O'Neill, 2005-10-11 This book presents a critical portrait of the British police through a detailed ethnography of their work at football matches Megan O'Neill not only sheds light on a topic of intense media interest football hooliganism but also presents the police in a totally fresh perspective By using the work of Erving Goffman she demonstrates how the police are far from unified force Their informal interaction teams divide them operationally and socially Football and Risk Jan Andre Lee Ludvigsen, 2022-06-27 This is the first book to look closely at the concept of risk in elite and professional football from a social scientific perspective Drawing on the wider sociological

criminological and management literature on risk it shows how football helps us to understand global risk more generally in present day society The book explores how attitudes to risk have shaped the modern football business and identifies those risks that pose a threat to the sustainability of football in the future It draws upon the work of theorists including Ulrich Beck Anthony Giddens and Michel Foucault as well as digital media sources and policy documents and covers a range of topics cases and themes including political environmental and terrorism risks technologies the governance of fans and risk resistance In the context of the social globalized and commercialized realm of football as well as a global pandemic that has had a profound influence on attitudes to risk the book argues that modern societies preoccupation with risk has transformed the ways in which modern football is played on the pitch organized off the pitch covered in the media and attended by fans Including an extended case study of the 2026 World Cup to be held in the USA Mexico and Canada this is a thought provoking read for any student researcher or policy maker with an interest in football sport events sociology criminology or risk management

Football Italia Mark Doidge, 2015-05-21 Football has undergone a period of transformation over the last thirty years. Despite these global processes, different national leagues have adapted in different ways. After an initial period of success, directly after Italia 90, Italian football has gone through a period of sustained crisis. It has been blighted by financial mismanagement, corruption scandals, and fan violence. This has impacted Italy's ability to compete on a global stage. *Football Italia* accounts for the development of Italian football in relation to the wider global transformations impacting football and addresses the reasons for Serie A's initial success and current malaise. Theoretically, this book locates Italian football within the wider power network of the state and how this has impacted political engagement. After an historical overview of the Italian political economy, *Football Italia* highlights how football is part of the wider political network. Football clubs are owned by powerful businessmen and they are all men who are also politicians. This centralisation of power within a small hegemonic group inhibits change. Within this broader structure, wider corruption scandals continue from regular match fixing scandals to doping. Meanwhile, stadiums are crumbling and police are over aggressive. It is within this context that we must place the fans. Both the ultras and supporters who attend official supporters clubs are disaffected and without the power to change the status quo. Consequently, Italian football has been in decline throughout the 21st century.

Legal Responses to Football

Hooliganism in Europe Anastassia Tsoukala, Geoff Pearson, Peter T.M. Coenen, 2016-04-21 This book brings together a number of perspectives on how different European states have responded to the phenomenon of football crowd disorder and violence or hooliganism. It applies a comparative legal approach with a particular focus on civil and human rights to analyze domestic legislation, policing, and judicial responses to the problem of football hooliganism in Europe. Academics and legal professionals from eight different European countries introduce and analyze the different approaches and draw together common themes and problems from their various jurisdictions. They offer insights into the interactions between domestic politicians, law enforcers, and sports authorities. The book is important reading for scholars and practitioners in the fields of law, sports law, sociology, and criminology, and for all those concerned with questions of law enforcement and human rights. While it perfectly fits the curriculum for postgraduate studies in the fields mentioned, it is also highly recommended as secondary reading for undergraduate students. Dr Anastassia Tsoukala is tenured Associate Professor at the University of Paris XI, France. Dr Geoff Pearson is Senior Lecturer in Criminal Law at the University of Manchester's Law School, Manchester, United Kingdom. Dr Peter Coenen was Assistant Professor of Law at Maastricht University in the Netherlands.
