*Grace and Gravity* Lars Spuybroek, 2020-11-26 How do we live well The first sentence of *Grace and Gravity* raises the fundamental question that constantly occupies our minds and of all those who lived before us Paradoxically the impossibility of answering this question opens up the very room needed to find ways of living well It is the gap where all disciplines fall short where architecture does not fit its inhabitants where economy is not based on shortage where religion cannot be explained by its followers and where technology works far beyond its own principles According to Lars Spuybroek the prize winning former architect this marks the point where the paradoxical machine of grace reveals its powers a point where we cannot say if we are moving or being moved Following the trail of grace leads him to a new form of analysis that transcends the age old opposition between appearances and technology Linking up a dazzling and often delightful variety of sources monkeys paintings lamp posts octopuses tattoos bleeding fingers rose windows robots smart phones spirits saints and fossils with profound meditations on living death consciousness and existence *Grace and Gravity* offers an eye opening provocation to a wide range of art historians architects theologians anthropologists artists media theorists and philosophers
