Mbaku, 2018-01-26 In this enlightening book John Mukum Mbaku analyses the main challenges of constitutional design and the construction of governance institutions in Africa today He argues that the central issues are providing each country with a constitutional order that is capable of successfully managing sectarian conflict and enhancing peaceful coexistence protecting the rights of citizens including those of minorities minimizing the monopolization of political space by the majority to the detriment of minorities and effectively preventing government impunity Mbaku offers a comprehensive analysis of various approaches to the management of diversity and shows how these approaches can inform Africa s struggle to promote peace and good governance He explores in depth the existence of dysfunctional and anachronistic laws and institutions inherited from the colonial state and the process through which laws and institutions are formulated or constructed adopted and amended A close look at the constitutional experiences of the American Republic provides important lessons for constitutional design and constitutionalism in Africa Additionally comparative politics and comparative constitutional law also provide important lessons for the management of diversity in African countries Mbaku recommends state reconstruction through constitutional design as a way for each African country to provide itself with laws and institutions that reflect the realities of each country including the necessary mechanisms and tools for the protection of the rights of minorities From students and scholars to NGOs lawyers and policymakers this unique and judicious book is an essential tool for all those seeking to understand and improve governance and development in Africa

Aftershocks Seva Gunitzky, 2017-03-28 Over the past century democracy spread around the world in turbulent bursts of change sweeping across national borders in dramatic cascades of revolution and reform Aftershocks offers a new global oriented explanation for this wavelike spread and

retreat not only of democracy but also of its twentieth century rivals fascism and communism Seva Gunitsky argues that waves of regime change are driven by the aftermath of cataclysmic disruptions to the international system These hegemonic shocks marked by the sudden rise and fall of great powers have been essential and often neglected drivers of domestic transformations Though rare and fleeting they not only repeatedly alter the global hierarchy of powerful states but also create unique and powerful opportunities for sweeping national reforms by triggering military impositions swiftly changing the incentives of domestic actors or transforming the basis of political legitimacy itself As a result the evolution of modern regimes cannot be fully understood without examining the consequences of clashes between great powers which repeatedly and often unsuccessfully sought to cajole inspire and intimidate other states into joining their camps
