Luedtke,1989-09-22 This volume argues that by focusing on British and American backgrounds readers have underestimated the impact of Asia and the East on American novelist and short story writer Nathaniel Hawthorne s 1804 1864 writing The central force in Hawthorne s intellectual development was New England Puritanism It fascinated even when it sometimes repelled him It exercised a pull on his imagination which a lifetime of varied experience did not loosen The author recreates Hawthorne s heritage and examine his readings in material dealing with the East he examines three of Hawthorne s early tales that were all written before 1830 and he looks at Hawthorne s The Story Teller the two volume book of sketches and tales Hawthorne unsuccessfully tried to publish in 1834 and issued piecemeal thereafter in periodicals as annuals The author also evaluates the role of the Eastern world in Hawthorne s view of Romance and studies some of Hawthorne s remarkable heroines Beatrice Rapaccini Hester Zenobia and Miriam in particular The author maintains that the Puritan element in Hawthorne s ancestry has been overstressed and that insufficient attention has been paid to the equally important travel adventure exploration aspect of Hawthorne s heritage and craft **Women in Medicine in Nineteenth-Century American Literature** Sara L. Crosby,2018-09-14 This book investigates how popular American literature and film transformed the poisonous woman from a misogynist figure used to exclude women and minorities from political power into a feminist hero used to justify the expansion of their public roles Sara Crosby locates the origins of this metamorphosis in Uncle Tom s Cabin where Harriet Beecher Stowe applied an alternative medical discourse to revise the poisonous Cassy into a doctor The newly medicalized poisoner then served as a focal point for two competing narratives that envisioned the American nation as a multi racial egalitarian democracy or as a white and male supremacist ethno state Crosby tracks this battle from the heroic healers created by Stowe Mary Webb Oscar Micheaux and Louisa May Alcott to the even more monstrous poisoners or vampires imagined by E D E N Southworth Oliver Wendell Holmes Theda Bara Thomas

Dixon Jr and D W Griffith *Pestilence in Medieval and Early Modern English Literature* Byron Lee Grigsby, 2004-08-02

Pestilence in Medieval and Early Modern English Literature examines three diseases leprosy bubonic plague and syphilis to show how doctors priests and literary authors from the Middle Ages through the Renaissance interpreted certain illnesses through a moral filter Lacking knowledge about the transmission of contagious diseases doctors and priests saw epidemic diseases as a punishment sent by God for human transgression Accordingly their job was to properly read sickness in relation to the sin By examining different readings of specific illnesses this book shows how the social construction of epidemic diseases formed a kind of narrative wherein man attempts to take the control of the disease out of God s hands by connecting epidemic diseases to the sins of carnality
