Political Culture And Democracy In Developing Countries Textbook Edition:

Political Culture and Democracy in Developing Countries Larry Jay Diamond, 1994 This textbook edition of Political Culture and Democracy in Developing Countries has been abridged to convey the core arguments of the book in a format appropriate for classroom use

Political Culture and Democracy in Developing Countries Larry Diamond, 2022 The authors explore the complex and reciprocal interactions between a society's dominant beliefs, values and attitudes about politics and the nature of its political system

Liberal Democracy and Its Critics in Africa Tukumbi Lumumba-Kasonga, 2013-07-04 Democratic institutional forms and processes are increasingly widespread in Africa as dictatorial regimes have been forced to give way as a result of popular mobilization and external donor pressure. However, the premises of the African scholars whose empirical research and analytical explorations are included in this volume are that democratic form and democratic substance are two different things. Western derived institutional forms are neither necessarily the most appropriate nor the most practical in the current African context and rooting democratic norms in the political cultures of African polities raises socio-cultural issues with which political scientists must engage. This book explores various critical questions in the context of particular elections and particular countries as diverse as Ghana, Nigeria, Kenya, the Congo, Cameroon and the Central African Republic. They include the continuing impact of police state apparatuses following democratic transition, factors influencing African voters' attitudes and behaviour, the impact of incumbency on electoral competition, women's electoral participation, the phenomenon of often very limited party programmatic choice in the context of huge social diversity and multi-party competition and the controversial issues around the transplantation of liberal democratic institutions. Underlying these issues is the fundamental question of whether democratic processes as currently practised in Africa are really making any significant difference to the African struggle for economic, social and cultural progress. This volume is valuable for the original perspectives of its African contributors, the issues it explores and the concrete democratic experiences it analyses and the challenges it makes to the existing concepts, paradigms and practices of liberal democracy

Political Culture and Democracy in Developing Countries, 1988

The Political Economy of the Cambodian Transition Caroline Hughes, 2003-09-02 Cambodia underwent a triple transition in the 1990s from war to peace, from communism to electoral democracy and from command economy to free market. This book addresses the political economy of these transitions, examining how the much publicised international intervention to bring peace and democracy to Cambodia was subverted by the poverty of the Cambodian economy and by the state's manipulation of the move to the free market. This analysis of the material basis of obstacles to Cambodia's democratisation suggests that the long established theoretical link between economy and democracy stands even in the face of new strategies of international democracy promotion

Civil-military Relations David R Mares, 2018-02-12 This book analyses the normative and institutional aspects of the civil-military relationship to demonstrate that it is the politics of the relationship rather than its form that influences

the likelihood of democracy and regional peace It is useful for policymakers academics and general readers **Political Culture in Libya** Amal S M Obeidi,Amal Obeidi,2013-09-05 Few empirical studies of Arab countries have dealt with political culture and political socialisation or focused on people s beliefs values and attitudes towards the government or political leaders mainly because the regimes have been reluctant to allow opinion to be tested The significance of this book is that it assesses the influence of state ideology on the new generation of Libyans and examines their political culture **Political Trust and Disenchantment with Politics** ,2014-12-04 That the publics of Western democracies are becoming increasingly disenchanted with their political institutions is part of the conventional wisdom in Political Science This trend is often equated with the expectation that all forms of political attachment and participation show similar patterns of decline Based on empirical underpinnings derived from a range of original and sophisticated comparative analyses from Europe and beyond this collection shows that no such universal pattern of decline exists Nor should it be expected given the diversity of reasons that citizens have to place or withdraw trust and to engage in conventional political participation or in protest Contributors are Christoph Arndt Wiebke Breustedt Christina Eder Manfred te Grotenhuis Alexia Katsanidou Rik Linssen Michael P McDonald Ingvill C Mochmann Kenneth Newton Maria Oskarson Suzanne L Parker Glenn R Parker Markus Quandt Peer Scheepers Hans Schmeets Thoralf Stark and Terri L Towner *Urban Africa* Abdou Maliqalim Simone,Abdelghani Abouhane,2005-05 Including case studies from Dakar Addis Ababa Cape Town Kisangani Jos Zaria Cairo and Marrakesh this text presents the complex social dynamics of human survival in African cities today Political Culture and Institutional Development in Costa Rica and Nicaragua Consuelo Cruz,2005-08-22 Democracy s checkered past and uncertain future in the developing world still puzzles and fascinates In Latin America attempts to construct resilient democracies have been as pervasive as reversals have been cruel This book is based on a wealth of original historical documents and contemporary interviews with prominent political actors and analyses five centuries of political history in these paradigmatic cases of outstanding democratic success and abysmal failure It shows that while factors highlighted by standard explanations matter it is political culture that configures economic development institutional choices and political pacts in ways that directly affect both democracy s chances and its quality But it also claims that political culture is a dynamic combination of rational and normative imperatives that define actors views of the permissible shape their sense of realism structure political struggles and legitimate the resulting distribution of power
