Polish German Borderlands An Annotated Bibliography

Martin J. Bull

Polish German Borderlands An Annotated Bibliography:

The Polish-German Borderlands Barbara Paul, 1994-08-30 This annotated guide to English language materials dealing with all aspects of the history of the borderlands since the 1700s gives special attention to conflicts between Germans and Poles and issues that are again critical in Central Europe Students teachers and scholars will find this bibliography of over 1200 entries to primary sources books chapters in books dissertations journal articles government documents fiction and films easy to use The introduction points to different names given to the region and puts the bibliography into historical context The chapters cover different historical periods and organize material either by genre of work or by topics significant to a particular era Author title and subject indexes make the material easily accessible for a wide variety of research needs

The Lost German East Andrew Demshuk, 2012-04-30 A fifth of West Germany's post 1945 population consisted of ethnic German refugees expelled from Eastern Europe a quarter of whom came from Silesia As the richest territory lost inside Germany's interwar borders Silesia was a leading objective for territorial revisionists many of whom were themselves expellees The *Lost German East* examines how and why millions of Silesian expellees came to terms with the loss of their homeland Applying theories of memory and nostalgia as well as recent studies on ethnic cleansing Andrew Demshuk shows how over time most expellees came to recognize that the idealized world they mourned no longer existed Revising the traditional view that most of those expelled sought a restoration of prewar borders so they could return to the east Demshuk offers a new answer to the question of why after decades of violent upheaval peace and stability took root in West Germany during the tense early years of the Cold War

Less than Nations Giuseppe Motta, 2014-03-25 *Less than Nations* Central Eastern European Minorities after WWI represents the result of research that the author has carried over recent years and was facilitated by the 2008 PRIN project Programmi di Ricerca di Rilevante Interesse Nazionale and the 2010 Sapienza Research funds The book analyses the conditions of national minorities after World War I when the geo political map of Central Eastern Europe was redefined by international diplomacy The new settlements were based on the principle of national self determination and were conditioned by the geographic reality of Central Eastern Europe where states and nations rarely coincided As a consequence the minority question emerged as one of the most troublesome issues during the interwar period and affected international relations and the internal conditions of many states The minority question was discussed by historiography and by international observers and became an integral part of the system which was centred around the League of Nations This work begins with the study of the relationships between the states and their minorities and of the international dimension of this question which animated the fight between revisionist and anti revisionist states The documents of the Italian Army's General Staff and of the League of Nations represent the main historical sources of this book which carries out a complete study of the difficult situation of 1918 1920 when the new states annexed many contested regions within their frontiers and of the numerous controversies concerning the application of international treaties and

national regulations in relation to the protection of minorities The second volume of the book analyses some special aspects of this question and focuses on the interpretation of some particular cases which had an outstanding role in the definition of the international framework The massacres of the Armenians in the Ottoman Empire and of the Jews in Eastern Europe for example alarmed the international community and contributed to the 1919 emergency of minority rights The role of Kin States such as Germany and Hungary instead characterized the entire interwar period and conditioned the stability of Europe and the League of Nations Finally special cases like those of Slovakia and Bosnia are also helpful in understanding the ideas of nation and minority and how conceptualisations of the latter have changed throughout the last century The Kurds and Kurdistan Lokman I. Meho, 1997-06-25 As the Kurdish question becomes more prominent in Middle Eastern politics it is attracting attention from the media the academic community and governmental and non governmental organizations Swamped with questions from the press and academic departments students of Kurdish topics have needed a comprehensive bibliography on the Kurds This book meets that need An introductory essay provides users with general background information on the Kurds and Kurdistan With over 800 entries the annotated bibliography provides information on the most important works about the Kurds and Kurdistan published from World War II through 1996 Emphasizing recent titles the book focuses on English language scholarly works Arranged in topical chapters the book opens with a section on general works then covers travel works history and archaeology politics minorities and religion in Kurdistan society economy language and education literature and folklore and culture and arts *German Foreign Policy, 1918-1945* Christoph M. Kimmich, 2013-03-14 Christoph Kimmich's *German Foreign Policy 1918-1945 A Guide to Current Research and Resources* is a comprehensive guide to archival resources and published materials on the foreign policy of Weimar and Nazi Germany It catalogues the archives libraries and research institutes both public and private that house important collections especially in Germany but also elsewhere in Europe and in the United States and describes their holdings terms of access and use and guides and inventories available *German Foreign Policy 1918-1945* also includes a substantial annotated bibliography of published sources ranging from documentary series to significant contemporary accounts from memoirs to secondary works The bibliography reflects current scholarship and draws attention to works that are innovative and accessible It also describes the various series of the Nuremberg War Crimes Trial Records and the original trial documents available in archives and libraries The guide canvasses the vast and growing offering of materials on the Web digitized print materials archival inventories and source materials In order to expedite work in the archives the guide also explains the organization and functioning of the German foreign ministry between 1918 and 1945 and how it kept and stored its records This third edition offers new information on German archives many of which were consolidated and relocated after German reunification on recently discovered archival holdings and on materials posted on the Web It is a reference source for both established scholars and young researchers offering quick and efficient access to the voluminous research and research

