Policing a Perplexed Society Sir Robert Mark, 2023-03-31 Should policemen be armed Do they want to be How fair is police interrogation Are the police too tough on demonstrators How often are the guilty acquitted Do we get the police force we deserve Originally published in 1977 Sir Robert Mark considers these and many other issues His period as Commissioner of the Metropolitan Police Force would mark something of an epoch not only because of the challenge of brutal terrorism or his success as a leader but because he was a bold innovator thoughtful and articulate whose work could be readily assessed because he believed in telling the public all you can the official memorandum on this appears here as an appendix One change affecting the CID described in this book is characterised by Sir Robert himself as the most important single change since the Metropolitan Police was founded by his namesake Sir Robert Peel The opening chapter describes the organisation and functioning of this country's police at the time the way in which they epitomise and are restricted by a free society and alone see the whole picture of criminal justice in a sense here Sir Robert speaks over the heads of the legal profession to the public The next important chapter contains the first open discussion of modern police army cooperation in this country but Sir Robert emphasises that a democratic society cannot be controlled by force and that the police exist for the maintenance of public order irrespective of party of sectional interests and of the government of the day They are an example of the British genius for successful institutional compromise Subsequent chapters examine these themes in more detail and from different angles discuss manpower limitations and maldistribution emphasise how the individual police officer man or woman is the anvil on which society beats out the problems of social inequality racial prejudice and ghettos weak and ineffectual legislation There are chapters on violence and on that London speciality the demonstration In the author's view the police officer daily thrown back on his understanding of basic Christian precepts has now left his Victorian artisan status far behind and the present Metropolitan Commissioner compels consideration of the police officer's point of view **Policing a**

Modern Policing David Watts Pope, Norman L. Weiner, 2023-03-31 Originally published in 1981 *Modern Policing* provided an opportunity for members of the Police Staff College Bramshill to air their views about different aspects of modern British policing Contributions were made by members of the directing staff professional and academic and by students This book was addressed primarily to policemen themselves but also had wider appeal to those interested in policing The editors saw within police constabularies a rapidly developing concern for management information by senior police personnel for material to better prepare officers for their difficult task by training departments for relevant analyses to help improve qualifications by policemen themselves This was one of the first books to include views from inside the police rather than those from the outside the service Policing Empires Julian Go, 2024 The police response to protests erupting on America's streets in recent years has made the militarization of policing painfully transparent Yet properly demilitarizing the police

requires a deeper understanding of its historical development causes and social logics Policing Empires offers a postcolonial historical sociology of police militarization in Britain and the United States to aid that effort Julian Go tracks when why and how British and US police departments have adopted military tactics tools and technologies for domestic use Go reveals that police militarization has occurred since the very founding of modern policing in the nineteenth century into the present and that it is an effect of the imperial boomerang Policing Empires thereby unlocks the dirty secret of police militarization Police have brought imperial practices home to militarize themselves in response to perceived racialized threats from minority and immigrant populations

The Police in Society Ben Whitaker, 2023-03-31 In 1964 Ben Whitaker who later defeated a former Home Secretary to become Hampstead's first ever Labour MP and a Junior Minister wrote *The Police* to try and reconcile in his own words the very different impression police officers make when as a barrister one is defending from when one is prosecuting in court This book was widely praised as The best and most impartial book that has yet been written on the police Lord Gardiner The most truthful picture to date Sunday Times Valuable Observer Terse and telling Sunday Telegraph Excellent generous and sensible Punch After that time the crime situation seriously deteriorated as uncertainties about the exact nature of the police's role in a democracy multiplied Ben Whitaker spent five years interviewing policemen and others and in this title originally published in 1979 almost entirely rewrote his assessment and proposals for ameliorating the situation Perceptively critically yet impartially he analyses the effectiveness sociology misconduct and future of the police and suggests radical reforms in their powers and relationship with the public *The Police in Society* was timely and essential reading for anybody concerned with the human rights of individuals in a democratic society at the time and today can be read and enjoyed in its historical context

The New Policing Eugene McLaughlin, 2007 *The New Policing* provides a comprehensive introduction to the critical issues confronting policing today It incorporates an overview of traditional approaches to the study of the police with a discussion of current perspectives The book goes on to examine key themes including the core purpose of contemporary policework the reconfiguration of police culture organizational issues and dilemmas currently confronting the police the managerial reforms and professional innovations that have been implemented in recent years and the future of policing security and crime control In offering this discussion of the nature and role of the police *The New Policing* illustrates the need to re-examine and re-think the theoretical perspectives that have constituted policing studies Examining evidence from the UK the USA and other western societies the book promotes and enables an understanding of the cultural and symbolic significance of policing in society

Policing Tim Newburn, Jill Peay, 2012-06-22 Bringing together a range of leading social scientists and criminologists this volume explores a number of key themes raised by the work of Robert Reiner Arguably the leading policing scholar of his generation Reiner's work over some 40 years has ranged broadly in this field taking in the study of police history culture organisation elites and relationships with the media Always carefully situated within an analysis of the changing socio-political circumstances of policing and crime control

Robert Reiner's scholarship has been path breaking in its impact. The 13 original essays in this volume are testament to Reiner's influence. Although reflecting the primarily British bent within his work, the essays also draw on contributors from Australia, Europe, South Africa, and the United States to explore some of the leading debates of the moment. These include, but are not limited to, the impact of neo-liberalism on crime control and the challenges for modern social democracy, police culture, equality and political economy, new media and the future of policing, youth policing and democracy, and the challenges and possibilities posed by globalisation in the fields of policing and security. **Policing Citizens** P.A.J. Waddington, 2002-11. This comparative text serves both as an introduction to contemporary police studies and an intervention into current debates concerning police reform and practice. **Handbook of Policing** Tim Newburn, 2012-08-21. This new edition of the Handbook of Policing updates and expands the highly successful first edition and now includes a completely new chapter on policing and forensics. It provides a comprehensive but highly readable overview of policing in the UK and is an essential reference point combining the expertise of leading academic experts on policing and policing practitioners themselves.
