Manning draws on decades of fieldwork to investigate how law enforcement works on the ground and in the symbolic realm and why most efforts to reform the way police work have failed so far Manning begins by developing a model of policing as drama a way of communicating various messages to the public in an effort to enforce moral boundaries Unexpected outcomes or contingencies continually rewrite the plot of this drama requiring officers to adjust accordingly New information technologies media scrutiny and representations and community policing also play important roles and Manning studies these influences in detail He concludes that their impacts have been quite limited because the basic structure of policing officer assessments based on encounters during routine patrols has remained unchanged For policing to really change Manning argues its focus will need to shift to prevention Written with precision and judiciously argued Policing Contingencies will be of value to scholars of sociology criminology information technology and cultural theory FBI Law Enforcement Bulletin ,2011 Detailed Statement of Disbursements, July 1 to December 31, 1966 United States.
