Paul Ricur:

Paul Ricoeur Richard Kearney,1996-02-22 Paul Ricoeur s work is of seminal importance to the development of hermeneutics phenomenology and ideology critique in the human sciences This major volume assembles leading scholars to address and explain the significance of this extraordinary body of work Opening with three key essays from Ricoeur himself the book offers a fascinating tour of his work ranging across topics such as the hermeneutics of action narrative force the other and deconstruction while discussing his work in the context of such contemporary figures as including Heidegger L ac evinas Arendt and Gadamer Paul Ricoeur is also published as Volume 21 Issue 5 6 of Philosophy and Social Criticism *Paul Ricoeur* Bernard P. Dauenhauer,1998 An explanation and assessment of the political thought of French philosopher Paul Ricoeur The author argues that Ricoeur s political philosophy springs from and fills out his overall philosophical anthropology but is not dependent upon it He presents an account of Ricoeur s political writings from 1946 to the present and then discusses various critiques to his thought Annotation copyrighted by Book News Inc Portland OR **The Conflict of Interpretations** Paul Ricœur,1974 This collection brings together twenty two essays by Paul Ricoeur under the topics of structuralism psychoanalysis hermeneutics and religion In dramatic conciseness the essays illuminate the work of one of the leading philosophers of the day Those interested in Ricoeur s development of the philosophy of language will find rich and suggestive reading But the diversity of essays also speaks beyond the confines of philosophy to linguists theologians psychologists and psychoanalysts On Paul Ricoeur David Wood,2002-11 A collection of essays including three pieces by Ricoeur himself examining this subject Ricoeur s study of the intertwining of time and narrative proposes and examines the possibility that narrative could remedy a fatal deficiency in any purely phenomenological approach History and Truth Paul Ricœur,1965 Incredible originality of thought in areas as vast as phenomenology religion hermeneutics psychoanalysis intersubjectivity language Marxism and structuralism has made Paul Ricoeur one of the philosophical giants of the twentieth century The way in which Ricoeur approaches these themes makes his works relevant to the reader today he writes with honesty and depth of insight into the core of a problem and his ability to mark for future thought the very path of philosophical inquiry is nearly unmatched In History and Truth Ricoeur investigates the antinomy between history and truth or between historicity and meaning He argues that history has meaning insofar as it approaches universality and system but no meaning insofar as this universality violates the singularity of individuals lives Imposing unity upon truth or unifying the diversity of knowledge and opinion creates a singular and universal history but destroys historicity and subjectivity Allowing for singularities in history promotes a multiplicity of truths over a single unique truth and thereby annihilates system This volume and the other new editions of Ricoeur s texts published by Northwestern University Press have joined the canon of contemporary continental philosophy and continue to contribute to emergent discussions in the twenty first century Book jacket **Reflections on the Just** Paul Ricœur,2007-06-15 At the time of his death in 2005 French philosopher Paul

Ricoeur was regarded as one of the great thinkers of his generation. In more than half a century of writing about the essential questions of human life, Ricoeur's thought encompassed a vast range of wisdom and experience, and he made landmark contributions that would go on to influence later scholars in such areas as phenomenology, hermeneutics, structuralism, and theology. Toward the end of his life, Ricoeur began to focus directly on ethical questions that he feared had been overshadowed by his other work; the result was a two-volume collection of essays on justice and the law. The University of Chicago Press published the English translation of the first volume, *The Just*, to great acclaim in 2000. Now this translation of the second volume, *Reflections on the Just*, completes the set and makes available to readers the whole of Ricoeur's meditations on the concept. Consisting of fifteen thematically organized essays, *Reflections on the Just* continues and expands on the work Ricoeur began in *Oneself as Another* and *The Just*. In the preface, he considers what revisions he would make were he to start over and how that is reflected in these essays. The opening part brings phenomenology to bear on ethics; the second group of essays comprises shorter, occasional pieces considering the concept of justice in the works of other philosophers, including Max Weber and Charles Taylor. The final part turns to the specific domains of medicine and the law, examining how concepts of right and justice operate in those realms. Cogent, deeply considered, and fully engaged with the realities of the contemporary world, *Reflections on the Just* is an essential work for understanding the development of Ricoeur's thought in his final years.

