Congrès, Anthony Moore, 2004-06-17 How EU members are adapting their laws to provide for inter state judicial and police co operation *From Soviet Republics to EU Member States* Peter Van Elsuwege, 2008 This book offers a comprehensive

analysis of the legal and political challenges surrounding the EU accession of the Baltic States It examines the impact of EU enlargement on relations with Russia and on the constitutional development of the countries concerned **Security versus**

Justice? Florian Geyer, 2016-04-01 One of the most dynamic areas of EU law since the great changes brought to the EU constitutional order by the Amsterdam Treaty in 1999 has been cooperation in the fields of policing and criminal justice Both fields have already been the subject of substantial legislative effort in the EU and an increasing amount of judicial activity in the European Court of Justice In 2007 after the Constitutional Treaty of 2004 failed the new Reform Treaty planned very substantive changes to these policies Bringing together a wide ranging set of topics and contributors this book enables readers to understand these changes by examining three key questions how did we get to the Reform Treaty what have been and still are the key struggles in competence and how do the changes fit into the transformation of police and judicial cooperation in criminal matters in the EU **Cambridge Yearbook of European Legal Studies, Vol 9, 2006-2007**

Catherine Barnard, 2007-12-18 The Cambridge Yearbook of European Legal Studies provides a forum for the scrutiny of significant issues in EU Law the Law of the Council of Europe and Comparative Law with a European dimension and particularly those issues which have come to the fore during the year preceding publication The contributions appearing in the collection are commissioned by the Centre for European Legal Studies CELS Cambridge a research centre in the Law Faculty of the University of Cambridge specialising in European legal issues The papers presented are all at the cutting edge of the fields which they address and reflect the views of recognised experts drawn from the University world legal practice and the civil services of both the EU and its Member States Inclusion of the comparative dimension brings a fresh perspective to the study of European law and highlights the effects of globalisation of the law more generally and the resulting cross fertilisation of norms and ideas that has occurred among previously sovereign and separate legal orders The Cambridge Yearbook of European Legal Studies is an invaluable resource for those wishing to keep pace with legal developments in the fast moving world of European integration INDIVIDUAL CHAPTERS Please click on the link below to purchase individual chapters from Volume 9 through Ingenta Connect www.ingentaconnect.com SUBSCRIPTION TO SERIES To place an annual online subscription or a print standing order through Hart Publishing please click on the link below Please note that any customers who have a standing order for the printed volumes will now be entitled to free online access www.hartjournals.co.uk/cyels/subs Editorial Advisory Board Albertina Albors Llorens Catherine Barnard John Bell Alan Dashwood Simon Deakin David Feldman Richard Fentiman Angus Johnston Claire Kilpatrick John Spencer Founding Editors

Alan Dashwood Angela Ward Legal Responses to Trafficking in Women for Sexual Exploitation in the European Union
Heli Askola, 2007-03-01 The phenomenon of trafficking in women for sexual exploitation which in the last decade has changed from a marginal non issue to a legitimate concern in many parts of the world has become familiar through newspaper coverage and now finally legislators and law enforcement agencies have begun to act In Europe many EU Member States now have or are developing at least some sort of anti trafficking policies with some of them in the forefront of global anti trafficking efforts Moreover the EU itself has become markedly more active with regard to curbing trafficking in human beings as part of its migration control and police and judicial co operation functions However even co ordinated efforts such as those being worked on by the EU tend to produce only short term cures to a problem that is in truth global and structural in nature and which cannot be eradicated or necessarily even significantly reduced through policing and migration control measures alone Too often there is little debate on broader measures which might be targeted to address the root causes of trafficking such as poverty under development general lack of economic and migration opportunities and above all gender inequality Against this background this book deals with present efforts to control trafficking in women for sexual exploitation In doing so it examines claims that what is needed effectively to prevent and tackle trafficking is a comprehensive approach and at the very least one that is far more wide ranging and coherent than what exists today and also analyses the assertion that destination countries and more specifically Member States of the EU could and perhaps should take more action against trafficking through regional co operation particularly in the framework of the EU rather than as individual Member States The book will be of interest to a wide range of scholars in EU law human rights comparative law sociology feminist theory and politics as well as policy makers practitioners and NGO activists in various European countries *The Principle of Mutual Recognition in EU Law* Christine Janssens, 2013-10-31 Examining the principle of mutual recognition in the EU legal order this book takes a cross policy approach to focus on the principle in the internal market and in the criminal justice area It asks whether the principle of mutual recognition as developed in relation to the free movement provisions internal market can equally be applied in judicial cooperation in criminal matters the area of freedom security and justice and if such a cross policy application is desirable Divided into three parts the book first looks at the way this principle functions in the internal market Part II examines how the principle works in judicial cooperation in criminal matters with the final part answering the book s central questions In each part further related questions are asked What is the object of the principle of mutual recognition Who are the main actors involved How does the mechanism of mutual recognition operate with an emphasis on the existing limits to mutual recognition How does mutual recognition relate to harmonization and to mutual trust What is the relevance of equivalence requirements and the distribution of competence between the home issuing State and the host executing State What are the main characteristics of the principle of mutual recognition And is it a workable principle Through an in depth analysis of the relevant Treaty provisions EU legislation EU case law and EU policy documents the book

comes to the conclusion that a cross policy application of the principle of mutual recognition is both feasible and desirable

The European Union's Fight Against Corruption Patrycja Szarek-Mason, 2010-03-11 Analyses anti corruption policy within EU Member States and the evolution of anti corruption policy during the accession process **Networking the Rule of**

Law Cristina Dallara, Daniela Piana, 2016-04-22 Judicial networks have proved effective in influencing recent judicial policies enacted by both old and new EU member states However this influence has not been standard This volume seeks to improve our understanding of how networks function as well as the extent they matter in the governance of a constitutional democracy The authors examine the judicial function of networks the way they cross the legal and territorial borders that confine the jurisdiction of the domestic institutions and whether or not they are independent of the capacity and the leadership of their members A highly salient issue in contemporary law and politics judicial networks are now qualified actors of governance With the aim to understand how to what extent and with what consequences networks interact with hierarchical institutions that still exist within the States this book is essential reading for legal experts policy makers engaged in promoting the rule of law members of the judicial networks in the EU and extra EU countries as well as academics and students **Towards a European Criminal Record** Constantin Stefanou, Helen Xanthaki, 2008-05-22 The

success of the four core freedoms of the EU has created fertile ground for transnational organised crime Innovative transnational legal weapons are therefore required by national authorities The availability of data on criminal convictions is at the forefront of the debate But which mechanism for availability can be used effectively while at the same time respecting an increasingly higher level of data protection at national level In the fluid post Reform Treaty environment the EU is moving towards the creation of a European Criminal Record which will ultimately secure availability of criminal data beyond the weaknesses of Mutual Legal Assistance mechanisms Examining the concept of a European Criminal Record in its legal political and data protection dimensions this multidisciplinary study is an indispensable exploration of a major initiative in European Criminal Law which is set to monopolise the debate on EU judicial co operation and enforcement Policing in Europe Antoinette Verhage, 2010 The Journal of Police Studies is a quarterly which is oriented towards high standard quality contributions on policing issues and phenomena that are of interest to the police Topics are approached from a specialist and if required multidisciplinary point of view The volume looks to answer questions regarding the developments of police and police cooperation in Europe at the supranational level as well as explore the reactions of police organizations in individual European countries to the process of transnationalisation in terms of the design of and philosophy within police organizations
