Paul Martin Roy Flukinger, Larry John Schaaf, Standish Meacham, 1977 Paul Martin Paul Martin, Roy Flukinger, Larry John Schaaf, Standish Meacham, 1978 Paul Martin Roy Flukinger, *Paul Martin, Victorian photographer* Roy Flukinger, Larry Schaaf, Standish Meacham, Paul Martin, 1978 **Encyclopedia of Nineteenth-Century Photography** John Hannavy, 2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century It sets out to be the standard definitive reference work on the subject for years to come Its coverage is global an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena Coverage includes all the key people processes equipment movements styles debates and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool creative medium and recorder of everyday life which it had become by the dawn of the twentieth century The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics students researchers and libraries worldwide *Samuel Butler, Victorian Against the Grain* James G. Paradis, 2007-12-29 Samuel Butler 1835 1902 Victorian satirist critic and visual artist possessed one of the most original and inquiring imaginations of his age The author of two satires *Erewhon* 1872 and *The Way of All Flesh* 1903 Butler s intellectually adventurous explorations along the cultural frontiers of his time appeared in volume after eccentric volume Author of four works on evolution he was one of the most prolific evolutionary speculators of his time He was an innovative travel writer and art historian who used the creative insights of his own painting photography and local knowledge to invent in works like *Alps and Sanctuaries* 1881 a vibrant Italian culture that contrasted with the spiritually frigid experience of his High Church upbringing Despite his range and achievement there remains surprisingly little contemporary analytical commentary on Butler s work *Samuel Butler Victorian against the Grain* is an interdisciplinary collection of essays that provides a critical overview of Butler s career one which places his multifaceted body of work within the cultural framework of the Victorian age The essays taken together discuss the formation of Victorian England s ultimate polymath an artistic and intellectual ventriloquist who assumed an extraordinary range of roles as satirist novelist evolutionist natural theologian travel writer art historian biographer classicist painter and photographer Victorian Urban Settings Debra N. Mancoff, D.J. Trela, 2013-10-28 This volume of 13 original interdisciplinary essays surveys the relationship of Victorian works and the urban experience that shaped them Each essay addresses how the selection or rejection of an urban setting provide the context for a representative product of Victorian art or culture **Human, All Too Human** Diana Fuss, 2013-10-31 The question of what it means to be human has never before been more difficult and more contested The human with a

complicated social history that has rarely been examined remains entrenched in traditional Enlightenment thinking. Human All Too Human considers how we might radicalize our notion of the human. Can the human be thought outside humanism? Any rethinking of the human places us immediately inside an ever widening field of contrasting labels: animate and inanimate, natural and artificial, living and dead, organic and mechanistic. These and other boundary confusions at the frontier of the human are the subject of this volume as each essay takes up one of three disputed border identities: animals, things, or children. Human All Too Human examines how we explain our interest in anthropomorphism and our fascination with species categorizations. Essays explore what we mean by things and how the integrity of the human may already be compromised by them. The nine essays in this volume all attempt to rethink the category of the human, challenging some of our most cherished cultural classifications. By inviting us to place the traditional subject of knowledge in the unsettling position of object, these writers interrogate the boundary distinctions that until now have exempted the human from the vigilant analysis it so urgently requires. Photojournalism Paul Martin Lester, 2015-07-16. Originally published in 1991. A photojournalist is a mixture of a cool detached professional and a sensitive involved citizen. The taking of pictures is much more than f-stops and shutter speeds. The printing of pictures is much more than chemical temperatures and contrast grades. The publishing of pictures is much more than cropping and size decisions. A photojournalist must always be aware that the technical aspects of the photographic process are not the primary concerns. This book addresses ethics in photojournalism in depth with sections on the philosophy in the discipline, on pictures of victims or disaster scenes, on privacy rights, and on altering images. As important and interesting today as when it was first in print. *Victorian Candid Camera* Bill Jay, 1973. **Theatres of Memory** Raphael Samuel, 2012-09-11. When *Theatres of Memory* was first published in 1994 it transformed the debate about what is to be considered history and questioned the role of heritage that lies at the heart of every Western nation's obsession with the past. Today in the age of *Downton Abbey* and *Mad Men* we are once again conjuring historical fictions to make sense of our everyday lives. In this remarkable book Samuel looks at the many different ways we use the unofficial knowledge of the past. Considering such varied areas as the fashion for retrofitting, the rise of family history, the joys of collecting old photographs, the allure of reenactment societies and televised adaptations of Dickens, Samuel transforms our understanding of the uses of history. He shows us that history is a living practice, something constantly being reassessed in the world around us. **The PhotoHistorian**, 1998. **Silent History** Peter K. Andersson, 2018-10-29. The written and verbal traces of the past have been extensively studied by historians, but what about the nonverbal traces? In recent years historians have expanded their attention to other kinds of sources, but seldom have they taken into account the most vital and omnipresent nonverbal aspect of life: body language. *Silent History* explores the potential of early photography to uncover the structure and nature of everyday body language in the late nineteenth and early twentieth centuries. Through

a close study of street photography by pioneering photographers who were the first to document urban everyday life with hidden cameras Peter Andersson examines a key period of history in a new light By focusing on a number of body poses and gestures common to the nonverbal communication of the fin de siècle he reveals the identifications and connotations of daily social interaction beyond the written word Andersson also depicts a broader picture of the body and its relationship to popular culture by placing photographic analysis within a context of magazine illustration caricature music hall entertainment and the elusive urban subcultures of the day Studying archival photographs from Austria England and Sweden Silent History provides a clear picture of the emergence of the modern bodily conventions that still define us

,1999 Amateurs, Photography, and the Mid-Victorian Imagination Grace Seiberling,1986-05 This book results from research which was begun with all the casualness but inherent seriousness of the nineteenth century amateur I had the privilege of frequent access to the archives of the International Museum of Photography at George Eastman House and began to go through the nineteenth century photographs in a systematic way I wanted to go beyond the clichés of the history of photography as a series of often reproduced masterworks and to find out something about the history of seeing or at least of thinking about images in the nineteenth century Preface *Street Photography* Clive Scott,2020-09-14 Street photography is perhaps the best loved and most widely known of all photographic genres with names like Cartier Bresson Brassai and Doisneau familiar even to those with a fleeting knowledge of the medium Yet what exactly is street photography From what viewpoint does it present its subjects and how does this viewpoint differ from that of documentary photography Looking closely at the work of Atget Kertész Bovis René Jacques Brassai Doisneau Cartier Bresson and more this elegantly written book extensively illustrated with both well known and neglected works unpicks Parisian street photography's affinity with Impressionist art as well as its complex relationship with parallel literary trends and authors from Baudelaire to Philippe Soupault Clive Scott traces street photography's origins asking what really what happened to photography when it first abandoned the studio and brings to the fore fascinating questions about the way the street photographer captures or frames those subjects traders lovers entertainers so beloved of the genre In doing so Scott reveals street photography to be a poetic even picturesque form looking not to the individual but to the type not to the reality of the street but to its romance

Victorians at Home and Away Janet Phillips,Peter Phillips,2016-07-01 First published in 1978 this book explores everyday Victorian likes and dislikes manners fashions ideals and illusions It discusses their changing attitudes to women children the poor the common soldier and their country It explains the rise and fall of home entertainment the growth of soccer racing and cricket to national sports the rise of public schools and new professions as well as the appeal of missionary work It is argued that all this happened not because the Victorians were fools hypocrites or villains but because they sensibly adapted themselves to peculiar and novel circumstances This title will be of interest to students of history
