Polish Liberal Thought Before 1918:

Polish Liberal Thought Before 1918 Maciej Janowski, 2004-01-01 Based on solid research this erudite study is a first attempt at presenting a comprehensive analysis of nineteenth century Polish liberalism Polish liberal tradition has generally been considered weak or even nonexistent Janowski on the other hand argues that nineteenth century Poland inherited a strong protoliberal tradition from the nobility based democracy and that in the mid nineteenth century liberalism was a dominant trend in Polish intellectual life even if it rarely appeared in its pure form and did not create political movements separating liberal aims from patriotic ones

Liberalism after the Habsburg Monarchy, 1918-1935 Oskar Mulej, 2024-08-13 This book explores what it meant to be liberal in interwar Czech Austrian and Slovenian politics Up until 1918 these countries shared the common political framework of Cisleithania the Austrian part of the Habsburg Monarchy Within this framework was the predominantly pejorative function of the label liberal and as a result after 1918 no major political party employed it to describe its own political orientation Despite making considerable efforts to dissociate themselves from liberalism many parties continued to be referred to as liberal by the contemporary public This association with liberalism the book argues was primarily due to the parties historical background rather than any ideological commitment to liberalism and for that reason the author refers to them as national liberal heirs Examining the discontinuities of liberal party traditions the book presents three representative cases of national liberal heirs the Czechoslovak National Democracy the Greater German People's Party and the Slovenian sections of the Yugoslav Democratic Party the Independent Democratic Party and the Yugoslav National Party Forming a distinctive part of early twentieth century party landscapes in Central Europe the national liberal heirs had inherited organisational structures parts of electorate as well as rootedness in specific cultural and social milieus from their liberal predecessors Following the political trajectories of the national liberal heirs the author seeks to answer in which spheres in which manners and to what extent liberalism survived or even continued to develop in the interwar Czech lands Austria and Slovenia

A History of Modern Political Thought in East Central Europe Balázs Trencsényi, Maciej Janowski, Monika Baar, Maria Falina, Michal Kopecek, 2016-02-26 A History of Modern Political Thought in East Central Europe is a two volume project authored by an international team of researchers and offering the first ever synthetic overview of the history of modern political thought in East Central Europe Covering twenty national cultures and languages the ensuing work goes beyond the conventional nation centered narrative and offers a novel vision especially sensitive to the cross cultural entanglement of discourses Devising a regional perspective the authors avoid projecting the Western European analytical and conceptual schemes on the whole continent and develop instead new concepts patterns of periodization and interpretative models At the same time they also reject the self enclosing Eastern or Central European regionalist narratives and instead emphasize the multifarious dialogue of the region with the rest of the world Along these lines the two volumes are intended to make these cultures available for the global market of ideas and also help rethinking

some of the basic assumptions about the history of modern political thought and modernity as such The first volume deals with the period ranging from the Late Enlightenment to the First World War It is structured along four broader chronological and thematic units Enlightenment reformism Romanticism and the national revivals late nineteenth century institutionalization of the national and state building projects and the new ideologies of the fin de siècle facing the rise of mass politics Along these lines the authors trace the continuities and ruptures of political discourses They focus especially on the ways East Central European political thinkers sought to bridge the gap between the idealized Western type of modernity and their own societies challenged by overlapping national projects social and cultural fragmentation and the lack of institutional continuity

Poland From Partitions to EU Accession Piotr Koryś, 2018-11-29 This book surveys Poland's move from being a post feudal backward peripheral country to being a modern capitalist European state from the partition of the commonwealth of Poland and Lithuania to the abolishment of second serfdom late industrialization to state socialism post partition fragmentation to post Second World War westward dislocation and from the Solidarno movement to accession into the European Union Could Poland really be considered an underdeveloped nation throughout the last 200 years What factors contributed to its backwardness Has Poland yet managed to catch up with the West This book the first overview of the modern economic history of Poland to be published in English addresses these and many other questions crucial for developing our understanding of the economic history of modern Central Eastern Europe The economic development of Poland is analyzed through data and statistics as well as through analysis of the ideas that paved the way for the politics of economic and social modernization

[The Jews in Poland and Russia](#) Antony Polonsky, 2009-12-10 Each of the three volumes of this magisterial work provides a comprehensive picture of the realities of Jewish life in the Polish lands in the period it covers while also considering the contemporary political economic and social context Volume I 1350 to 1881 provides a wide ranging overview down to the mid eighteenth century including social economic and religious history The period from 1764 to 1881 is covered in more detail with attention focused on developments in each country in turn especially with regard to the politics of emancipation acculturation assimilation and forced integration Volume II 1881 to 1914 explores the factors that had a negative impact on Jewish life as well as the political and cultural movements that developed in consequence Zionism socialism autonomism the emergence of modern Hebrew and Yiddish literature Jewish urbanization and the rise of popular Jewish culture Galicia Prussian Poland the Kingdom of Poland and the tsarist empire are all treated individually as are the main cities Volume III 1914 to 2008 covers the interwar period the Second World War and the Holocaust including Polish Jewish relations and the Soviet record on the Holocaust A survey of developments since 1945 concludes with an epilogue on the situation of the Jews since the collapse of communism

