different aspects of the study of this field. Taking examples from Europe, Australia, the USA, and Japan and treating periods beyond living memory as well as the recent past, the volume highlights the contours of the current vogue for memory among historians while demonstrating the diversity and imagination of the field. Each chapter looks at a set of key historical and historiographical questions through research-based case studies. How does engaging with memory as either source or subject

help to illuminate the past What are the theoretical ethical and or methodological challenges that are encountered by historians engaging with memory in this way and how might they be managed How can the reading of a particular set of sources illuminate both of these questions The chapters cover a diverse range of approaches and subjects including oral history memorialization and commemoration visual cultures and photography autobiographical fiction material culture ethnic relations the individual and collective memories of war veterans The chapters collectively address a wide range of primary source material beyond oral testimony photography monuments memoir and autobiographical writing fiction art and woodcuttings everyday and exotic cultural artefacts journalism political polemic the law and witness testimony This book will be essential reading for students of history and memory providing an accessible guide to the historical study of memory through a focus on varied source materials      **Interactive Storytelling** Mirjam Vosmeer,Lissa
