Police Trauma Psychological Aftermath Of Civilian Combat:

POLICE TRAUMA John M. Violanti, Douglas Paton, 1999-01-01 The police fight a different kind of war and the enemy is the police officer's own civilian population those who engage in crime social indignity and inhumane treatment of others The result for the police officer is both physical and psychological battering occasionally culminating in the officer sacrificing his or her life to protect others This book focuses on the psychological impact of police civilian combat During a police career the men and women of police agencies are exposed to distressing events that go far beyond the experience of the ordinary citizen and there is an increased need today to help police officers deal with these traumatic experiences As police work becomes increasingly complex this need will grow Mental health and other professionals need to be made aware of the conditions and precipitants of trauma stress among the police The goal of this book is to provide that important information The book's perspective is based on the idea that trauma stress is a product of complex interaction of person place situation support mechanisms and interventions To effectively communicate this to the reader new conceptual and methodological considerations essays on special groups in policing and innovative ideas on recovery and treatment of trauma are presented This information can be used to prevent or minimize trauma stress and to help in establishing improved support and therapeutic measures for police officers Contributions in the book are from professionals who work with police officers and in some cases those who are or have been police officers to provide the reader with different perspectives Chapters are grouped into three sections conceptual and methodological issues special police groups and recovery and treatment The book concludes with a discussion of issues and identifies future directions for conceptualization assessment intervention and effective treatment of psychological trauma in policing

Traumatic Stress in Police Officers Douglas Paton, 2009 The objective of this book is to demonstrate how adopting a career perspective can provide a more comprehensive conceptualization of traumatic stress processes as they apply to police officers and agencies and provide a framework that can be used to guide research and intervention agenda in ways that reflect the changes that can occur over the course of a police career that can span decades The book examines the nature and effectiveness of the police role in dealing with adverse events as they unfold within a career perspective It begins with pre employment experiences and their implications for operational well being and concludes with a discussion of the implications of a police career for disengagement or retirement from this role It draws upon empirical research to provide an evidence based approach to traumatic stress risk management and well being in contemporary policing Based on state of the art research the book provides a framework that police agencies can use to develop their officers and their organizations in ways that enhance their capability to confront an increasingly uncertain future in ways that maximize the interests of front line policing Areas of discussion include incorporation of police trauma into a life career course perspective changing context and nature of police work recruitment selection and socialization in the context of critical incident and terrorist work changing gender balance training in uncertain

times managing risk and vulnerability organizational context family dynamics inter and intraorganizational teams health and mental health consequences of long term exposure to hazards and disengagement and retirement The text will be of significant interest to police organizations and agencies whose officers face a high risk of experiencing disaster and traumatic stress law enforcement managerial and supervisory personnel human resource and health and safety professionals and mental health professionals and consultants The text will also be relevant to those researching traumatic stress disaster stress and emergency management as well as other protective services *Police Psychology and Its Growing Impact on Modern Law Enforcement* Mitchell, Cary L.,Dorian, Edrick H.,2016-09-12 Police psychology has become an integral part of present day police agencies providing support in the areas of personnel assessment individual and organizational intervention consultation and operational assistance Research based resources contribute to those efforts by shedding light on best practices identifying recent research and developments and calling attention to important challenges and growth areas that remain Police Psychology and Its Growing Impact on Modern Law Enforcement emphasizes key elements of police psychology as it relates to current issues and challenges in law enforcement and police agencies Focusing on topics relevant to assessment and evaluation of applicants and incumbent officers clinical intervention and prevention employee wellness and support operational consultation and emerging trends and developments this edited publication is an essential reference source for practicing police psychologists researchers graduate level students and law enforcement executives

Workplace Trauma Noreen Tehrani,2004 How can organisations defend their employees against psychological trauma Post traumatic stress is a topical subject of increasing importance Yet much of the writing on this subject so far has concerned stress suffered by people exposed to serious turmoil such as war and ethnic conflict Workplace Trauma is an extremely welcome presentation of the subject of stress in the workplace This book explores the ways that traumatic events impact the psychological well being of organisations and their employees The effects of disasters accidents crime injury and death are examined alongside examples of organisational trauma care programmes and reviews of the current thinking regarding post trauma interventions The insights generated are illustrated with case studies from the author s extensive experience of counselling victims of trauma at work The theory research and practical advice contained in this volume will prove a valuable resource for organisations and practitioners seeking guidance on reducing the impact of psychological trauma *Stress in Policing* Ronald J. Burke,2016-07-01 Stress in policing remains a serious concern for individual officers their families their organizations and society at large As an editor of the Psychological and Behavioural Aspects of Risk series Ronald J Burke brings together the latest research findings and intervention strategies shown to be effective by an international group of experts The contributors comprise of a group of high profile researchers and writers who are experts in their respective fields This edited collection addresses such issues as The increased risk of international terrorism Racial profiling Police Culture Police integrity Police suicide Inadequate police training The work of police officers exposes them to

sources of stress that increase several risks in terms of their psychological and physical health their family relationships physical injuries emotional trauma ambiguity about their roles in society Shift work and undercover work add additional burdens to officers and their families Police work also places risks on the communities in which officers serve in terms of officers being inadequately trained to deal with mentally ill citizens

The Psychology of Police Deadly Force

Encounters Laurence Miller, 2020-02-11 The Psychology of Police Deadly Force Encounters Science Practice and Police is a fascinating look into the reality of police work The author integrates noted theories into a street wise understanding of being a police officer The focus of this book is on the use of deadly force by officers a topic of considerable importance The author discusses the psychosocial aspects of deadly force use stemming from the individual officer the situation organizational influences and the police culture Expanding further into social issues the controversial topic of race and use of deadly force is discussed This depiction looks at both sides that of racial victimization and that of the police which helps to provide a rather unique perspective on this important issue Of interest the author breaks down the different dimensions of cognition as a factor in decision making among police including the perception of the situation the action taken depending on that perception and the role of present and past memory This will make for a useful training topic to alert officers to the cognitive processes that go into deadly force use processes that they have the control to change to make a better decision Next the book delves into the biological factors that may be involved in police decision making again where deadly force is involved The various negative psychological impacts that a deadly force situation may bring about are identified and explained This book will be useful as a tool for both law enforcement practitioners and researchers to better understand the intricacies of deadly force by the police For researchers the book has a multitude of references available for further exploration It will prove to be a useful guide and reference volume for police managers and supervisors mental health clinicians investigators attorneys judges law enforcement educators and trainers rank and file police officers including expert witnesses