On Behalf of the Emperor, On Behalf of the Fatherland Jussi Jalonen, 2015-08-25 Jussi Jalonen's On Behalf of the Emperor On Behalf of the Fatherland approaches the Russian suppression of the Polish Uprising in 1830-1831 from a new transnational perspective

The Russian mobilization involved people from the farthest reaches of the Empire and one notable group was the Finnish Battalion of the Imperial Guard For the Finnish elites the war was a demonstration of loyalty to the Tsar and the service of young Finnish gentlemen in the Russian Guards produced a sense of militarized patriotism Relying on a rich variety of original sources this study places the campaign in Poland in the context of the development of Finnish national awareness providing a unique portrayal of 19th century war experience and nationalism

Liberalism, Nationalism and Design Reform in the Habsburg Empire Matthew Rampley, Markian Prokopovych, Nóra Veszprémi, 2020-01-20 Liberalism

Nationalism and Design Reform in the Habsburg Empire is a study of museums of design and applied arts in Austria Hungary from 1864 to 1914 The Museum for Art and Industry now the Museum of Applied Arts as well as its design school occupies a prominent place in the study The book also gives equal attention to museums of design and applied arts in cities elsewhere in the Empire such as Budapest Prague Cracow Brno and Zagreb The book is shaped by two broad concerns the role of liberalism as a political cultural and economic ideology motivating the museums foundation and their engagement with the politics of imperial national and regional identity of the late Habsburg Empire This book will be of interest for scholars of art history museum studies design history and European history

In-Between Empire Raymond Patton, 2024-10-17 Exploring how Polish writers positioned themselves as neither colonized nor colonizers In Between Empire analyses their literary works on empire during the 19th and 20th centuries to explore how they negotiated their in between position in the global imperial hierarchy Leveraging this vantage point they claimed the unique ability to represent the South to the West constructing a Polish national identity in conversation with both imperial and anti imperial currents and influencing international discourse on colonialism and its legacy Written at the nexus of historical and literary studies of imperial and colonial discourse Patton centres Poland and Eastern Europe in debates that have frequently excluded these perspectives Showing how these Polish writers attempted to portray anticolonial solidarity with non European victims of colonialism yet also employed European colonial tropes each writer demonstrated a distinctive ability to identify the tensions and flaws of imperialism whilst simultaneously reconciling those tensions to themselves as exceptional Europeans innocent of colonialism by alternating between metropolitan and peripheral perspectives In doing so they informed transnational discourses and policies on colonialism decolonization the Cold War and beyond

Fragmentation in East Central Europe Klaus Richter, 2020-04-02 The First World War led to a radical reshaping of Europe s political borders Nowhere was this transformation more profound than in East Central Europe where the collapse of imperial rule led to the emergence of a series of new states New borders intersected centuries old networks of commercial cultural and social exchange The new states had to face the challenges posed by territorial fragmentation and at the same time establish durable state structures within an international order that viewed them as at best weak and at worst as merely provisional entities that would sooner or later be reintegrated into their larger neighbours territory Fragmentation in East Central Europe challenges the traditional view that the emergence of

these states was the product of a radical rupture that naturally led from defunct empires to nation states Using the example of Poland and the Baltic States it retraces the roots of the interwar states of East Central Europe of their policies economic developments and of their conflicts back to the First World War At the same time it shows that these states learned to harness the dynamics caused by territorial fragmentation thus forever changing our understanding of what modern states can do

Backwardness and Modernization: Poland and Eastern Europe in the 16th-20th Centuries Jacek Kochanowicz, 2018-01-31 The subject of this book is the economic backwardness of Poland and Eastern Europe in the modern era The studies in the first part analyse various aspects of the region s economic and social history in the period from the 16th to the 20th centuries such as the nature of peasant economics the character of economic evolution and the ambiguity of social and economic relations between Poland and the West The second part deals with the change following the fall of state socialism Papers in this part argue that for understanding the present it is necessary to take into consideration historical legacies It is also important to look at the process of this recent change comparatively both within Eastern Europe and comparing this region with other parts of the world Professor Kochanowicz s contention in these essays is that the so called transformation has had to cope not only with the effects of state socialism but also with a much longer legacy of backwardness
