The Landscape and Pastoral Painters of Holland Frank Cundall, 1891 *Mapping the Catholic Cultural Landscape* Sister Paula Jean Miller, Richard Fossey, 2004-02-09 *Mapping the Catholic Cultural Landscape* explores the intersection of Catholicism with cultural expressions of literature and art holiness and personal devotion faith and secular society With essays selected from the world's first International Conference of Catholic Studies this volume is a primary resource for Catholic Studies directors in curriculum development and for students in the classroom This text emerges as an objective way of studying the relationship between religion history and culture *Rock and Roll and the American Landscape* Stuart Rosenberg, 2009-09 Stuart Rosenberg traces the growth of rock and roll music from its beginnings in 1955 through the end of the 1960s During this fifteen year period rock and roll became a major industry creating a new generation of songwriters recording artists producers and entrepreneurs and introducing a variety of new musical genres From the emergence of Elvis Presley and rock and roll's early pioneers in the mid 1950s to the teen idols of the late 1950s to the British invasion and the soul of Motown and Stax in the mid 1960s to the progressive rock of the late 1960s *Rock and Roll and the American Landscape* presents an intellectual perspective while chronicling the people and the events that shaped the popular culture

Fieldwork in Landscape Architecture Thomas Oles, Paula Horrigan, 2024-09-30 *Fieldwork in Landscape Architecture Methods Actions Tools* addresses the initial encounters between landscape designer and landscape site an encounter that determines the entire course of the design process The book offers a four part framework what you seek what you carry how you act and what you leave behind for learning and practicing fieldwork as a landscape design skill and contains over sixty first person accounts by international practitioners and educators about the methods and tools they bring to the field from drones to dance The first title of its kind *Fieldwork* will be an invaluable resource for students and instructors of landscape architecture as well as for anyone interested in the practice and experience of direct encounter with real places *Fixing Landscape* Corey Byrnes, 2019-01-15 In 1994 workers broke ground on China's Three Gorges Dam By its completion in 2012 the dam had transformed the ecology of the Yangzi River displaced over a million people and forever altered a landscape immortalized in centuries of literature and art The controversial history of the dam is well known what this book uncovers are its unexpected connections to the cultural traditions it seems to sever By reconsidering the dam in relation to the aesthetic history of the Three Gorges region over more than two millennia *Fixing Landscape* offers radically new ways of thinking about cultural and spatial production in contemporary China Corey Byrnes argues that this monumental feat of engineering can only be understood by confronting its status as a techno poetic act a form of landscaping indebted to both the technical knowledge of engineers and to the poetic legacies of the Gorges as cultural site Synthesizing methods drawn from premodern modern and contemporary Chinese studies as well as from critical geography art history and the environmental humanities Byrnes offers innovative readings of eighth century poetry paintings from the twelfth through

twenty first centuries contemporary film nineteenth century British travelogues and Chinese and Western maps among other sources Fixing Landscape shows that premodern poetry and visual art have something urgent to tell us about a contemporary experiment in spatial production Poems and paintings may not build dams but Byrnes argues that the Three Gorges Dam would not exist as we know it without them **Forms of English History in Literature, Landscape, and Architecture** J. Modernity was critically important to the formation and evolution of landscape architecture yet its histories in the discipline are still being written This book looks closely at the work and influences of some of the least studied figures of the era established and less well known female landscape architects who pursued modernist ideals in their designs The women discussed in this volume belong to the pioneering first two generations of professional landscape architects and were outstanding in the field They not only developed notable practices but some also became leaders in landscape architectural education as the first professors in the discipline or prolific lecturers and authors As early professionals who navigated the world of a male dominated intellectual and menial work force they were exponents of modernity In addition many personalities discussed in this volume were either figures of transition between tradition and modernism like Silvia Crowe Maria Teresa Parpagliolo or they fully embraced and furthered the modernist agenda like Rosa Kliass Cornelia Oberlander The chapters offer new perspectives and contribute to the development of a more balanced and integrated landscape architectural historiography of the twentieth century Contributions come from practitioners and academics who discuss women based in USA Canada Brazil New Zealand South Africa the former USSR Sweden Britain Germany Austria France and Italy Ideal reading for those studying landscape history women's studies and cultural geography **Eating the Landscape** Enrique Salmón, 2012-11-15 Eating is not only a political act it is also a cultural act that reaffirms one's identity and
