Political Economy Of Energy In The Southern Cone:

Political Economy of Energy in the Southern Cone Anil Hira, 2003-03-30 Hira explores the impact of the neoliberal revolution in Latin America which claims the superiority of markets that are freed from government intervention and restrictions on trade and investment. He examines changes in the energy policy of the Southern Cone: Argentina, Bolivia, Brazil, Chile, Paraguay, and Uruguay, and finds that contrary to what is claimed and expected, there is a great deal of state intervention that continues through regulatory policy. All around the world, economic markets are in flux. Policies to change these markets are part of the neoliberal revolution that claims the superiority of markets freed from government intervention and restrictions on trade and investment. The general conclusion among most academic and policy analysts who study developing countries is that market liberalization is a foregone conclusion. Developing countries' choices are constrained by two primary factors: first, the burden of massive external debt that forces them to court international finance; and second, the need to gain access to the world's largest markets in Europe and/or the United States optimally through free trade agreements. The effects of market liberalization, including deregulation, privatization, and integration, require further scrutiny. Hira examines the effects of international market pressures on energy policy at the national, regional, and sectoral levels in Latin America's Southern Cone: Argentina, Bolivia, Brazil, Chile, Paraguay, and Uruguay, who belong to the MERCOSUR common market. Contrary to what is claimed and expected, he finds that a great deal of state intervention continues through regulatory policy. He also provides an thorough set of comparative political economy case studies along with a discussion of the MERCOSUR process with regards to energy. His analysis of the political economy of electricity and natural gas deregulation is especially relevant in the wake of the California energy crisis, the Enron debacle, and international discussions about energy deregulation. This book is of particular interest to scholars, students, and other researchers involved with Latin American economic development and energy policy. [Handbook of the International Political Economy of Energy and Natural Resources](#) Andreas Goldthau, Michael F. Keating, 2018-01-26 This Handbook offers a comprehensive overview of the latest research from leading scholars on the international political economy of energy and resources. Highlighting the important conceptual and empirical themes, the chapters study all levels of governance from global to local and explore the wide range of issues emerging in a changing political and economic environment. [Encyclopedia of the Developing World](#) Thomas M. Leonard, 2013-10-18 A RUSA 2007 Outstanding Reference Title. The Encyclopedia of the Developing World is a comprehensive work on the historical and current status of developing countries. Containing more than 750 entries, the Encyclopedia encompasses primarily the years since 1945 and defines development broadly, addressing not only economics but also civil society and social progress. Entries cover the most important theories and measurements of development, relate historical events, movements, and concepts to development both internationally and regionally where applicable, examine the contributions of the most important persons and organizations, and detail the progress made within geographic regions and

by individual countries **An East Asian Model for Latin American Success** Anil Hira, 2007 This book presents an alternative development path for Latin America based on an East Asian model **Energy Politics and Rural Development in Sub-Saharan Africa** Naaborle Sackeyfio, 2017-09-26 This book addresses the paradox of uneven electricity in one of the fastest growing and now petro rich economies Ghana by addressing the question of why one of the most hydro rich countries in sub Saharan Africa produces irregular access for all but swing voter regions of the country The book questions why targeted rural electricity initiatives over the course of the last two decades have yielded uneven benefits for what is a substantial portion of the country s population Using Ghana as an emblematic case study that speaks to broader regional concerns including those of Nigeria and South Africa this book contextualizes the variegated nature of how power sector reforms could not be undertaken without significant political costs Indeed the book situates an unfolding political landscape that prompted the successful but partial implementation of power sector reforms in part prompted by the Washington consensus and undergirded by a shrinking role for the state in the wider economy *The Political Economy of Hemispheric Integration* D. Sánchez-Ancochea, K. Shadlen, 2008-06-23 Benefiting from a truly Pan American perspective these essays evaluate the economics and politics of the new patterns of North South integration in the particular context of the Americas questioning if regional and bilateral trade agreements like NAFTA CAFTA or the FTAA are appropriate mechanisms to promote economic development **Deregulation and Its Discontents** M. Ramesh, Michael Howlett, 2006-01-01 an extremely interesting collection full of insights and institutional detail The book definitely deserves the attention of those interested in one of the most debated issues of the last 20 years in economics and political science Herb Thompson Journal of Contemporary Asia Deregulation and its Discontents examines the different ways in which the issues related to deregulation and reregulation have been addressed in Asia The role of government in business has gone through distinct if overlapping cycles regulation deregulation and reregulation However little is known about deregulation and even less about reregulation particularly in relation to Asia The contributors to this book examine the links between the cycles through detailed analyses of the electricity market pensions and stock markets in the Asia Pacific They also offer an explanation of regulatory cycles This unique and inter disciplinary book is thoroughly accessible and will be suitable for specialist as well as non specialist readers It will appeal to academics and researchers of public sector economics Asian studies and the political economy of Asia in particular as well as public officials dealing with regulatory issues **The Routledge Handbook to Global Political Economy** Ernesto Vivares, 2020-04-16 The Routledge Handbook to Global Political Economy provides a comprehensive guide to how Global Political Economy GPE is conceptualized and researched around the world Including contributions that range from traditional International Political Economy IPE to GPE approaches the Handbook gathers the investigations varying perspectives and innovative research of more than sixty scholars from all over the world Providing undergraduates postgraduates teachers and researchers with a complete set of traditional contending and regional

perspectives the book explores current issues conceptual tools key research debates and different methodological approaches taken Structured in five parts methodologically correlated the book presents GPE as a field of global regional and national research historical waves and diverse ontological axes major theoretical perspectives beyond traditional perspectives regional inquiries research arenas Carefully selected contributions from both established and upcoming scholars ensure that this is an eclectic pluralist and multidisciplinary work and an essential resource for all those with an interest in this complex and rapidly evolving field of study *The Political Economy of Power Sector Reform* David G. Victor, Thomas C. Heller, 2007-02-08 Over the last fifteen years the world's largest developing countries have initiated market reform in their electric power sectors from generation to distribution This book evaluates the experiences of five of those countries Brazil China India Mexico and South Africa as they have shifted from state dominated systems to schemes allowing for a larger private sector role As well as having the largest power systems in their regions and among the most rapidly rising consumption of electricity in the world these countries are the locus of massive financial investment and the effects of their power systems are increasingly felt in world fuel markets This accessible volume explains the origins of these reform efforts and offers a theory as to why despite diverse backgrounds reform efforts in all five countries have stalled in similar ways The authors also offer practical advice to improve reform policies **Inter-American Cooperation at a Crossroads** G. Mace, A. Cooper, T. Shaw, 2010-12-02 Fifteen years after the first Summit of the Americas the world and the Americas have changed enormously Competing strategies for economic development and political representation have shattered the hemispheric consensus of the 1990s This book analyzes these developments and points towards a future for inter American co operation