The Narrative Path T. Peter Kemp, David M. Rasmussen, 1989. This book provides a perceptive analysis of the narrative turn that led Paul Ricoeur to his magisterial work *Time and Narrative*. Ricoeur has for many years explored the intersections of diverse strands of European philosophy, but it is his recent work that has attracted the most discussion and engendered the most debate in Europe and America. *The Narrative Path* explores the roots and meaning of that work. Two of the book's five essays reach back to Ricoeur's earlier work to clarify his themes. Richard Kearney concentrates on the role of imagination in hermeneutics, and Maria Vilella Petit explores the development of Ricoeur's concept of history from *History and Truth* to *Time and Narrative*. Two essays analyze the significance of Ricoeur's reflections on metaphoric and narrative language. Serge Mellinger looks at the relationship between time and poetry from the point of view of Ricoeur's discussions of the connection between time and narrative, and T. Peter Kemp extends Ricoeur's analysis to argue that narration is indispensable to ethics. The book concludes with a reflection by Ricoeur himself on the linguistic, practical, and ethical dimensions of human beings, and with a bibliography of Ricoeur's work in English. T. Peter Kemp teaches in the Department of Philosophy at the University of Copenhagen. *The Narrative Path* is based on a special issue of the journal *Philosophy and Social Criticism*, edited by David Rasmussen, who is Professor of Philosophy at Boston College.

Paul Ricoeur on Hope Rebecca Kathleen Huskey, 2009. In order to examine fully the nature of human beings, Paul Ricoeur crossed disciplinary boundaries in his work, moving from phenomenology to social and political thought, hermeneutics, and ethics. Running throughout Ricoeur's work, particularly *Fallible Man*, *Time and Narrative*, *Oneself as*

Another and his shorter pieces on hermeneutics ethics and religion is a theme of the human capacity for hope According to Ricoeur hope is a capacity of expectation oriented toward some future action which aims at a good for self and others The conditions for the possibility of hope are the unity and difference that exist within the self in transcendental practical and effective realms and the self's ability to narrate which is made possible by the self's existence within and understanding of time Our capacity for hope is understood via the symbols of good and evil found in myths and sacred writings Furthermore hope is not limited to those who are religious atheists may be just as hopeful as the devout Exploring the nature of hope in Ricoeur's work allows for a greater understanding of hope and a greater ability to cultivate hope in oneself and others

Time and Narrative: Volume 1 Paul Ricoeur, 2022-12-22 The first volume in the eminent philosopher's three part examination of time and narrative exploring their relationship in the context of historical writing Time and Narrative builds on Paul Ricoeur's earlier analysis in The Rule of Metaphor of semantic innovation at the level of the sentence Ricoeur here examines the creation of meaning at the textual level with narrative rather than metaphor as the ruling concern Ricoeur finds a healthy circle between time and narrative time is humanized to the extent that it portrays temporal experience Ricoeur proposes a theoretical model of this circle using Augustine's theory of time and Aristotle's theory of plot and further develops an original thesis of the mimetic function of narrative He concludes with a comprehensive survey and critique of modern discussions of historical knowledge understanding and writing from Aron and Mandelbaum in the late 1930s to the work of the Annales school and that of Anglophone philosophers of history of the 1960s and 1970s This work in my view puts the whole problem of narrative not to mention philosophy of history on a new and higher plane of discussion Hayden White History and Theory

Paul Ricoeur and the Lived Body Roger W. H. Savage, 2020-05-27 Paul Ricoeur and the Lived Body extends the scope of Paul Ricoeur's reflections and analyses of the body as one's own through explorations into the ethical cultural and affective dimensions of our corporeal existence Starting with the fact that each of us has a place in the world by reason of our mode of incarnation as flesh the contributors to this volume address a range of diverse themes in which the lived body figures Edited by Roger W H Savage this book investigates the construction of narrative identities and the social assignment of gender and race the passions and an ethics of respect affect theory feeling the carnal imagination and the cultural and social milieu that comprises the conditions of our embodiment as subjects who have deeply held convictions and beliefs By acknowledging that the lived body is irreducible to an object in the world the essays in this volume have a common point our assurance in acting and suffering is rooted in the mode of our incarnate existence as fragile yet capable human beings

Biblical Narrative in the Philosophy of Paul Ricoeur Kevin J. Vanhoozer, 1990-04-27 A critical account of Ricoeur's theory of narrative interpretation and its contribution to theology

