The Making of Paul Klee's Career, 1914-1920 Otto Karl Werckmeister, 1989-07-10 Paul Klee one of the preeminent artists of the twentieth century was associated with all of the major movements of the first half of the century expressionism cubism surrealism and abstraction In this economic and political history O. K. Werckmeister traces Klee's career as a professional artist concentrating on the years 1914-20 in which Klee rose from obscurity to recognition in the visual culture

of the incipient Weimar Republic Werckmeister reveals the degree to which Klee who has been traditionally portrayed as aloof from politics and the vicissitudes of the art market was subject to and interacted with material conditions Drawing on rich documentary evidence records of Klee's sales reviews of his exhibitions the artist's published writings about his art unpublished correspondence as well as contemporary criticism Werckmeister follows Klee's transformation from an idiosyncratic abstract individualist to a metaphysical storyteller to mystical sage Werckmeister argues that this latter image was promoted by a number of influential art critics and dealers acting in cooperation with the artist himself This posture prompted Klee's success first in the war weary modernist art world of 1916-18 and then in the pseudo revolutionary art world of 1919-20 This work is a critical challenge to the myth of Klee's art and to the hagiography of his artistic personality Werckmeister's historical account is sure to be a controversial yet significant contribution to Klee studies one that will change the nature of Klee scholarship for some time to come

The Worldwide Art Catalogue Bulletin, 1985 Paul Klee and His Illness H. Suter, 2010-02-01 In 1933 Paul Klee's work was branded as Entartete Kunst Degenerate Art by the National Socialists and he was dismissed from his professorial post at the Düsseldorfer Academy of Fine Arts This led him together with his wife Lily to return to his real home of Bern Here his avant garde art was not understood and Klee found himself in unasked for isolation In 1935 Klee started to suffer from a mysterious disease The symptoms included changes to the skin and problems with the internal organs In 1940 Paul Klee died but it was only 10 years after his death that the illness was actually given the name scleroderma in a publication about Klee However the diagnosis remained mere conjecture Since his adolescence the dermatologist and venereologist Dr Hans Suter has been fascinated by Paul Klee and his art and more than 30 years ago this fascination spurred him to commence research into the illness and its influence on the art of Paul Klee's final years It was due to Dr Suter's meticulous investigations that Klee's illness could be defined as diffuse systemic sclerosis In this book the author assembles his findings and describes the rare and complex disease in a clear and comprehensible way Further he empathetically interprets more than 90 of Klee's late works The point of view of a dermatologist renders a unique source of information It provides on one hand new insights into everyday medical practices at the University of Bern in the 1930s which will fascinate doctors and local historians alike While on the other hand art historians and art lovers will be absorbed by the newly discovered links between Paul Klee's work and his illness

Paul Klee, His Life and Work Paul Klee, 2001 In the course of his creativity Klee developed his artistic will slowly almost hesitantly His work formed organically Undogmatic and open to all graphic life he let himself be inspired by the art of the past and the present Fairytale lyrics and grotesque satire tender jesting and real demonism profound mysticism and sober romanticism live in Klee's work which always radiates his personal sphere with all its variety In this monograph an immensely compressed picture of the artistic as well as the human side of his career evolves by way of the extensive pictorial material and accompanying essays a picture which gives information about Klee's contribution to the expansion of artistic
