Political Parties And Elections In The French Fifth Republic:

Political Parties and Elections in the French Fifth Republic J. R. Frears, 1977 *The Government of the Fifth Republic* J. A. Laplace, 1961 **Political Parties in the European Community** Stanley Henig, 2025-09-12 Political Parties in the European Community 1979 looks at the decision by the member governments of the European Community to proceed to the direct election of a European Parliament It provides a full survey of the parties of the nine EC states giving both information and analysis on political and electoral systems party systems philosophy and structure of major parties finances membership and organisation In addition it deals with the evolution of transnational groupings of parties both inside and outside the European Parliament and the concluding chapter places Europe's parties in the overall context of the political societies within which they operate **French Presidentialism and the Election of 1995** Lorna Milne, John Gaffney, 2018-12-21 First published in 1997 this volume examines the presidential elections one of the central events of the democratic process in France and arguably the main organising principle of French politics since 1962 provide an opportunity to assess the development of the regime More significantly they allow us to assess modifications to the office of president and to French Presidentialism which are both reflected in and affected by the electoral campaign and the elections themselves This book provides such an assessment with specific reference to the candidates issues and events of the 1995 Presidential elections **French Political Parties Under the Fifth Republic** Frank Lee Wilson, 1982 *French Politics* Robert Elgie, Steven Griggs, 2013-10-18 Accessible up to date and comprehensive this is an essential introduction to the French political system Featuring detailed analysis of the most important debates and controversies concerning French politics today the expert authors conclude that study of this subject is being transformed in response to a changing global European and domestic environment Includes coverage of the relationship between president and prime minister voting behaviour European integration the changing parameters of state intervention **French Political Parties in Transition** Alistair Cole, 1990 *Political Parties in Advanced Industrial Democracies* Paul Webb, David Farrell, Ian Holliday, 2002-09-26 How relevant and vital are political parties in contemporary democracies Do they fulfill the functions that any stable and effective democracy might expect of them or are they little more than moribund anachronisms relics of a past age of political life now superseded by other mechanisms of linkage between state and society These are the central questions which this book aims to address through a rigorous comparative analysis of political parties operating in the world's advanced industrial democracies Drawing on the expertise of an impressive team of internationally known specialists the book engages systematically with the evidence to show that while a degree of popular cynicism towards them is often chronic though rarely acute parties have adapted and survived as organizations remodelling themselves to the needs of an era in which patterns of linkage and communication with social groups have been transformed This has enabled them to remain central to democratic systems especially in respect of the political functions of governance recruitment and albeit more problematically interest

aggregation On the other hand the challenges they face in respect of interest articulation communication and participation have pushed parties into more marginal roles within Western political systems The implications of these findings for democracy depend on the observer's normative and theoretical perspectives Those who understand democracy primarily in terms of popular choice and control in public affairs will probably see parties as continuing to play a central role while those who place greater store by the more demanding criteria of optimizing interests and instilling civic orientations among citizens are far more likely to be fundamentally critical
