**Preparing a Nation?** Brad Underhill,2024-08-22 Preparing a Nation based on extensive archival research addresses perennial questions of Australian colonialism in Papua New Guinea To what extent did Australia prepare Papua New Guinea for independence And what were the policies and the ideologies behind colonial development implemented after World War II

A key innovation of this book is to take these questions from policy desks in Canberra and Port Moresby to the villages of four administrative areas Chimbu Milne Bay Sepik and New Hanover How successful were Australian colonial planners in designing and implementing programs that could ameliorate the potential harm of market capitalism and develop new socioeconomic structures that would combine a disparate people into an imagined community capable of becoming an independent nation state in the far distant future Colonial intention is contrasted with Indigenous experience Bradley Underhill explores an Australian governmental tendency to prioritise colonial control over Indigenous autonomy in circumstances where subjugated people do not necessarily fit within an expected narrative of compliant or westernised native I expect it will become the standard reference for its subject which covers a pivotal aspect of Australia's colonial administration Bill Gammage **APAIS 1992: Australian public affairs information service , Ministers,**

regions to its north Development was central to the Australian colonial administration of PNG as well as its Colombo Plan aid in Asia In addition to examining Australia s perception of international development this book also demonstrates how these debates and policies informed Australia s understanding of its own development This manifested itself most clearly in Australia s behavior at the 1964 United Nations Conference on Trade and Development UNCTAD The book concludes with a discussion of development and Australian foreign aid in the decade leading up to Papua New Guinea s independence achieved in 1975

**International Law in Public Debate** Madelaine Chiam,2021-12-09 Public debates in the language of international law have occurred across the 20th and 21st centuries and have produced a popular form of international law that matters for international practice This book analyses the people who used international law and how they used it in debates over Australia s participation in the 2003 Iraq War the Vietnam War and the First World War It examines texts such as newspapers parliamentary debates public protests and other expressions of public opinion It argues that these interventions produced a form of international law that shares a vocabulary and grammar with the expert forms of that

language and distinct competences in order to be persuasive This longer history also illustrates a move from the use of international legal language as part of collective justifications to the use of international law as an autonomous justification for state action

**Handbook of Autobiography / Autofiction** Martina Wagner-Egelhaaf, 2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e.g. the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc. can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self-portraits and autofiction as well as media transformations of the genre this three-volume handbook offers a comprehensive survey of theoretical approaches systematic

aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers

**Evatt** John Murphy, 2016-09-01 John Murphy s Evatt A life is a biography of Australian parliamentarian and jurist HV Evatt Remembered as the first foreign minister to argue for an independent Australian policy in the 1940s and for his central role in the formation of the UN Evatt went on to be the leader of the Labor party in the 1950s the time of the split that resulted in the party being out of power for a generation Evatt traces the course of Evatt s life and places him in the context of a long period of conservatism in Australia It treats Evatt s inner personal life as being just as important as his spectacular controversial and eventual tragic public career Murphy looks closely at Evatt s previously unexamined private life and unravels some of the puzzles that have lead Evatt to be considered erratic even mad Bert Evatt remains a polarising figure still considered by many in Labor as the man who split the party and by many conservatives as unreliable and dangerous

Aborigines & Activism Jennifer Clark, 2008 In a provocative reappraisal of the 1960s Aborigines Activism recontextualises the history of Aboriginal activism within wider international movements Concurrent to anti war protests women s movements burgeoning civil rights activism in the United States and the struggles of South Africa s anti apartheid freedom righters dramatic political changes took place in assimilated Australia that challenged its status quo From the early days of grassroots resistance through to Charles Perkins 1965 Freedom Ride the 1967 Referendum Canberra s Tent Embassy and beyond this is the story of the Great Southern Land s racial awakening a time when Aborigines and their white supporters achieved paradigmatic shifts in the search for equality justice and human dignity that still has powerful implications for 21st century Australia This is an engaging study of the stories of racial awakening in Australia that marked the coming of the wind of change Through rigorous research the author shows how supporters of Indigenous Australians and their struggles for equality pushed Australia into the 60s literally and figuratively The book also puts the Australian experience of the 60s into an international perspective portrayed as unique but not in isolation

*Political Lives* Judith Brett, 1997-08-01 Politicians lives are public lives The decisions they make and do not make and the way they behave affect us all and shape our lives To what extent do the inner lives of our leaders influence their performance Should we know about the inner person Indeed how can we know The eight essays in this collection explore these questions and present some disturbing answers by scrutinising the character of

leaders as varied as Keating Menzies Hawke Whitlam Hasluck Fraser Calwell and Soeharto Political Lives is an intriguing venture into the shadowy world of motives and values and the inner past that shaped these leaders

**The Queen's Other Realms** Peter John Boyce, 2008 Canada Australia and New Zealand inherited and adapted a monarchical framework of government even in the absence of a resident monarch Although steady transfer of the royal prerogative to a popularly elected executive has enabled these three former dominions to be sometimes described as crowned republics or disguised republics there was no popular drive to abandon monarchy until the 1990s and even then the republican cause was based largely on issues of symbolism and national identity than on perceived core weaknesses in the political system This book traces the long and sometimes subtle process of localising monarchy in the vice regal office from the mid twentieth century onwards and compares the powers and functions of the Queen's surrogates with each other and with those of the monarch herself including their recourse to the so called reserve powers Among the key questions posed in this comparative study are Can the current monarchical system be refined to the point of countering republican sentiment Why has the republican argument gained more momentum in Australia than in Canada or New Zealand Can a republican model retain residual monarchic elements What is likely to be the lasting legacy of the Crown in these three strikingly similar political cultures The author's underlying loyalties are neither firmly monarchist nor firmly republican He is convinced however that the combined effects of a strong sense of national identity and an increasingly presidential style of political leadership within these three Westminster derived systems make it difficult for contemporary governors general or their state and provincial colleagues to fulfil two of their key roles to unite and inspire the people on the one hand and to be a credible constitutional watchdog on the other
