## **Political Context Of Collective Action Power Argumentation And Democracy:**

*Understanding Political Participation* Lynn Bennie, 2017-05-15 Developing a framework of analysis which enables a detailed empirical investigation of Scottish Green Party membership this is a detailed assessment of why people become members of a green party The questions are particularly relevant in the light of declining political participation Lynn Bennie responds to the gap in the literature on green and small parties and builds on the work of other researchers who have used similar methods to explore membership of the larger parties The volume incorporates an extensive review of participation literature details the history of the Scottish Green Party documents extensive survey data of party members and develops an understanding of motivations behind membership of a green party It will prove ideal for courses on political behaviour and green politics and be of interest to sociologists and political science researchers *The Political Context of Collective Action* Ricca Edmondson, 1997-01 The contributors to this study argue that the analysis of informal collective action should be focussed on the context in which it takes place and on the relation between the concepts of power and knowledge

Discourse and Political Culture Michael Kranert, 2019-10-15 This book presents a new approach to comparative politico linguistic discourse analysis It takes a transdisciplinary stance and combines analytical tools from linguistic discourse analysis keywords metaphors argumentation genre and political science political culture comparative politics ideologies It is comprehensive in its introduction of approaches from the German tradition of politico linguistics This tradition has not thus far been accessible to a non German speaking readership and hence the volume adds insights into the mechanics of political discourse from a diverse set of viewpoints The book analyses the modernisation discourses in social democratic parties in Britain and Germany between 1994 and 2003 a project that was named Third Way It demonstrates how political language and political culture are related and how politicians will adapt a global ideology to local political circumstances in order to convince the electorate At the same time the book presents new insights into the German political culture and the version of Third Way discourses in the Social Democratic Party of Germany SPD under the leadership of Gerhard Schröder which have played a key role in shaping current political discourse in Germany It concludes with a model for the study of political discourse which makes the work relevant to scholars in Social Sciences and beyond *Green States and Social Movements* John S. Dryzek, David Downes, Christian Hunold, David Schlosberg, Hans-Kristian Hernes, 2003-02-20 Social movements take shape in relation to the kind of state they face while over time states are transformed by the movements that they both incorporate and resist *Green States and Social Movements* is a comparative study of the environmental movement s successes and failures in four very different states the USA UK Germany and Norway The history covers the entire sweep of the modern environmental era that begins in 1970 The end in view is a green transformation of the state and society on a par with earlier transformations that gave us first the liberal capitalist state and then the welfare state The authors explain why such a transformation is now most likely in Germany and why it is least likely in the United States which has lost the status of

environmental pioneer that it gained in the early 1970s Their comparative analysis also explains the role played by social movements in making modern societies more deeply democratic and yields insights into the strategic choices of environmental movements as they decide on what terms to engage enter or resist the state Sometimes it makes sense for a movement to act conventionally as a green party or set of interest groups But sometimes inclusion can mean co optation in which case a movement can instead emphasize action in and through civil society

**Father Of Jihad, The: 'Abd Allah 'Azzam's Jihad Ideas And Implications To National Security** Muhammad Haniff Hassan,2014-04-30 This study revolves around the jihad ideas of Abd All h Azz m an iconic figure in the study of militant jihad in the 20th century history of Afghan jihad against the Soviet Union Al Qaeda and current threat of terrorism This study has several objectives some of Azz m s jihad ideas diverge from dominant ideas held by current jihadist groups like Al Qaeda and these could potentially be used to counter contemporary jihad ideas and practices of jihadists

**Challenges to Political Decision-making** Hubert Heinelt,2019-05-22 This book analyses the ability of individuals to create meaning through communicative interaction and of what seems to constrain and enable actors in taking collectively binding political decisions The book examines why in some contexts individuals consider something as evident and relevant for their action while others perceive them as nonsense or simply as fake news As such the book follows a research perspective based on a concept emphasizing that the core function of knowledge is related to the selection and integration of data and other information which give them substance Taking an interpretive political science perspective to knowledge the book overcomes particular deficiencies of policy learning concepts where the development of an understanding of reality is thematized in a way that supposedly decrypts everyday processes through which individuals understand reality and re orient their actions to intersubjective processes To better understand these intersubjective processes communicative mechanisms are worked through where knowledge claims are selected and integrated This book will be of key interest to scholars and students of political science and policy analysis and more broadly to sociology and social theory geography planning philosophy communication studies and governance studies

*The Politics of Unemployment in Europe* Marco Giugni,2016-03-03 This book offers a state of the art discussion of the political issues surrounding unemployment in Europe Its unique combination offers both a policy and institutional perspective whilst studying the viewpoint of individual civil society members engaging in collective action on the issue of joblessness It is the result of Marco Giugni s three year cross national comparative research project financed by the European Commission united with hand picked contributions from invited experts Throughout his study he focuses on how the EU approaches national unemployment the main national differences in talk about unemployment and unemployment policy and how the representatives of the unemployed produce and coordinate demands in relation to unemployment policy This book contains a number of genuinely cross national chapters along with sections on specific national cases namely the UK Ireland Germany Switzerland Belgium and Sweden

Environmental Protest and the State in France G. Hayes,2002-09-19 This book

discusses the issues and strategies which have characterized the environmental campaigns mounted against recent controversial infrastructure projects in France Focusing on the changing nature of policymaking in the Fifth Republic as a key factor in the organization of each protest Graeme Hayes asks why some protests succeed where others fail and how we should understand the relationship between states and social movements in general Social Capital and Participation in Everyday Life PAUL DEKKER, ERIC M. USLANER, 2003-12-16 This timely volume puts emphasis on the effect of social capital on everyday life how the routines of daily life lead people to get involved in their communities Focussing on its micro level causes and consequences the book's international contributors argue that social capital is fundamentally concerned with the value of social networks and about how people interact with each other The book suggests that different modes of participation have different consequences for creating or destroying a sense of community or participation The diversity of countries institutions and groups dealt with from Indian castes to Dutch churches from highly competent everyday makers in Scandinavia to politics avoiding Belgian women and Irish villagers offers fascinating case studies and theoretical reflections for the present debates about civil society and democracy Social Movements Savyasaachi, Ravi Kumar, 2017-09-19 This volume attempts to show the emerging contours of transformative action in social movements across South Asia It argues that these contours have been shaped by contestations over questions of equity justice and well being on the one hand and the nature and scope of new and classical social movements on the other This is manifest in diverse modes through people's struggles protest and dissent The authors examine a variety of themes that have determined the course of the politics of transformative struggles They critique neoliberalism primitive accumulation money class inequalities as well as aspects of capital labour conflict They highlight the contributions of movements by women dalit and marginalized communities peace movements and environmental and agrarian struggles The volume also appraises the role of internet in grassroots mobilizations and that of civil society networks in the making of participatory democracy It further argues that the predicaments of cultural ethnic national regional and linguistic identities are not divorced from capital labour conflicts The book will serve as essential reading for students and scholars of sociology social movements politics gender and feminist studies labour studies and the informed general reader
