Australia's Children's Courts Today and Tomorrow

Rosemary Sheehan, Allan Borowski, 2013-04-05. The Children's Court is one of society's most important social institutions. At the same time it is steeped in controversy. This is in large measure due to the persistence and complexity of the problems with which it deals: namely juvenile crime and child abuse and neglect. Despite the importance of the Children's Court as a means of holding young people accountable for their anti-social behaviour and parents for the care of their children, it has not been the subject of close study. Certainly it has not been previously studied nationally. This book, an edited collection, is based on the findings of a study that spanned the six States and two Territories of Australia. The study sought to examine the current challenges faced by the Children's Court and to identify desirable and feasible directions for reform in each State and Territory. A further unique feature of this study is that it canvassed the views of judges and magistrates who preside over this court.

Youth Gangs, Violence and Social Respect

R. White, 2013-06-13. This is the first book dedicated to Australian youth gangs, exploring the subtleties and nuances of street life for young men and their quest for social respect. The key focus is on group violence and the ways in which the gang provides a forum for the expression of this violence.

Youth Justice and Penalty in Comparative Context

Barry Goldson, Chris Cunneen, Sophie Russell, David Brown, Eileen Baldry, Melanie Schwartz, Damon Briggs, 2020-10-29. This book represents the first major analysis of Anglo-Australian youth justice and penalty to be published, and it makes significant theoretical and empirical contributions to the wider field of comparative criminology. By exploring trends in law, policy and practice over a forty-year period, the book critically surveys the moving images of youth justice regimes and penal cultures, the principal drivers of reform, the core outcomes of such processes and the overall implications for theory building. It addresses a wide range of questions, including: How has the temporal and spatial patterning of youth justice and penalty evolved since the early 1980s to the present time? What impacts have legislative and policy reforms imposed upon processes of criminalisation, sentencing practices and the use of penal detention for children and young people? How do we comprehend both the diverse ways in which public representations of young offenders are shaped, structured and disseminated, and the varied conflicting and contradictory effects of such representations? To what extent do international human rights standards influence law, policy and practice in the realms of youth justice and penalty? To what extent are youth justice systems implicated in the production and reproduction of social injustices? How and to what degree are youth justice systems and penal cultures internationalised, nationalised, regionalised or localised? The book is essential reading for researchers, students and tutors in criminology, criminal justice, law, social policy, sociology and youth studies.

Policing Practices and Vulnerable People

Nicole L. Asquith, Isabelle

Bartkowiak-Théron, 2021-04-20 This textbook addresses existing gaps in police research education and training and provides guidance on how to respond to and address the vulnerability that arises in policing practice. It guides students through the conceptual and also the practical issues of managing vulnerability in policing with case studies and practitioners' views from the UK, Australia, New Zealand, South Africa, the US, Canada, France, and beyond to the Maldives, China, India, Pakistan, and Sri Lanka. It includes key concepts, views from the front line, further reading, and activities in each chapter. *Policing Practices and Vulnerable People* is aimed at researchers and practitioners working with police. While focussed on democratic policing practices, this book includes case studies and practitioners' views from a wide range of approaches including those from the Global South. The Routledge Handbook of Global Perspectives on Homelessness, Law & Policy Chris Bevan, 2024-06-06 This handbook provides a comprehensive global survey and assessment of the law and policy relating to homelessness prevention. Homelessness is regarded internationally as one of the most pressing issues facing humanity and one of the greatest social challenges of our times. This has been further amplified as a result of the Covid 19 pandemic. Across the globe, there is an enormous divergence in both experiences of and responses to homelessness from governments and state actors. This handbook examines how different jurisdictions from across all five continents of the world have encountered, framed, and responded to homelessness. Written by expert scholars and leaders in their field, the book engages in a multidisciplinary and comparative analysis of homelessness as an issue of acute social concern. Understandings of homelessness are geographically, culturally, and historically situated, making analysis of each jurisdiction's approach by a national expert deeply insightful. The collection examines legal and extra-legal policy interventions targeted at reducing or preventing homelessness from across the globe. Drawing on diverse perspectives, differing cultures, and welfare regimes, it thus constitutes a timely evaluation of current approaches to homelessness internationally. This book will appeal to students and scholars of homelessness, sociology, social policy, anthropology, and urban sociology, as well as international and national policymakers.

The Cambridge Handbook of Australian Criminology Adam Graycar, Peter Grabosky, 2002-06-20 As a unique work of reference, *The Cambridge Handbook of Australian Criminology* covers the broad range of contemporary and historical subjects of criminology, combining statistical and narrative analyses. The book provides the most up-to-date figures and facts, traces historical trends in Australian crime and criminal justice, and comprehensively covers the key contemporary issues in Australian criminology. Including valuable crime statistics compiled by the Australian Bureau of Statistics, this book is the complete companion to Australian criminology, the single most important resource for Australian criminology and criminal justice.

Conflict, Politics and Crime Chris Cunneen, 2020-07-28 Aboriginal people are grossly over-represented before the courts and in our gaols. Despite numerous inquiries, State and Federal, and the considerable funds spent trying to understand this phenomenon, nothing has changed. Indigenous people continue to be apprehended, sentenced, incarcerated,

and die in gaols One part of this depressing and seemingly inexorable process is the behaviour of police Drawing on research from across Australia Chris Cunneen focuses on how police and Aboriginal people interact in urban and rural environments He explores police history and police culture the nature of Aboriginal offending and the prevalence of over policing the use of police discretion the particular circumstances of Aboriginal youth and Aboriginal women the experience of community policing and the key police responses to Aboriginal issues He traces the pressures on both sides of the equation brought by new political demands In exploring these issues Conflict Politics and Crime argues that changing the nature of contemporary relations between Aboriginal people and the police is a key to altering Aboriginal over representation in the criminal justice system and a step towards the advancement of human rights