Passion for the Possible Brian Treanor, Henry Isaac Venema, 2010 Paul Ricoeur's entire philosophical project narrates a passion for the possible expressed in the hope that in spite of death closure and sedimentation life is opened by superabundance by how the world gives us much more than is possible Ricoeur's philosophical anthropology is a phenomenology of human capacity which gives onto the groundless ground of human being namely God Thus the story of the capable man beginning with original goodness held captive by a servile will and ending with the possibility of liberation and regeneration of the heart underpins his passion for the more than possible The essays in this volume trace the fluid movement between phenomenological and religious descriptions of the capable self that emerges across Ricoeur's oeuvre and establish points of connection for future developments that might draw inspiration from this body of thought **Time and Narrative, Volume 3** Paul Ricoeur, 2014-02-08 In the first two volumes of this work Paul Ricoeur examined the relations between time and narrative in historical writing fiction and theories of literature This final volume a comprehensive reexamination and synthesis of the ideas developed in volumes 1 and 2 stands as Ricoeur's most complete and satisfying presentation of his own philosophy Ricoeur's aim here is to explicate as fully as possible the hypothesis that has governed his inquiry namely that the effort of thinking at work in every narrative configuration is completed in a refiguration of temporal experience To this end he sets himself the central task of determining how far a poetics of narrative can be said to resolve the aporias the doubtful or problematic elements of time Chief among these aporias are the conflicts between the phenomenological sense of time that experienced or lived by the individual and the cosmological sense that described by history and physics on the one hand and the oneness or unitary nature of time on the other In conclusion Ricoeur reflects upon the inscrutability of time itself and attempts to discern the limits of his own examination of narrative discourse As in his previous works Ricoeur labors as an incomparable mediator of often estranged philosophical approaches always in a manner that compromises neither rigor nor creativity Mark Kline Taylor *Christian Century* In the midst of two opposing contemporary options either to flee into ever more precious readings or to retreat into ever more safe readings Ricoeur's work offers an alternative option that is critical wide ranging and conducive to new applications Mary Gerhart *Journal of Religion* Paul Ricoeur Between Theology and Philosophy Boyd Blundell, 2010-05-25 Introduction Part I The main road Fundamental loyalties Theology hermeneutics and Ricoeur's double life Part II Detour Prefiguration the critical arc and descriptive identity Configuration the narrative arc and narrative identity Refiguration Ricoeur's little ethics Part III Return Chalcedonian hermeneutics Theological anthropology removing brackets Conclusion **Oneself as Another** Paul Ricoeur, 1992 Self that require solicitude he indicates the direction from the self to the other and clarifies moral problems that appear to founder on the issue of identity His identification of the nonpersonal concept of the self with the concept of the other thus exposes the key to the Moral Law Oneself as Another expands on the Gifford Lectures that Ricoeur gave in Edinburgh in 1986 and published in French in 1990 It will be widely discussed among philosophers literary *Paul*

Ricoeur's Philosophical Anthropology as Hermeneutics of Liberation Roger W.H. Savage, 2020-11-09 This book offers a unique account of the role imagination plays in advancing the course of freedom's actualization. It draws on Paul Ricoeur's philosophical anthropology of the capable human being as the staging ground for an extended inquiry into the challenges of making freedom a reality within the history of humankind. This book locates the abilities we exercise as capable human beings at the heart of a sustained analysis and reflection on the place of the idea of justice in a hermeneutics for which every expectation regarding rights, liberties and opportunities must be a hope for humanity as a whole. The vision of a reconciled humanity that for Ricoeur figures in a philosophy of the will provides an initial touchstone for a hermeneutics of liberation rooted in a philosophical anthropology for which the path of human misery is its non or pre philosophical source. By setting the idea of the humanity in each of us against the backdrop of the necessity of preserving the tension between the space of our experiences and the horizons of our expectations, the book identifies the ethical and political dimensions of the idea of justice's federating force with the imperative of respect. Paul Ricoeur's *Philosophical Anthropology as Hermeneutics of Liberation* will be of interest to scholars and advanced students working in hermeneutics, phenomenology, ethics, political theory and aesthetics. Paul Ricoeur and the Poetic Imperative W. David Hall, 2008-06-05 Looks at Ricoeur's writings on love and justice prominent toward the end of his life and how these serve as an interpretive key to his thought as a whole.

Paul Ricoeur Farhang Erfani, 2011-01-01 This collection of essays is dedicated to the prolific career of Paul Ricoeur. Honoring his work, this anthology addresses questions and concerns that defined Ricoeur's. **The Rule of Metaphor** Paul Ricoeur, 2003 Paul Ricoeur is widely regarded as one of the most distinguished philosophers of our time. In *The Rule of Metaphor* he seeks to show how language can extend itself to its very limits, forever discovering new resonances within itself. Recognizing the fundamental power of language in constructing the world we perceive, it is a fruitful and insightful study of how language affects how we understand the world and is also an indispensable work for all those seeking to retrieve some kind of meaning in uncertain times.