materials that are now available **Contemporary Italy** Martin J. Bull, 1996-02-28 A unique bibliographic and historiographic guide to the study of contemporary Italy this book points to over 650 texts that have shaped the academic and scholarly study of postwar Italy It is the first guide to include a genuine mix of English language and Italian language materials and to approach these materials in a historiographic as well as a bibliographic manner It is an ideal guide for English North American and Italian scholars who have just begun their study of Italy or want to know more about research in areas outside their area of expertise Following the introduction which outlines the context within which the evolution of Italian studies should be viewed the book is divided into two parts Part I includes five historiographic chapters providing a detailed survey and analysis of works published in history politics government the economy and society Part II is an annotated bibliographic guide to all of the texts pointed to in Part I **Revolutions in International Law** Kathryn Greenman, Anne Orford, Anna Saunders, Ntina Tzouvala, 2021-02-18 In 1917 the October Revolution and the adoption of the revolutionary Mexican Constitution shook the foundations of the international order in profound unprecedented and lasting ways These events posed fundamental challenges to international law unsettling foundational concepts of property statehood and non intervention and indeed the very nature of law itself This collection asks what we might learn about international law from analysing how its various sub fields have remembered forgotten imagined incorporated rejected or sought to manage the revolutions of 1917 It shows that those revolutions had wide ranging repercussions for the development of laws relating to the use of force intervention human rights investment alien protection and state responsibility and for the global economy subsequently enabled by international law and overseen by international institutions The varied legacies of 1917 play an ongoing role in shaping political struggle in the form of international law [The American Bibliography of Slavic and East European Studies for 1994](#) Patt Leonard, Rebecca Routh, 1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs [Slavic Review](#) , 1996 American quarterly of Soviet and East European studies varies *Historical Dictionary of Poland* George Sanford, 2003 Poland has had an exceptionally turbulent thousand year history marked by extremes of national greatness and decline including partition and foreign occupation Currently undergoing another dramatic transformation Poland has been building a democratic and market system since the fall of communism The largest and most important nation in Eastern Europe outside the ex Soviet Union is now returning to the European mainstream from which she was for long periods isolated politically and economically although not culturally Although Poland has been widely popularized in journalistic clichés in recent years because of Solidarity the Polish Pope and the like there is still much to be learned about the particular individuals and specific factors which have shaped her history in the past and which are molding her present development The dictionary strikes a judicious balance in covering past and contemporary figures as well as Poland's richly textured

political social and cultural dimensions The Dictionary has more than four hundred entries and a most comprehensive and up to date bibliography It provides a stimulating and knowledgeable introduction for students scholars and librarians as well as a helpful overview guide for tourists and for those involved in teaching business politics journalism and public service
