Political Elites In Arab North Africa Morocco Algeria Tunisia Libya And Egypt:

Political Elites in Arab North Africa I. William Zartman, 1982 Arab Elites Volker Perthes, 2004 The recent deaths of four long term heads of state in the Arab world heralded important changes as political power passed from one generation to the next Shedding light on these changes Arab Elites explores the attitudes and political agendas of the new leadership emerging throughout the region A strong analytical framework informs the authors discussion of elites in Algeria Egypt Jordan Lebanon Morocco the Palestinian National Authority Saudi Arabia Syria and Tunisia The result is a portrait of the current state and likely future of politics in the Arab Middle East A Comparative Political Economy of Tunisia and Morocco Gregory White, 2001-07-26 This book examines the profound impact of European integration on two North African countries Tunisia and Morocco Confronting the theoretical literatures on the entanglements of the domestic and international realms and the intricate role played by the middle income state in the international arena White provides the first detailed comparison of Tunisia and Morocco s post independence political economies especially in the context of the Euro Mediterranean Partnerships signed with the European Union in the late 1990s North African states must act on the one hand as entrepreneurs seeking to encourage trade and attract foreign investment within the domestic economy in the process of crafting foreign economic policy with the European Union On the other hand such states are constrained by domestic pressures such as imperatives to secure job creation and maintain internal security Countries on the periphery are therefore faced with two distinct questions first how does a middle income state balance its conflicting roles and manage its relations with a regional power and second how does the relationship with the outside world affect key domestic actors Answering these questions is one of the primary challenges facing Tunisia and Morocco in the new decade **Elites and the Politics of Accountability in Africa** Wale Adebawale, Rogers Orock, 2021-05-24 Elites and the Politics of Accountability in Africa examines the ways that accountability offers an effective interpretive lens to the social cultural and institutional struggles of both the elites and ordinary citizens in Africa Each chapter investigates questions of power its public deliberation and its negotiation in Africa by studying elites through the framework of accountability The book enters conversations about political subjectivity and agency especially from ongoing struggles around identities and belonging as well as representation and legitimacy Who speaks to whom And on whose behalf do they speak The contributors to this volume offer careful analyses of how such concerns are embedded in wider forms of cultural social and institutional discussions about transparency collective responsibility community and public decision making processes These concerns affect prospects for democratic oversight as well as questions of alienation exclusivity privilege and democratic deficit The book situates our understanding of the emergence meaning and conceptual relevance of elite accountability to study political practices in Africa It then juxtaposes this contextualization of accountability in relation to the practices of African elites Elites and the Politics of Accountability in Africa offers fresh dynamic and multifarious accounts of elites and their practices of

accountability and locally plausible self legitimation as well as illuminating accounts of contemporary African elites in relation to their socially and historically situated outcomes of contingency composition negotiation and compromise Islam, Democracy and Governance in the North African Countries Ahmed Jazouli, 2006 Examines political economic and judicial systems as well as human rights and tools for good governance in the North African countries of Morocco Algeria Tunisia Libya and Egypt *Islam and Democratization in Asia*, **Administration and Development in the Arab World** Jamil Jreisat, Zaki R. Ghosheh, 2016-03-22 This book first published in 1986 examines the literature on administration human resources and development in the Arab world It emphasizes contemporary societies and their internal dynamics the least known and most critical aspects of Arabic studies **When Parliaments Ruled the Middle East** Matthieu Rey, 2022-02-02 An essential study of parliamentary politics in postwar Iraq and Syria before the consolidation of authoritarian rule under the Ba'ath Party *When Parliaments Ruled the Middle East* explores three main interrelated issues to clarify what happened between 1946 and 1963 in Iraq and Syria how and why a parliamentary system prevailed in both countries in the aftermath of the Second World War what social effects this system triggered and in turn how these changes affected the system and finally why the elites in both countries were unable to overcome the unrest that brought an end to both a liberal era and to a certain kind of political game Drawing on a vast array of sources and rich archival research in French English and Arabic Matthieu Rey highlights the processes of the parliamentary system in the modern era which are very common to post independence countries and to any representative regime He tackles the intersection of multifaceted political phenomena that were present in that moment in Iraq and Syria including regular elections the implementation of emergency law the freedom of the press the open expression of opinions the formation of new political parties frequent military coups and the joint exercise of power by members of the old classes and reformist newcomers Treating this period as neither an epilogue of the liberal order nor a prelude to authoritarianism and stressing the contingent improvisatory aspects of political history Rey fundamentally questions the transitional nature of the period and in doing so proposes new ways and tools of examining it

Imagery and Ideology in U.S. Policy Toward Libya 1969-1982 Mahmoud Gebril, 2010-11-23 How close to reality was the official U S image of Libya through the Nixon Ford Carter and Reagan administrations After recounting the actions of Libya and the United States in the Middle East since 1969 ElWahrfully concludes that it was very far from accurate Using personal interviews as well as scholarly research ElWarfully demonstrates that recent U S relations with Libya regardless of rhetoric have been primarily determined by whether or not Libya serves U S interests in the region maintaining access to Middle Eastern oil protecting Israel and limiting Soviet expansionism Just as the official image of Libya has veered from one extreme to another U S policy responses have also often conflicted with the publicly stated view The Nixon administration was at first friendly toward Libya even though Qaddafi ejected the U S military and nationalized the oil industry because of Libya's avowed anticommunism and U S dependence on Libyan oil After 1976 the official U S image was more hostile and

Libya was attacked as a destabilizing influence in the Middle East. Outrage reached new heights during the Reagan administration which made several unsuccessful covert attempts to unseat Qaddafi. He mounted an embargo and military provocations and in 1986 bombed Libya on a pretext later revealed to be false. Combining theory with current history, this book demonstrates that fixed ideas and misinterpretation of events may have more to do with foreign policy behavior than facts do. Suggesting a new direction for research into relations between the superpowers and the Third World, it will interest scholars, students, and policymakers concerned with the Middle East.

The Persistence of Patriarchy Jennifer Knauss, 1987-08-10. This sociopolitical study shows why patriarchy has been the dominant pattern in Algeria in spite of colonialism, revolutionary war, and the implementation of state socialism after independence. Knauss carefully analyzes Algerian class formation, ideology, and gender relations and then demonstrates how these factors decisively influenced the persistence of patriarchy as well as the status of women. To further enhance this model historical drama, there are interviews with former President Ahmed Ben Bella, Berber activist Hocine Ait Ahmed, and exiled socialist Mohammed Boudiaf.
