Poland Military Medals Decorations 163:

Gallantry Medals & Decorations of the World John Clarke,2000-09-12 This book is acknowledged as the only work dealing exclusively with the identification and description of international gallantry awards past and present The multitude of illustrations allows the reader to readily identify those awards most likely to be encountered The work embraces forty three countries and describes 270 decorations together with their various classes A ten page ribbon chart shows 216 different world gallantry ribbons all in full colour *Nomonhan, 1939* Stuart Goldman,2013-10-15 Stuart Goldman convincingly argues that a little known but intense Soviet Japanese conflict along the Manchurian Mongolian frontier at Nomonhan influenced the outbreak of World War II and shaped the course of the war The author draws on Japanese Soviet and western sources to put the seemingly obscure conflict actually a small undeclared war into its proper global geo strategic perspective The book describes how the Soviets in response to a border conflict provoked by Japan launched an offensive in August 1939 that wiped out the Japanese forces at Nomonhan At the same time Stalin signed the German Soviet Nonaggression Pact allowing Hitler to invade Poland The timing of these military and diplomatic strikes was not coincidental according to the author In forming an alliance with Hitler that left Tokyo diplomatically isolated Stalin succeeded in avoiding a two front war He saw the pact with the Nazis as a way to pit Germany against Britain and France leaving the Soviet Union on the sidelines to eventually pick up the spoils from the European conflict while at the same time giving him a free hand to smash the Japanese at Nomonhan Goldman not only demonstrates the linkage between the Nomonhan conflict the German Soviet Nonaggression Pact and the outbreak of World War II but also shows how Nomonhan influenced Japan s decision to go to war with the United States and thus change the course of history The book details Gen Georgy Zhukov s brilliant victory at Nomonhan that led to his command of the Red Army in 1941 and his success in stopping the Germans at Moscow with reinforcements from the Soviet Far East Such a strategy was possible the author contends only because of Japan s decision not to attack the Soviet Far East but to seize the oil rich Dutch East Indies and attack Pearl Harbor instead Goldman credits Tsuji Masanobu an influential Japanese officer who instigated the Nomonhan conflict and survived the debacle with urging his superiors not to take on the Soviets again in 1941 but instead to go to war with the United States *Handbook on the Satellite Armies* United States.
