Policing in America Leonard A. Steverson, 2007-08-28 This book maps the development of modern policing both theory and practice from humans first efforts at social control through the British roots of modern policing to the unique institution of American policing today How Americans view police has varied dramatically through history In 1856 New York police opposed wearing uniforms because they felt it represented a militaristic and nondemocratic type of organization Today our police model themselves on the military and use military tactics in the war on drugs *Policing in America* A Reference Handbook chronicles our changing ideas and methods of social control beginning with the first recorded instances It traces the trends that have shaped America's unique policing system and our fascination with police It also examines the hot button issues that concern police scholars today such as the nature of the police subculture and police corruption and details the trends and issues that will shape the future of policing An essential reference for those interested in and affected by the American system of policing which impacts us all

Weisheit,David N. Falcone,L. Edward Wells,2005-09-21 While most researchers see the urban setting as being the only laboratory for studying crime problems throughout the United States *Crime and Policing in Rural and Small Town America* directly challenges this notion with an authoritative look at crime and the criminal justice system in rural America today The assumption that rural crime is rare and comparable across various communities has led to incompatible theories and irrelevant practices In order to transform this misconception the Third Edition offers a clear outline of the definition of rural and provides a vital argument for why rural and small town crime should be studied more than it is The book also explores the individual nature of issues that emerge in these communities including illegal drug production domestic violence agricultural crimes rural poverty and gangs in addition to the training needs of rural police probation in rural areas and rural jails and prisons Responding to rural crime requires an awareness of its context and how justice is carried out as well as an appreciation of how features vary across rural areas Understanding the relationships among crime geography and culture in the rural setting can reveal useful ideas and implications for crime and justice in communities across the United States

Thin Blue Fault Line - Policing America John C. Franklin,John F. Hein,2021-02-22 Authors Franklin and Hein have witnessed firsthand difficulties experienced in some black communities They use their knowledge to analyze and discuss the interactions between American policing a subculture of the black community and the BLM movement The authors wrote this book not because of attacks on police officers but because of overzealous actions by officers to shoot black men It describes how blue on black shootings along with police tactics sometimes cause intense citizen responses through public statements outbursts and demonstrations It begins with an examination of the differences between the black and white communities how the same incident can be viewed from two different perspectives and how a discussion can be perceived unbiased by one but biased and unjust by another Because of civil rights efforts American policing is going through a transformation A change in policing tactics must be met with a re evaluation of some cultural norms by the black community They also discuss the lack of support by blacks shown to other blacks when there is an impression of being not black enough The authors believe in political correctness but also believe that political correctness is harming the black community because well recognized negative issues in some communities are not being addressed to avoid criticism of black culture In the final chapter the

authors discuss the failure of black leadership to make any earnest effort to rescue a wanting black subculture from itself Finally the authors believe that American policing understands its 21st century obligations and is taking steps to meet them
