Polands Journalists Professionalism And Politics:

Poland's Journalists Jane Leftwich Curry, 1990-02-22 Originally published in 1990 Polish Journalists Professionalism and Politics is a study of how in the face of constant political instructions and restrictions Polish journalists act as independent forces in their society Professionals, Power and Solidarity in Poland Michael D. Kennedy, 1991-02-14 The Solidarity movement of the early 1980s not only triggered a transformation in Polish society it forced a fundamental reconsideration of the nature of socialism throughout the Soviet Union and Eastern Europe Seen as one of the most important social movements of the century this pathbreaking study analyses Solidarity s significance in Soviet societies **The Rational Politician:**

Exploiting the Media in New Democracies Andrew Milton, 2024-11-01 This title was first published in 2000 An examination of the way in which post communist political actors have persisted in exploiting controlling and manipulating the media in spite of rhetorical commitments to freer and more independent media *Historical Dictionary of Journalism* Ross Eaman, 2009-03-02 Journalism is the discipline of gathering writing and reporting news and it includes the process of editing and presenting news articles Journalism applies to various media including but not limited to newspapers magazines radio television and the internet The word journalist started to become common in the early 18th century to designate a new kind of writer about a century before journalism made its appearance to describe what those writers produced Though varying in form from one age and society to another it gradually distinguished itself from other forms of writing through its focus on the present its eye witness perspective and its reliance on everyday language The Historical Dictionary of Journalism relates how journalism has evolved over the centuries This is done through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on the different styles of journalism the different types of media and important writers and editors *Background To Crisis* Maurice D. Simon, 2019-03-04 The 1970s in Poland were marked by rapid social economic and political change that included the phenomenal expansion of Polish industry the growth of economic ties with the West food shortages and substantial domestic unrest The Polish government was faced with a large number of problems foreign as well as domestic that to date have not been amenable to lasting solutions Efforts to solve one problem often have merely exacerbated difficulties in other areas The authors of this volume examine many of the policy related developments in Poland during Gierek s regime from his accession to power in late 1970 to his dismissal in 1980 The book begins with an overview of Poland s recent political evolution and concludes with an analysis of the nation s status at the end of the 1970s The chapters describe political participation and integration the role of various groups in the Polish political process and major policy issues facing the Polish government Imagining the World from Behind the Iron Curtain Malgorzata Fidelis, 2022 The Sixties occupy a prominent place in popular culture and scholarship as an era of global upheavals including the Civil Rights Movement de colonization radical social movements student and youth protests and the Vietnam War This pioneering book explores the seemingly isolated Eastern bloc and a non capitalist context demonstrating

the impact of those global upheavals on young people in Poland in the form of international youth culture protest movements and counterculture

The European Handbook of Media Accountability Tobias Eberwein, Susanne Fengler, Matthias Karmasin, 2017-11-08 In recent years the Leveson Inquiry in Great Britain as well as the EU High Level Group on Media Freedom and Pluralism have stirred heated debates about media accountability and media self regulation across Europe How responsible are journalists How well developed are infrastructures of media self regulation in the different European countries How much commitment to media accountability is there in the media industry and how actively do media users become involved in the process of media criticism via social media With contributions from leading scholars in the field of journalism and mass communication this handbook brings together reports on the status quo of media accountability in all EU members states as well as key countries close to Europe such as Turkey and Israel Each chapter provides an up to date overview of media accountability structures as well as a synopsis of relevant research exploring the role of media accountability instruments in each national setting including both media self regulation such as codes of ethics press councils ombudspersons and new instruments that involve audiences and stakeholder groups such as media blogs and user comment systems A theoretically informed cross national comparative analysis of the state of media accountability in contemporary Europe this handbook constitutes an invaluable basis for further research and policy making and will appeal to students and scholars of media studies and journalism as well as policy makers and practitioners

Outside the "Comfort Zone" Tatiana Klepikova, Lukas Raabe, 2020-07-06 Traditionally privacy studies have focused on the liberal democratic societies of the global West whereas non democratic contexts have played a marginal role in the discussion of the private and public spheres not in the least because of the political stances of the Cold War era This volume offers explorations of highly diversified performances and discourses of privacy by various actors which were embedded into the culturally economically and politically specific constructions of late socialism in individual states of the Warsaw Pact While the experience of socialism varied across the Bloc there were also some reactions to socialism and some reverse responses of socialist regimes to these reactions that one can trace through all states Contributions to this volume take us across the Eastern Bloc and beyond it from the Soviet Union into late socialist Poland Romania and East and West Germany While looking at specific countries they provide a glimpse into a broader perspective that reaches beyond the borders of individual late socialist states Together these articles document a palette of paradigms of the construction and transformation of the private spheres that overcame the national borders of individual states and left an imprint across the Eastern Bloc thereby contributing to rethinking Cold War rhetoric in regard to these states

Mass Media James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The

selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes Central and Eastern Europe After Transition Wojciech Sadurski, 2016-04-08 How have national identities changed developed and reacted in the wake of transition from communism to democracy in Central and Eastern Europe Central and Eastern Europe After Transition defines and examines new autonomous differences adopted at the state and the supranational level in the post transitional phase of the post Communist area and considers their impact on constitutions democracy and legal culture With representative contributions from older and newer EU members the book provides a broad set of cultural points for reference Its comparative and interdisciplinary approach includes a useful selection of bibliographical resources specifically devoted to the Central Eastern European countries transitions
